A REQUEST TO AMEND THE COMMUNITY DEVELOPMENT CODE TO AMEND THE DEFINITION OF DUPLEX, DEFINE AND ADOPT DEVELOPMENT STANDARDS FOR MULTI-DWELLING DEVELOPMENT TYPES; AND AMEND THE RESIDENTIAL USE TABLE

LU 15-0010
CITY OF LAKE OSWEGO

FINDINGS AND CONCLUSIONS

NATURE OF PROCEEDINGS

This matter came before the Lake Oswego City Council on the recommendation of the Planning Commission, pursuant to an application by the City to amend the Community Development Code to:

• Clarify the definition of “duplex” (LOC 50.10.003.2);
• Add “multi-dwelling development” as a residential use (LOC 50.03.002) and adopt associated standards (LOC 50.06.001, 002, .003, .004);
• Amend the Open Space requirement for multifamily and multi-dwelling development in the R-0 zone (LOC 50.06.005); and
• Amend the Residential Use Table (LOC 50.03.002).

HEARINGS

The Planning Commission held a public hearing and considered this application at its meetings of June 22, 2015 and July 13, 2015. The City Council held a public hearing to consider the Planning Commission’s recommendation on October 6, 2015.

FINDINGS AND REASONS

The City Council incorporates the Findings and Conclusions of the Planning Commission in this matter, together with the staff report dated April 15, 2015 and memoranda dated February 17, March 2 and March 19, 2015, with all exhibits attached thereto, as support for its decision, supplemented by the further findings and conclusions set forth herein. In the event of any inconsistency between the supplemental findings and the incorporated matters, the supplemental findings control.

Following are the supplemental findings and conclusions of this Council:

Definition of Duplex

The City Council concurs with the Planning Commission that an amendment to the definition of “Duplex” to clarify that it means a single detached building on its own lot, as
concluded in Planning Director’s January 23, 2015 interpretation, is consistent with the intent of the Code and should be adopted.

**Residential Use Table Amendments**

The City Council finds that the proposed amendments to the Residential Use Table (LOC 50.03.002) to correct inconsistencies resulting from the 2012 Code Reorganization are appropriate for the reasons stated in the incorporated Planning Commission findings. The Council also agrees with the conclusion of the Planning Commission to delete “Dwelling unit, any type” from the Residential Use Table and permit only those dwelling types expressly listed in the table.

**Clear and Objective Building Design Standards**

The Commission recommended amending the Clear and Objective Building Design standards in LOC 50.06.001.7 to add a requirement for a minimum 25% glazing on street or public space-facing elevations for townhouse or rowhouse development, similar to the 30% glazing currently required for upper stories on multi-family and residential mixed use structures. The City Council agrees, and finds that this supports the purpose of the Clear and Objective Building Design standards to create “visually interesting and attractive building facades.”

The requirement for arcades, roofs, alcoves, porticos or awnings on multi-family, residential mixed-use, and townhouse/rowhouse structures should be eliminated as it is redundant with the new standard for multi-family and residential mixed use structures adopted as part of the Clear and Objective Housing Standards, and was not intended to apply to townhouse/rowhouse structures.

**Multi-Dwelling Development**

The City Council agrees with the conclusion of the Planning Commission, as well as the testimony in the record, that the proposal to add “Multi-dwelling development” as a new type of residential use in the R-5, R-DD, R-3, and R-0 zones should not be adopted. Creating this new
housing type is inappropriate at this time because of uncertainties about potential
development configurations and resulting impacts, coupled with the lack of evidence of a
sufficient need for the change.

The City Council also agrees with the Planning Commission that the proposal to reduce
the required Park and Open Space Contributions in the R-0 zone for multi-family development
from 20% to 10% of the gross land area on sites less than or equal to 16,000 sq. ft. in size
should not be adopted. There is insufficient evidence of a need to make a special provision for
smaller sites. The Council finds that the current open space requirement is appropriate.

**CONCLUSION**

The City Council concludes that LU 15-0010, as modified to be consistent with the
recommendation of the Planning Commission, complies with all applicable criteria and should
be approved. The Council also concludes that the A-1.1 version of proposed Ordinance 2667,
which implements modified LU 15-0010, should be enacted.
