CHAPTER 1
GENERAL ORDINANCE PROVISIONS

1.100 INTRODUCTORY PROVISIONS

1.101 TITLE

This Ordinance shall be known and may be referred to as the City of Sublimity Zoning and Development Ordinance.

1.102 PURPOSE AND SCOPE

1.102.01 Purpose

This Ordinance is enacted to:

A. Implement the goals and policies of the City of Sublimity Comprehensive Land Use Plan;

B. Provide methods of administering and enforcing the provisions of this Ordinance; and

C. Promote the public health, safety, and general welfare of the community.

1.102.02 Conformance Required

The use of all land, as well as the construction, reconstruction, enlargement, structural alteration, movement, use, or occupation of any structure within the City of Sublimity shall conform to the requirements of this Ordinance.

1.102.03 Violations

Upon failure to comply with any provision of this Ordinance, or with any restrictions or conditions imposed hereunder, the Council may withhold any further permits and may withhold or withdraw City utility services until correction is made. Notwithstanding any such action taken by the Council, any person, firm or corporation who violates, disobeys, omits, neglects, or refuses to comply with any of the provisions of the Ordinance, or who resists the enforcement of such provisions, shall be subject to civil penalties of no more than $500.00 for each offense. Each day that a violation is permitted to exist shall constitute a separate offense.

1.102.04 Interpretation

The provisions of this Ordinance shall be interpreted as minimum requirements. When this Ordinance imposes a greater restriction than is required by other provisions of law, or by other regulations, resolutions, easements, covenants or agreements between parties, the provisions of this Ordinance shall control.

When a certain provision of this Ordinance conflicts with another provision of this Ordinance or is unclear, the correct interpretation of the Ordinance shall be determined by the City Recorder. The City Recorder may, at his/her discretion, request that the City Council resolve the conflict or uncertainty.

1.102.05 Savings Clause

Should any section, clause or provision of this ordinance be declared invalid by a court of
competent jurisdiction, the decision shall not affect the validity of the Ordinance as a whole or of the remaining sections. Each section, clause and phrase is declared severable.

1.102.06 Conflicting Ordinances

City of Sublimity Ordinances 138, 138A, 139, 284, 285, 285A, 303, 350 and 352 and all other ordinances or parts of ordinances in conflict herewith are hereby repealed.

1.103 ESTABLISHMENT OF ZONING DISTRICTS

1.103.01 Districts

For the purposes of this ordinance, the incorporated area of the City of Sublimity, Oregon, is hereby divided into the following zoning districts:

<table>
<thead>
<tr>
<th>Zoning District Name</th>
<th>Section</th>
</tr>
</thead>
<tbody>
<tr>
<td>Low Density Residential District (R-1)</td>
<td>2.101</td>
</tr>
<tr>
<td>High Density Residential District (R-2)</td>
<td>2.102</td>
</tr>
<tr>
<td>Commercial District (C)</td>
<td>2.103</td>
</tr>
<tr>
<td>Industrial-Commercial District (IC)</td>
<td>2.104</td>
</tr>
<tr>
<td>Public/Semi-Public District (P)</td>
<td>2.105</td>
</tr>
</tbody>
</table>

1.103.02 Boundaries

A. The zoning district boundaries are shown on the zoning map of the City of Sublimity. This map is made a part of this Ordinance.

Any future changes to the zoning of land within the City of Sublimity which are approved under the provisions of this Ordinance shall be appropriately depicted on the Sublimity Zoning Map.

B. The Planning Commission shall resolve any dispute over the exact location of a zoning district boundary. In interpreting the location of such boundaries on the Sublimity Zoning Map, the Planning Commission shall rely on the Sublimity Comprehensive Plan Map and the following guidelines for the location of zoning district boundaries; property lines; lot lines; center lines of streets, alleys, streams, or railroads; City boundaries; notations on the Sublimity Zoning Map; or other planning criteria determined appropriate by the Planning Commission.
1.200 DEFINITIONS

**Access:** The way or means by which pedestrians and vehicles shall have safe, adequate and usable ingress and egress to property.

**Combined:** The use of a single access point by multiple vehicles or pedestrians.

**Aligned:** The alignment of the centerlines of access points on opposite sides of a street, alley, or driveway.

**Accessory Building or Use:** A structure or use which is clearly incidental and subordinate to the main building or use on the same lot.

**Adjoining:** Contiguous or abutting, exclusive of street width. It shall include the terms adjacent, abutting, or contiguous.

**Administrative Review:** A decision affecting land use within the City which is based on the application and/or enforcement of existing standards contained in this Ordinance. Administrative decisions will be made by the City Recorder.

**Alley:** See Street.

**Alteration, Structural:** Any change in the exterior dimensions of a building or a change or repair which would affect or materially change a supporting member of a building, such as a bearing wall, column, beam, or girder.

**Area of Special Flood Hazard:** Lands in the designated floodplain which are subject to a one percent (1%) or greater chance of flooding in any given year. Also, commonly referred to as the 100-year floodplain.

**Automobile, Recreational Vehicle or Trailer Sales Areas:** A lot used for display, sale, or rental of new or used automobiles, recreational vehicles or trailers where no repair work is done except minor, incidental repairs of automobiles or trailers to be displayed, sold or rented on the premises.

**Automobile Service Station:** A building designed primarily for the supplying of motor fuel, oil, lubrication and accessories to motor vehicles, but excluding major repair and overhaul.

**Awning:** A roof-like cover that is temporary or portable in nature and that projects from the wall of a building for the purpose of shielding a doorway or window from the elements and is periodically retracted into the face of the building.

**Base Flood:** A flood having a one percent (1%) chance of being equaled or exceeded in any given year.

**Basement:** That portion of a building between floor and ceiling which is partly below and partly above grade, but so located that the vertical distance from grade to the floor below is equal to or greater than the vertical distance from grade to ceiling. If such portion of a building is not a basement, then it shall be considered a story.

*See accompanying graphics in Appendix A.  Note: Graphics are for illustrative purposed only.

**Bed and Breakfast Establishment:** A structure designed and occupied as a residence and in
which a maximum of five (5) sleeping rooms and a morning meal are provided on a daily or weekly basis for use by travelers or transients for a charge or fee paid for the rental or use of the facilities.

*Berm:* A man made mound or small hill or earth used to deflect sound or used as a buffer in landscaping provisions to separate incompatible areas or to provide aesthetic enhancement in site design.

*Block:* A unit of land bounded by streets or by a combination or streets and public land, railroad rights of way, waterways, or any other barrier to the continuity of development.

*Buffering:* Open spaces, landscaped areas, fences, wall, berms, or any combination thereof used to physically separate or screen on use or property from another so as to visually shield or block noise, lights or other nuisances.

Building: A structure having a roof and built for the support, shelter, or enclosure of persons, animals, or property of any kind.

*Face:* That side of a building abutting on a street.

*Frontage:* That side of a lot abutting on a street; the front lot line.

*Front Wall:* The building wall with frontage.

*Height:* The vertical distance from finished grade to the top of the highest roof beams on a flat or shed roof, the deck level on a mansard roof, and the average distance between the eaves and the ridge level for gable, hip, and gambrel roofs.

Building Line: A line parallel to the street line touching that part of the building closest to the street.

Carport: A stationary structure consisting of a roof with its supports and not more than one wall or storage cabinet substituting for a wall and used for covering a vehicle parking space.

Cemetery: Land used or intended to be used for the burial of the dead, and dedicated for cemetery purposes, including a columbarium, crematory, mausoleum, or mortuary, when operated in conjunction with and within the boundary of such cemetery.

Center Street Commercial Corridor: Applies to all commercially designated property with a minimum of twenty-five feet of frontage on Center Street, also referred to as Cascade Highway.

Change of Use: A change of use on a property that intensifies activity on the property over the previous use. Intensification is determined based upon requiring different development standards, such as but not limited to, parking, utility, sign, or landscaping requirements.

Church: A permanently located building primarily used for religious worship.

City: The City of Sublimity, Oregon.

*See accompanying graphics in Appendix A.

Note: Graphics are for illustrative purposes only.

*Clear-Vision Area:* A triangular area located at the intersection of any streets, alleys, or driveways in any combination, two sides of which are lines measured from the corner
intersection of the right-of-way lines or property lines for a specified distance. The third side of the triangle is a line across the corner of the lot joining the ends of the other two sides. Where the lines at the intersections have rounded corners the right-of-way lines will be extended in a straight line to a point of intersection. See accompanying graphic and Section 2.209.08 for distances.

**Clinic:** A facility for examination and treatment of human ailments by a group of physicians, dentists, or other licensed practitioners on an out-patient basis and not involving overnight housing of patients.

**Club:** An organization, group, or association supported by the members thereof, the purpose of which is to render a service primarily for members and their guests, but shall not include any organization, group, or association the chief activity of which is to render a service customarily carried on as a business for profit.

**Commercial Storage:** See Warehouse.

**Commission:** The City Planning Commission of Sublimity, Oregon.

**Community Building:** A publicly owned and operated facility used for meetings, recreation, or education.

**Communications Antennas:** Devises used for sending and receiving information via different forms of transmission.

**Communications Towers:** Structures used for sending and receiving information via different forms of transmission.

**Comprehensive Plan:** The Comprehensive Plan of the City of Sublimity, Oregon.

**Critical Feature:** An integral and readily identifiable part of a flood protection system, without which the flood protection provided by the entire system would be compromised.

**Day Care Center:** A facility which provides care for 13 or more children.

**Day Nursery:** A home which provides care for 12 or fewer children.

**Development:** Any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation, or drilling operations.

**Dwelling-Multi-Family:** A building containing three (3) or more dwelling units designed for occupancy by three (3) or more families living independently of each other.

**Dwelling-Single-Family-Detached:** A detached building containing one dwelling unit designed exclusively for occupancy by one (1) family.

*See accompanying graphics in Appendix A.*

**Dwelling-Townhouse:** A multi-family structure so designed that each individual dwelling unit is located upon a separate lot or parcel.
**Dwelling-Two-Family (Duplex):** A detached building containing two (2) dwelling units designed exclusively for occupancy by two (2) families living independently of each other.

**Dwelling Unit:** One or more rooms designed for occupancy by one family and not having more than one cooking facility. Includes all conventional and prefabricated housing which meets Uniform Building Code specifications and is constructed on a permanent foundation.

**Easement:** A grant of right to use an area of land for a specific purpose.

**Eave:** The projecting lower edges of a roof overhanging the wall of a building.

**Family:** An individual or two or more persons related by blood, marriage, adoption, or legal guardianship and living together as one housekeeping unit, and providing meals or lodging to not more than two additional persons, excluding servants; or a group of not more than five (5) unrelated persons living together as one housekeeping unit.

**Fence:** An unroofed barrier or an unroofed enclosing structure or obstruction constructed of any materials including but not limited to, wire, wood, cement, brick, and plastic.

**Fence, Sight Obscuring:** A fence or evergreen planting arranged in such a way as to obstruct vision.

**Flood Insurance Rate Map (FIRM):** The official map on which the Federal Emergency Management Agency (FEMA) has designated areas of special flood hazard within Sublimity urban area.

**Floodway:** The channel of a river or other watercourse together with the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one (1) foot.

**Floodway Fringe:** The land between the limits of the floodway and the one-hundred year floodplain.

**Floor Area:** The sum of the gross horizontal areas of the several floors of a building, measured from the exterior faces of the exterior walls or from the centerline of walls separating two buildings, but not including:

1. Attic space providing headroom of less than seven feet;
2. Basement, if the floor above is less than six feet above grade;
3. Uncovered steps or fire escapes;
4. Private garages, carports, or porches;
5. Accessory water towers or cooling towers;
6. Off-street parking or loading spaces.

**Garage, Private:** A detached accessory building or portion of a main building used for the parking or temporary storage of automobiles in which no business, occupation, or service is provided.

**Garage, Public:** A building, other than a private garage, used for the care, repair, or equipping
of motor vehicles, or where such vehicles are parked or stored for compensation, hire, or sale.

**Garden / Storage Building:** An accessory building 120 square feet or less in size used for storing garden, landscaping, and miscellaneous household items.

**Government Structure:** Any building, structure, facility, or complex used by the general public, whether constructed by any state, county, municipal government agency or special district.

*Grade:* The average elevation of the finished ground at the centers of all walls of a building, except that if a wall is parallel to and within five feet of a sidewalk, the sidewalk elevation opposite the center of the wall shall constitute the ground elevation.

**Home Occupation:** An accessory use of a dwelling unit for gainful employment involving the manufacture, provision, or sale of goods and/or services. The primary use of the dwelling unit is residential.

**Hospital:** An establishment which provides sleeping and eating facilities to persons receiving medical, obstetrical, or surgical care with nursing service on a continuous basis.

**Hotel:** Any building with six (6) or more rooms in which lodging is provided to guests for compensation and in which no provision is made for cooking in individual rooms.

*Institutional Use / Place of Public Assembly:* A nonprofit, religious, or public use, such as a church, public or private school, hospital, or government owned or operated building, structure, or land used for public purpose.

**Junk Yards:** The use of more than 200 square feet of the area of any lot for the storage of salvage materials, including scrap metals or other scrap materials, or for the dismantling or "wrecking" of automobiles or other vehicles or machinery, whether or not such uses are conducted as a business for profit or otherwise.

**Kennel:** Any lot or premises on which four (4) or more dogs and/or cats over the age of four months are kept for sale, lease, boarding, or training.

**Land Division:** Any partition or subdivision of a lot or parcel.

**Livestock:** Domestic animals of types customarily raised or kept on farms for profit or other purposes.

*Loading Space:* An off-street space or berth on the same lot with a building, or contiguous to a group of buildings, used for the temporary parking of a commercial vehicle while loading or unloading merchandise or materials, and which abuts upon a street, alley or other appropriate means of access.

*See accompanying graphics in Appendix A.  Note: Graphics are for illustrative purposes only.

**Lot:** A parcel of land of at least sufficient size to meet minimum zoning requirements for use, coverage, and area, and to provide such yard and other open spaces as herein required; such lots shall have frontage on a public street, and may consist of:

1. Single lot of record;
2. Portion of a lot of record; or
3. Combination of complete lots of record and portions of lots of record.

*Lot Area:* The total area of a lot, measured in a horizontal plane within the lot boundary lines, exclusive of public and private roads and easements of access to other property. For flag-shaped lots, the access strip shall not be included in lot area for the purposes of minimum lot area requirements of this Ordinance.

*Lot of Record:* A lawfully created lot or parcel established by plat, deed, or contract as duly recorded in Marion County property records.

*Lot, Corner:* A lot abutting on two intersecting streets, other than an alley, where the angle of intersecting streets is no greater than 135 degrees.

*Lot Coverage:* The portion of a lot covered or occupied by buildings or other structures.

*Lot Depth:* The horizontal distance measured from the midpoint of the front lot line to the midpoint of the rear lot line.

*Lot, Flag:* A lot which has a narrow strip of land abutting the street and expands into a larger area. A lot shall not be considered to be a flat if the frontage meets the minimum parcel width.

*Lot Frontage (Width):* The distance between the two side lot lines measured at the setback line, parallel to the street line.

*Lot, Interior:* A lot other than a corner lot.

*Lot, Through:* An interior lot having frontage on two streets.

*Lot Line, Front:* The property line separating the lot from the street, other than an alley. In the case of a corner lot, the shortest property line along a street, other than an alley.

*Lot Line, Rear:* A property line which is opposite and most distant from the front lot line. In the case of an irregular, triangular or other shaped lot, a line ten (10) feet in length within the lot, parallel to and at a maximum distance from the front line.

*Lot Line, Side:* Any property line which is not a front or rear lot line.

Lot (Property) Line Adjustment: A property line adjustment shall act to vacate and replace the existing property line(s) between adjacent properties. The number of parcels resulting from the property line adjustment:
   a. are equal to the number of original lots or parcels, and
   b. create parcels in compliance with City standards.

*See accompanying graphics in Appendix A.  Note:  Graphics are for illustrative purposes only.

Lowest Floor: The lowest floor of the lowest enclosed area, including basement, of a building or structure.

Manufactured Home Park: Any place where four (4) or more manufactured homes are located within 500 feet of one another on a lot, tract, or parcel of land under the same ownership, the primary purpose of which is to rent manufactured homes or manufactured home
spaces or keep the same for rent to any person for a charge or fee paid or to be paid for the rental or use of facilities or to offer space free in connection with securing the trade or patronage of such person. A person shall not construct a new manufactured home park or add lots to an existing mobile or manufactured home park without approval by the Department of Commerce. “Manufactured home park” does not include a lot or lots located within a subdivision being rented or leased for occupancy by no more than one (1) manufactured home per lot if the subdivision was approved pursuant to Section Article 5 of this Ordinance.

Master Plan: A sketch or other presentation showing the ultimate development lay-out of a parcel or property that is to be developed in successive stages or subdivisions.

Mini-Storage Warehouse: An area or areas located within an enclosed building or structure used only in connection with a residential land use for the storage of nonflammable or non explosive materials.

Mobile Home: A mobile home means:

1. A residential trailer, a structure constructed for movement on the public highways, that has sleeping, cooking and plumbing facilities, that is intended for human occupancy, is being used for residential purposes and was constructed before January 1, 1962.

2. A mobile house, a structure constructed for movement on the public highways, that has sleeping, cooking and plumbing facilities, that is intended for human occupancy, is being used for residential purposes and was constructed between January 1, 1962, and June 15, 1976, and met the construction requirements of Oregon mobile home law in effect at the time of construction.

3. A manufactured home, a structure with a Department of Housing and Urban Development label certifying that the structure is constructed in accordance with the National Housing Construction and Safety Standards Act of 1974 (42 U.S.C. 5401 et seq.), as amended August 22, 1981, and constructed after June 15, 1976.

Modular or Prefabricated Home: A dwelling unit whose components are assembled and brought to the site and erected. The dwelling unit is intended and designed to be placed upon a permanent foundation and substantial construction is needed before it is complete and ready for permanent occupancy. Modular or prefabricated homes are regulated by the Uniform Building Code (UBC).

Motel: A building or group of buildings on the same lot containing six (6) or more rooms designed for lodging, with or without cooking facilities, which are available for rent and in which each lodging unit has a separate entrance from the building exterior. The term includes auto courts, tourist courts, tourist homes, and motor lodges.

*See accompanying graphics in Appendix A. Note: Graphics are for illustrative purposes only.

*Multiuse Building: A building containing two (2) or more distinct uses under different business names or ownerships.

New Construction: Structures for which construction was initiated on or after the effective date of this Ordinance.

Non-Conforming Structure or Use: A lawfully existing structure or use at the time this
Ordinance or any amendments thereto becomes effective, which does not conform to the requirements of the zone in which it is located.

*Offset, Front Wall: Designs that preclude large expanses of uninterrupted building surfaces including, but not limited to, balconies, insets, projections, or similar elements.

*Offset, Roof line: See Offset, Front Wall.

One-Hundred Year Floodplain: See "Area of Special Flood Hazard."

Owner: The owner of record of real property as shown on the latest tax rolls or deed records of the county, or a person who is purchasing a parcel or property under written contract.

*Parking Area, Shared: Joint use of a parking area for more than one use, or by one or more individuals or businesses.

Parking Area, Private: An open area, building or structure, other than a street or alley, used for the parking of the automobiles of residents and guests of a building.

*Parking Area, Public: An open area, building or structure, other than a private parking area, street or alley, used for the parking of automobiles and other motor vehicles, but not to include trucks, and available for use by persons patronizing a particular building or establishment.

*Parking Space: An enclosed or unenclosed surfaced area, exclusive of maneuvering and access area, permanently reserved for the temporary storage of an automobile and connected with a street or alley by a surfaced driveway which affords ingress and egress for automobiles.

Partition: To divide an area or tract of land into two or three parcels within a calendar year when such area or tract of land exists as a unit or contiguous units of land under single ownership at the beginning of such year. "Partition" does not include:

1. Divisions of land resulting from lien foreclosures, divisions of land resulting from contracts for the sale of real property and divisions of land resulting from the creation of cemetery lots; or

2. Any adjustment of a lot line by the relocation of a common boundary where an additional parcel is not created and where the existing parcel reduced in size by the adjustment is not reduced below the minimum lot size established by any applicable zoning ordinance; or

3. A sale or grant by a person to a public agency or public body for state highway, county road, or other right-of-way purposes provided that such road or right-of-way complies with the applicable comprehensive plan and ORS 215.213 (2)(q) to (s) and 215.283 (2)(p) to (r).

Person: Every natural person, firm, partnership, association, social or fraternal organization, corporation, estate, trust, receiver, syndicate, branch of government, or any other group or combination acting as a unit.

Planned Unit Development: A type of development of a site which, as a single project, is based on a design which incorporates all elements of land, structures and uses in conformance with the applicable standards of this Ordinance.
**Planning Commission:** The Planning Commission of Sublimity, Oregon.

**Plat:** The final map which is a diagram, drawing, re-plat or other writing containing all the descriptions, locations, specifications, dedications, provisions, and information concerning a subdivision or partition.

**Porches, Covered:** A roofed open area, which may be screened, usually attached to or part of and with direct access to or from a building.

**Porches, Uncovered:** A surfaced open area, which may be screened, usually attached to or part of and with direct access to or from a building.

**Primary Surface:** A surface longitudinally centered on a runway. When the runway has a specially prepared hard surface, the Primary Surface extends 200 feet beyond each end of that runway. When the runway has no specially prepared hard surface, or planned hard surface, the Primary Surface ends at each end of that runway. The width of the Primary Surface is 250 feet for Utility Runways having only visual approaches and 500 feet for other than utility runways.

**Professional Office:** An office occupied by an accountant, architect, artist, attorney-at-law, professional engineer, land surveyor, land use planner, insurance agent, real estate broker, landscape architect, or practitioner of the human healing arts, or other professional business similar in type, scale and character.

**Public Facility:** See Government Structure.

**Quasi-Judicial Review:** A decision affecting land use within the City which requires the interruption and/or amendment of existing standards or maps contained in this Ordinance. Quasi-Judicial decisions are heard by the Planning Commission. The decision of the Planning Commission is final except when the decision would necessitate an amendment to this ordinance. In those cases the Planning Commission decision is forwarded as a recommendation to the City Council for a final decision. Quasi-judicial review is required for Variances, Conditional Use Permits, Major Partitions, Subdivisions, Planned Unit Developments, Comprehensive Plan and Zone Changes, and Urban Growth Boundary Amendments.

**Recreational Vehicle:** A vehicle used for camping.

**Recreational Vehicle Park:** Any area operated and maintained for the purposes of picnicking or providing space for overnight use by recreational vehicles.

*See accompanying graphics in Appendix A.*

**Residential Care Facility:** A facility for the care of six (6) or more unrelated physically handicapped, mentally handicapped, socially dependent, or mentally, emotionally, or behaviorally disturbed individuals and for staff persons in addition to residents who need not be related to each other or to any other resident.

**Residential Care Home:** A single family residence for the care of five (5) or fewer unrelated physically handicapped, mentally handicapped, socially dependent, or mentally, emotionally, or behaviorally disturbed individuals and for staff persons in addition to residents who need not be related to each other or to any other resident.
Retail Trade: The process of selling to the consumer for direct consumption and not for resale.

*Right of Way: The full length and width of a public street or way, planned or constructed.

*Root Barrier: A subsurface container in which vegetation is planted that prevents the spreading of roots and trailers.

School, Elementary, Junior High or High School: An institution public or parochial, offering instruction in the several branches of learning and study, in accordance with the rules and regulations of the State Department of Education.

*Screening: A method of visually shielding or obscuring one abutting or nearby structure or use from another by fencing, wall, berms, or densely planted vegetation.

*Setback: The distance between the building and any lot line.

*Sign: An identification, description, illustration or device which is affixed to or represented, directly or indirectly, upon a building, structure, or land, and which directs attention to a product, place, activity, person, institution or business, and which may be illuminated directly or indirectly.

*Sign Face Perimeter: The area around a sign having no designated borders. The area is measured using the tallest letter or graphic. Parallel lines run horizontal to the top and base of the largest letter or graphic. Lines perpendicular to the horizontal lines intersect at the farthest reaching points at either end of the sign. See accompanying graphic, Appendix A.

Start of Construction: The date a building permit is issued, provided that the actual start of construction, repair, reconstruction, placement or other improvement occurs within 180 days of the permit date.

*Story: That portion of a building included between the upper surface of any floor and the upper surface of the floor next above, except that the top-most story shall be that portion of a building included between the upper surface of the top-most floor and the ceiling or roof above. If the finished floor level directly above a basement or cellar is more than six (6) feet above grade as defined herein, such basement or cellar shall constitute a story.

*Street: The entire width between the boundary lines of every way of travel which provides for public or private use for the purpose of providing ingress and egress for vehicular and pedestrian traffic and the placement of utilities to one or more lots, parcels, areas, or tracts of land. A private way is excluded that is created to provide ingress and egress to land in conjunction with the use of such land for forestry, mining or agricultural purposes.

A. *Alley: A narrow street through a block used primarily for access by service vehicles to the back or side of properties fronting on another street.

B. *Arterial: A street of considerable continuity which is used primarily for through traffic and interconnection between major areas of the City.

C. *Collector: A street supplementary to the arterial street system, used partly by through traffic and partly for access to abutting properties.

D. *Cul-de-sac (dead-end): A short street with one end open to traffic and the other
terminated by a vehicle turn-around.

E. *Half Street: A portion of the width of a street, usually along the edge of a subdivision, where the remaining portion of the street could be provided in another subdivision.

F. *Frontage Road, Marginal Access Road: A service road parallel and adjacent to a major arterial street providing access to abutting properties, but protected from through traffic.

G. *Local Street: A street intended primarily for access to abutting properties, but protected from through traffic.

Street Trees / Plants: Vegetation installed within a public right-of-way.

Structural Alteration: Any change to the supporting members of a structure, including foundation bearing walls or partitions, columns, beams or girders, or any structural change in the roof or in the exterior walls.

Structure: That which is built or constructed, an edifice or building of any kind, or a piece of work artificially built up or composed of parts joined together in some definite manner.

Subdivide Land: To divide an area or tract of land into four or more parcels within a calendar year for the purpose of transfer of ownership or building development, whether immediate or future, when such parcel exists as a unit or contiguous units under a single ownership as shown on the tax roll for the year preceding the division of property.

Subdivision: All divisions of property which create four or more lots in a single calendar year.

Substantial Improvement: The cost of any repair, reconstruction or improvement of a structure equal to or greater than fifty percent (50%) of its market value before such alteration occurred.

Trailer (Travel or Vacation): A vehicle or structure equipped with wheels for highway use that is intended for human occupancy and which is designed primarily for vacation and recreation purposes.

Travel Trailer Parks: An area containing one or more spaces designed for the temporary parking and convenience of travel trailers and similar recreational vehicles.

*See accompanying graphics in Appendix A. Note: Graphics are for illustrative purposes only.

Unstable Soil: Any soil type, as defined by the U.S. Soil Conservation Service and identified in the Comprehensive Plan, which has severe limitations for development due to potential flooding, erosion, structural instability or inadequate sewage waste disposal.

Use: The purpose for which land or a structure is designed, arranged, or intended, or for which it is occupied or maintained.

Veterinary Clinic: A facility designed to contain treatment and temporary care facilities for the cure and prevention of ailments or injuries of domestic animals, including both domestic pets and farm animals, under the direction of a licensed veterinarian.
Warehouse: A place for the safekeeping of goods and materials necessary for the proper functioning of an industrial or commercial enterprise. Also a facility designed and intended to be used for the rental of storage units to individuals for the safekeeping of personal items.

Wholesale Trade: The bulk sale of goods for resale to a person other than the direct consumer.

Window Coverage: The amount of front wall area covered by windows, glass, or doors.

Yard, Front: A yard extending across the full width of the lot, the depth of which is the minimum horizontal distance between the front lot line and a line parallel to the nearest point of the foundation of the main building.

Yard, Rear: A yard extending across the full width of the lot between the most rear portion of a main building and the rear lot line; but for determining the depth of the required rear yard, it shall be measured horizontally from the nearest point of the rear lot line; or, if the rear lot line adjoins an alley, then from the centerline of the alley, toward the nearest part of the foundation of the main building.

Yard, Side: A yard, between the main building and side lot line, extending from the front yard, or front lot line where no front yard is required, to the rear yard. The width of the required side yard shall be measured horizontally from the nearest point of the side lot line toward the nearest part of the foundation of the main building.

*See accompanying graphics in Appendix A.  
Note: Graphics are for illustrative purposes only.
CHAPTER 2

HOW LAND MAY BE USED AND DEVELOPED

2.100 ZONING DISTRICTS

2.101 LOW DENSITY RESIDENTIAL DISTRICT (R-1)

2.101.01 Purpose
To preserve existing single family residential areas and provide for future single family residential housing opportunities at a density no greater than 4 units per acre. The R-1 district is consistent with the Single Family Residential Comprehensive Plan designation.

2.101.02 Permitted Uses
Unless otherwise subject to Conditional Use provisions or requirements of this Ordinance, the following uses are permitted in the R-1 district:

A. Single-family dwelling unit, including single family manufactured home subject to Section 2.303 of this Ordinance except that a manufactured home shall not be placed within an acknowledged historical district nor adjacent to a historic landmark.

B. Duplex (only on a corner lot) or on lots as approved by the Planning Commission as part of an application for subdivision or planned unit development.

C. Residential accessory structures or uses

D. Parks and open space uses

E. Home occupation, subject to the provisions of Section 2.306.

F. Day nursery (Serving fewer than 13 children)

G. Residential care home or facility

2.101.03 Conditional Uses
The following uses may be permitted in the R-1 District when authorized by the Planning Commission pursuant to Section 3.103:

A. Public facility, government structure, communications towers for emergency services, or communications antennas on existing structures.

B. Bed and breakfast establishment

C. Cemetery

D. Planned unit development, subject to the provisions in section 2.302

E. Golf Course

F. Church

2.101.04 Dimensional Standards
The following minimum dimensional standards shall be required for all development in the R-1 District except for modifications permitted under Section 2.402, General Exceptions.

A. **Minimum Lot Area**
   1. Single-family dwelling 10,000 square feet
   2. Duplex 10,000 square feet
   3. Public utility structures: Lot area shall be adequate to contain all proposed structures within required yard setbacks.
   4. All other uses 10,000 square feet

B. **Minimum Yard Setbacks**
   1. All structures shall maintain the following minimum yard setbacks:
      a. Front Yard 20 feet
         Front Yard (Frontage on existing or proposed arterial street) 30 feet
      b. Rear Yard 24 feet
         Rear Yard (Abuts existing or proposed arterial street) 30 feet
      c. Side Yard (interior) 9 feet
      d. Side Yard (adjacent to local/collector street) 20 feet
         Side Yard (adjacent to arterial street) 30 feet

C. **Maximum Structure Height**
   1. Principal Structure 35 feet
   2. Accessory structure 25 feet

D. **Minimum Lot Width**
   70 feet

**2.101.05 Development Standards**

All development in the R-1 District shall comply with the applicable provisions of Section 2.400 of this Ordinance. In addition, the following specific standards shall apply:

A. **Off-street parking.** Parking shall be as specified in Section 2.203

B. **Subdivisions and partitions.** Land divisions shall be reviewed in accordance with the provisions of Section 2.208.

C. **Lot Coverage.** The following shall mean the maximum permitted lot coverage, maximum coverage of public and private parking areas or garages, and/or combined maximum lot and parking combined coverage required:

   - Maximum lot coverage: 35%
   - Maximum parking area coverage: 30%
   - Combined maximum lot and parking area coverage: 60%
D. **Signs.** Signs in the R-1 District shall conform to the standards of Section 2.206.

E. **Yards and Lots.** Yards and lots shall conform to the standards of Section 2.209.

F. Recreational vehicles, trailers, boats and other similar vehicles shall not be parked in the front yard area of the dwelling.

G. All driveways shall be separated from an intersection by at least twenty (20) feet.

H. Accessory structures shall be no larger than 1000 square feet. Accessory structures shall be located as follows:

1. Within a required rear or interior side yard but not closer than 5 feet to the rear or side (interior) property line, and

2. Within the required side yard adjacent the house if setback 10 feet from the front building line / foundation of the residential structure.

Exception: Garden and storage buildings that are 600 square feet or less, and less than 12 feet in height are exempt from this standard.

Floor Area: The maximum floor area of the accessory structure shall not exceed the square footage of the primary structure.

I. One (1) accessory structure may be permitted on a lot. The total number of accessory structures does not include the primary garage or garden / storage building.

J. Accessory structures, excluding garden / storage buildings, shall be constructed of materials that are similar in color, material, and appearance to the house. The roof shall be compatible in pitch, design and materials.

K. Garden / storage buildings are not required to meet property line setbacks but shall be in compliance with State Building and Fire Code requirements.

**2.101.06 Design Standards**

All dwelling units in the R-1 District shall comply with the following design standards:

A. A minimum of 1,000 square feet in size.

B. A nominal roof pitch of no less than 3/12.

C. Roofing materials: composition asphalt, fiberglass shingles, wood shake, or tile.

D. Exterior siding: standard wood siding, T - 111, or a siding of equivalent appearance.

E. Constructed with an enclosed, attached or detached garage.
2.102 MEDIUM DENSITY RESIDENTIAL DISTRICT (R-2)

2.102.01 Purpose

The purpose of the R-2 Zone is to provide for single family and multifamily housing opportunities at a density no greater than 20 units per acre. The R-2 zone is consistent with the Multifamily Residential Comprehensive Plan Designation.

2.102.02 Permitted Uses

Unless otherwise subject to Conditional Use provisions or requirements of this Ordinance, the following uses are permitted in the R-2 zone:

A. Single family dwelling, including single family manufactured home subject to 2.303 of this Ordinance except that a manufactured home shall not be placed within an acknowledged historical district nor adjacent to a historic landmark

B. Duplex

C. Multi-family housing, including apartments, townhouses, and condominiums at a density no greater than 20 units per acre, subject to the Site Development Review procedures of Section 3.105.

D. Bed and breakfast establishment, subject to the Site Development Review procedures of Section 3.105.

E. Residential care home and facility

F. Day nursery

G. Home occupation, subject to the provisions of Section 2.306.

H. Parks and open space areas

I. Church

J. Residential accessory structure or use

K. Manufactured home parks, subject to the provisions of Section 2.304.

2.102.03 Conditional Uses

The following uses are permitted as conditional uses, provided that such uses are approved in accordance with Section 3.103.

A. Public facilities, government structures, communication towers for emergency services, or communications antennas on existing structures.

B. Hospitals

2.102.04 Dimensional Uses
The following dimensional standards shall be the minimum requirements for all development in the R-2 District except for modifications permitted under Section 2.402, General Exceptions.

A. Minimum Lot Area

1. Single-family dwelling 7,000 square feet
2. Duplex 7,000 square feet
3. Multi-family dwelling
   first three units 8,500 square feet
   each additional unit 1,500 square feet
4. Public utility structures: Lot area shall be adequate to contain all proposed structures within the required yard setbacks.

B. Minimum Yard Setback Requirements

1. All principal and accessory structures shall maintain the following minimum yard setbacks:
   a. Front Yard 20 feet
      Front Yard (frontage on existing or proposed arterial street)
   b. Rear Yard 20 feet
      Rear Yard (abuts existing or proposed arterial street)
   c. Side Yard (interior) 9 feet
      Side Yard (adjacent to street) 30 feet

C. Maximum Structure Height

1. Principal Structure 35 feet
2. Accessory Structure 25 feet

D. Minimum Lot Width

70 feet

2.102.05 Development Standards

All development in the R-2 District shall comply with the applicable provisions of Section 2.400 of this Ordinance. In addition, the following specific standards shall apply:

A. Off-street parking. Parking shall be as specified in Section 2.203.

B. Subdivisions and partitions. Land divisions shall be reviewed in accordance with the provisions of Section 2.208.

C. Lot Coverage. The following shall mean the maximum permitted lot coverage, maximum coverage of public and private parking areas or garages, and/or combined maximum lot and parking combined coverage required:

   Maximum lot coverage: 40%
   Maximum parking area coverage: 30%
Combined maximum lot and parking area coverage: 65%

D. Multi-family residential uses (three units or more) shall comply with the following standards:

1. Multi-family developments shall be subject to the Site Development procedures in Section 3.105.

2. All multi-family residential structures within a development shall maintain a minimum horizontal separation distance of fifteen (15) feet.

3. Access points to public streets shall minimize traffic congestion and avoid directing traffic onto local access streets.

E. Yards and Lots. Yards and lots shall conform to the standards of Section 2.209.

F. Signs. Signs shall conform to the requirements of Section 2.206.

G. Recreational vehicles, trailers, boats and other similar vehicles shall not be parked in the front yard area of the dwelling.

H. Driveways shall be separated from an intersection by at least twenty (20) feet.

I. Accessory structures shall be no larger than 1000 square feet. Accessory structures shall be located as follows:

1. Within a required rear or interior side yard but not closer than five (5) feet to the rear or side (interior) property line, and

2. Within the required side yard adjacent the house is setback ten (10) feet back from the front building line / foundation of the residential structure.

Exception: Garden and storage buildings that are 600 square feet or less, and less than 12 feet in height are exempt from this standard.

Floor Area: The maximum floor area of the accessory structure shall not exceed the square footage of the primary structure.

J. One (1) accessory structure may be permitted on a lot. The total number of accessory structures does not include the primary garage or garden / storage building.

K. Accessory structures, excluding garden / storage buildings shall be constructed of materials that are similar in color, material, and appearance to the house. The roof shall be compatible in pitch, design and materials.

L. Garden / storage buildings are not required to meet property line setbacks but shall be in compliance with State Building and Fire Code requirements.

2.102.06 Design Standards

All dwelling units in the R-2 District shall comply with the following design standards:
A. A minimum of 1,000 square feet in size.

B. A nominal roof pitch of no less than 3/12.

C. Roofing materials: composition asphalt, fiberglass shingles, wood shake, or tile.

D. Exterior siding: standard wood siding, T-111, or a siding of equivalent appearance.

E. Constructed with an enclosed, attached or detached garage.

F. For duplexes, triplexes, and other multifamily structures, the horizontal face of the structure shall provide offsets at a minimum of every 30 feet by providing any two of the following:
   1. Recesses (decks, patios, entrances, etc.) with a minimum depth of two (2) feet, or
   2. Extensions (decks, patios, entrances, etc.) with a minimum depth of four (4) feet, or
   3. Offsets or breaks in roof elevation of two (20) or more feet in height.
2.103  COMMERCIAL-GENERAL DISTRICT (C)

2.103.01  Purpose

To provide areas for the broad range of commercial operations and services required to meet the economic needs of the City of Sublimity. The Commercial district is consistent with the Commercial Comprehensive Plan designation.

2.103.02  Permitted Uses

Unless otherwise subject to Conditional Use provisions or requirements of this Ordinance, the following uses are permitted in the C zone:

A. Retail trade establishments engaged in selling goods or merchandise to the general public for personal or household consumption such as retail groceries, hardware stores, gas stations, department stores, and sporting goods stores.

B. Retail service establishments offering services and entertainment to the general public for personal or household consumption such as non-drive through eating and drinking establishments, motels, bed and breakfasts, banks, real estate, and financial services.

C. Business service establishments engaged in rendering services to other businesses on a fee or contract basis such as building maintenance, employment services, and consulting services.

D. Professional offices

E. Dwelling units accessory to a permitted use or above a permitted use in accordance with R-2 development standards

F. Day nursery and day care center

G. Residential home and residential facility

H. Amusement and recreational services

I. Church

2.103.03  Conditional Uses

The following uses are permitted as conditional uses, provided that such uses are approved in accordance with Section 3.103:

A. Except as provided in Section 2.307, any commercial service or business activity otherwise permitted, involving the processing of materials which is essential to the permitted use and which processing of materials is conducted wholly within an enclosed building.

B. Government or public facility structures

C. Drive-through eating and drinking establishments.

D. Public and private utility buildings and structures such as electric substations, telephone exchanges, and communications antennas or towers.
2.103.04 Dimensional Standards

The following minimum dimensional standards, with the exception of modifications permitted under Section 2.402, shall be required for all development in the Commercial District.

A. Minimum lot area:

   No Limitation

   Maximum lot area: 10,000 square feet

   (Larger development may use the Planned Unit Development process.)

B. Minimum yard setbacks:

   1. Front Yard (minimum and maximum) 10 feet

   2. Rear Yard

      Abutting a non-residential district None

      Abutting a residential district 10 feet

   3. Side Yard

      Abutting a non-residential district None

      Abutting a residential district 10 feet

      Abutting a street 10 feet

C. Minimum Building Size

   10 percent of the lot’s square footage

D. Maximum Building Size

   3,000 Square feet

D. Maximum structure height:

   Two-stories not exceeding 24 feet

2.103.05 Development Standards

All developments in the Commercial District shall comply with the applicable provisions of Section 2.400 of this Ordinance. In addition, the following specific standards shall apply:

A. Off-Street Parking. Off-street parking shall be as specified in Section 2.203. Due to the required ten (10) feet front yard setback businesses are strongly encouraged to provide parking areas behind the commercial structures.

B. Signs. Signs in the Commercial District shall be subject to the provisions of Section 2.206.

C. Subdivisions and Partitions. All subdivisions and partitions shall be reviewed in accordance with the provisions of Section 3.107.

D. Design Review. All new development and expansion of an existing structure or use in the Commercial District shall be subject to the Site Development Review procedures of Section 2.103.6 and 3.105.

E. Outdoor Display. There shall be no outdoor display or storage of materials or merchandise within a designated alleyway, roadway or sidewalk that would impede pedestrian or vehicular traffic except during community retail sales events. Safety precautions shall be observed at all times.

F. Minimum Landscaped Area. Landscaping in the Commercial District shall be subject to Section 2.207.

2.103.6 Center Street Corridor Design Standards
All development in the Commercial District shall comply with the following design standards:

A. Types and Sizes of Windows. All businesses shall install windows that:

1. Cover 60 percent* of the front building wall, and  
   * See definitions, Section 1.200, and accompanying graphic in Appendix A.
2. Are translucent or “slightly” tinted.

B. Buildings shall utilize at least three (3) of the following design features:

1. Awnings,
2. Covered porches,
3. Eaves,
4. Restricted building materials,
5. Roof line offsets,
6. Front building wall offsets, or
7. Horizontal lap siding

Standards for Numbers 1, 2, and 3: Awnings, Covered Porches, and Eaves. All awnings, covered porches, and eaves shall be attached to the main building, a minimum of ten (10) feet in depth, and extend the full distance of the front wall parallel to Center Street.

Standards for Number 4: Restricted building facade materials. All building walls facing streets shall be constructed of brick, stone, dry-vit, log, or cedar siding. The use of corrugated steel, Quonset hut designs, cinder block, and concrete slab walls are prohibited.

Standards for Number 5: Roof line offsets. To preclude large expanses of uninterrupted building/roof surfaces, exterior elevations along the building front shall incorporate projections, dormers, gables or other similar elements. Each building shall have at least one off-set design, and additional off-set designs shall occur at a minimum of every thirty (30) feet.

Standards for Number 6: Building offsets. To preclude long, unbroken building facades and simple box forms, exterior elevations along the building front wall shall incorporate offset design features such as recesses, projections, extensions, or other similar elements. Each building shall have at least one offset design, and additional offset designs shall occur at a minimum of every thirty (30) feet.

Offsets or breaks in roof elevation shall be three (3) or more feet in height.

Standard for Number 7: Horizontal lap siding. Horizontal lap siding shall be used on all walls and/or building faces.

C. Acceptable building materials include brick, stone, dry-vit, cedar or horizontal lap siding.
2.104 INDUSTRIAL-COMMERCIAL DISTRICT (IC)

2.104.01 Purpose

To provide appropriate regulations for the development of Industrial designated land in the City of Sublimity. Industrial-Commercial zones represent areas that are suitable for a mixture of uses allowed in the Commercial zone as well as other specific manufacturing uses permitted subject to conditional use approval.

2.104.02 Permitted Uses

Unless otherwise subject to Conditional Use provisions or requirements of this Ordinance, the following uses are permitted in the Industrial Zone:

A. Establishments engaged in manufacturing processing, packing, assembly, distribution, repair, finishing or refinishing, testing, fabrication, research and development, warehousing, and servicing activities. Examples of uses that would be appropriate include: aircraft or auto parts, bottling plants, bakery products, communication equipment, drugs, fabricated textile products, office machines, building materials, recycling centers, and motor freight terminals.

B. Land extensive commercial activities such as automobile sales and service, lumber yards, warehouse and storage activities.

C. Motels and hotels

D. Any non-residential use permitted in the C district, Section 2.103.02.

2.104.03 Conditional Uses

The following uses may be permitted in the IC District when authorized by the Planning Commission pursuant to Section 3.103.

A. Fuel oil distribution

B. Public and private utility buildings and structures such as electric substations, telephone exchanges, and communications towers and/or antennas.

2.104.04 Dimensional Standards

The following dimensional standards, with the exception of modifications allowed under Section 2.402, shall be required for all development in the Industrial Commercial District.

A. Lot Size: None

B. Setback Requirements:

1. Front yard
   Front Yard (Frontage on existing or proposed arterial street) 30 feet
   20 feet

2. Side yard
   Abutting a residential or commercial district 25 feet
   Abutting an industrial district None
Abutting an existing or planned arterial street 30 feet

3. Rear Yard
   Abutting a residential or commercial district 25 feet
   Abutting an industrial district None
   Abutting an existing or planned arterial street 30 feet

C. Maximum Building Height: 80 feet

2.104.05 Development Standards

All development in the Industrial District shall comply with the applicable provisions of Section 2.400 of this Ordinance. In addition, the following specific standards shall apply:

A. Off-street parking. Off-street parking in the Industrial District shall conform to the standards of Section 2.203.

B. Signs. Signs in the Industrial District shall conform to the provisions of Section 2.206.

C. Minimum Landscaped Area. All development in the Industrial District shall provide a minimum landscaped area equal to 15 percent of the gross site area.

D. Subdivisions and Partitions. All subdivisions and partitions shall be reviewed in accordance with the provisions of Section 2.208.

E. Design Review. All new development or expansion of existing structure or use in the Industrial District shall be subject to the Site Development Review procedures of Section 3.105.

F. Access. Site access points shall be located to minimize traffic hazards.
2.105 PUBLIC/SEMI-PUBLIC DISTRICT (P)

2.105.01 Purpose

To recognize existing public facility land uses and to provide for the development of public facility services and other public-oriented uses. The Public/Semi-Public zone shall be consistent with the Public/Semi-Public Comprehensive Plan designation.

2.105.02 Permitted Uses

Unless otherwise subject to Conditional Use provisions or requirements of this Ordinance, the following uses are permitted in the Public/Semi-Public (P) Zone:

A. Public parks
B. Publicly owned and operated facilities or structures, including government offices and stations, and public use buildings
C. Church
D. Residential care home and residential care facility

2.105.03 Conditional Uses

The following uses may be permitted in the P District when authorized by the Planning Commission pursuant to Section 3.103.

A. Hospital
B. Public and private utility buildings and structures, including but not limited to electric substations, telephone exchanges, and communications antennas or towers
C. Public parking areas
D. Public schools
E. Fire stations

2.105.04 Dimensional Standards

A. Lot Size: None
B. Setback Requirements:

1. Front Yard
   Front Yard (Frontage on existing or proposed arterial street) 20 feet
   Front Yard (Frontage on existing or proposed arterial street) 30 feet

2. Side Yard
   Abutting a Industrial or Public/Semi-Public zone 5 feet
   Abutting a residential or commercial zone 20 feet
   Abutting an existing or planned arterial street 30 feet

3. Side Yard adjacent to a local/collector street 20 feet
   Side Yard adjacent to an existing or proposed arterial street 30 feet
4. Rear Yard 30 feet

C. **Maximum Building Height** 70 feet*

* An additional setback of one (1) foot per each foot in height over 35 feet shall be required.

### 2.105.05 Development Standards

All development in the P District shall comply with the applicable provisions of Section 2.400 of this Ordinance. In addition, the following specific standards shall apply:

A. **Off-street Parking.** Off-street parking in the P District shall conform to the standards of Section 2.203.

B. **Signs.** Signs in the P District shall conform to the provisions of Section 2.206.

C. **Subdivisions and Partitions.** All subdivisions and partitions shall be reviewed in accordance with the provisions of Section 2.208.

D. **Design Review.** All new development of expansion or an existing structure or use in the P District shall be subject to the Site Development Review procedures of Section 3.105.

E. **Access.** Site access points shall be located to minimize traffic hazards.
2.200 GENERAL DEVELOPMENT STANDARDS

2.201 GENERAL PROVISIONS

2.201.01 Purpose

The purpose of this Section is to:

A. Carry out the Comprehensive Plan with respect to development standards and policies.

B. Insure that natural features of the landscape, such as land forms, natural drainage-ways, trees and wooded areas, are preserved as much as possible and protected during construction.

C. Promote energy conservation and efficiency in development through site planning and landscaping.

D. Promote and maintain healthy environments and minimize development impacts upon surrounding properties and neighborhoods.

2.201.02 Application of Standards

A. The standards set forth in Section 2.200 shall apply to major and minor partitions; subdivisions; planned unit developments; commercial and industrial projects; single family dwellings, duplexes and multi-family structures of three (3) or more dwellings.

B. The application of these standards to a particular development shall be modified as follows:

1. Development standards which are unique to a particular use, or special use, shall be set forth within the district or in Section 2.300.

2. Those development standards which are unique to a particular district shall be set forth in the Section governing that district.

2.201.03 Application of Public Facility Standards

Standards for the provision and utilization of public facilities or services available within the City of Sublimity shall apply to all land developments in accordance with the following table of reference. No development permit shall be approved unless the following improvements are provided prior to occupancy or operation, or unless future provision is assured in accordance with Subsection 3.201.01.

Legend: No = Not required; Yes = Required; C = Conditional, as noted:

C-1. Fire Hydrants for Commercial or Industrial Expansions

One or more fire hydrants are required when the total floor area of a new or expanded building exceeds 2,500 square feet, or the proposed use is classified as Hazardous (H) in the Uniform Building Code or Uniform Fire Code.

C-2. Street Improvements for Single Family Dwellings

New single family dwellings which require a street extension must provide street improvements to City street standards.

C-3. Street Improvements for Commercial or Industrial Expansions

Lots fronting on County roads must obtain access permits from the Marion County Public Works Department.

The City will require improvement to full City standards when the use meets any of the following criteria:

a. The use generates an average of 100+ trips per day per 1000 gross square feet of building as documented in the Trip Generation Manual of the Institute of Transportation Engineers or other qualified source; or

b. The use includes daily shipping and delivery trips by vehicles over 20,000 pounds gross vehicle weight.
2.202 STREET STANDARDS

2.202.01 Purpose

A. To provide for safe, efficient, and convenient multi-modal movement in the City of Sublimity.

B. To provide adequate access to all existing and proposed developments in the City of Sublimity.

C. To provide adequate area in all public rights-of-way for sidewalks, bikeways, sanitary sewers, storm sewers, water lines, natural gas lines, power lines and other utilities commonly and appropriately placed in such rights-of-way.

For purposes of this section:

1. "adequate access" means direct routes of travel between destinations, such as between residential neighborhoods and parks or commercial developments.

2. "adequate area" means space sufficient to provide all required public services to standards defined in this code, such as sidewalks, bikeways or storm sewers.

2.202.02 Scope

The provisions of this Section shall be applicable to:

A. The creation, dedication or construction of all new public or private streets, pedestrian facilities, and bikeways in all subdivisions, partitions or other developments in the City of Sublimity.

B. The extension or widening of existing public or private street rights-of-way, easements, or street improvements including those which may be proposed by an individual or the City, or which may be required by the City in association with other development approvals.

C. The construction or modification of any utilities, sidewalks or bikeways in public rights-of-way or private street easements.

D. The planting of any street trees or other landscape materials in public rights-of-way.

The following provisions shall apply to the dedication, construction, improvement or other development of all public streets, bikeways and pedestrian facilities in the City of Sublimity. These provisions are intended to provide a general overview of typical minimum design standards. All streets shall be designed in conformance with the specific requirements of the most current Public Improvement Design Standards of the City of Sublimity.

A. The location, width, and grade of streets shall be considered in their relation to existing and planned streets, bikeways, pedestrian facilities, to topographical conditions, to public convenience and safety, and to the proposed use of the land to be served by the streets.

B. Development proposals shall provide for the continuation of all streets, bikeways and pedestrian facilities within the development and to existing and planned streets, bikeways and pedestrian facilities outside the development.
C. Alignment: All streets other than local streets or cul-de-sacs, as far as practical, shall be in alignment with existing streets by continuation of the centerlines thereof. The staggering of street alignments resulting in "T" intersections shall, wherever practical, leave a minimum distance of two hundred (200) feet between the center lines.

D. Future extension of streets: Where necessary to give access to or permit a satisfactory future development of adjoining land, streets shall be extended to the boundary of a tract being developed and the resulting dead-end streets may be approved without turn-arounds. Reserve strips and street plugs may be required to preserve the objectives of street extensions.

E. Radius at street intersections: The property line radius at street intersection that has a designated right-of-way width of eighty (80) feet or more shall be governed by the interior angle at the intersection and will be based on the square root of the interior angle formed at the intersection of the property lines which equals the radius in feet. The distance shall be increased to the next full foot above the figure established by said formula. The minimum angle of any intersection shall be forty (40) degrees.

F. Existing Streets: Whenever existing public streets adjacent to or within a tract are of inadequate width, additional right-of-way shall be provided at the time of subdivision, partitioning, or development.

1. Minimum 3/4 street improvements to all existing streets adjacent to, within or necessary to serve the property shall be required at the time of partitioning or development unless the applicant demonstrates to the satisfaction of the City Engineer that the condition and sections of the existing streets meet City standards and are in satisfactory condition to handle projected traffic loads. Storm water drainage shall be provided for on the non-curbed side of 3/4 street improvements as required by the City Engineer. In cases where the property within a subdivision or development fronts both sides of an existing street, full street improvements shall be required.

2. The City may allow the applicant to record an approved "Waiver of Rights to Remonstrance for Street and Public Utility Improvements" in lieu of street improvements where the following criteria are met:

   a. The contiguous length of the existing street to be improved (including the portion of the existing street which must be improved to serve the development) is less than 250 feet, and

   b. The existing roadway condition and sections are adequate to handle existing and projected traffic loads, and

   c. Existing public utilities (water, sanitary sewer & storm sewer) located within the existing roadway are adequate, or can be improved without damaging the existing roadway surface.

3. In lieu of the street improvement requirements outlined under Section 2.202.04 (F) (1) above, the Planning Commission, under a Type II procedure, may elect to accept from the applicant monies to be placed in a fund dedicated to the future reconstruction of the subject street(s). The amount of monies deposited with the City shall not be greater than 100% of the estimated cost of the 3/4 street improvements (including associated storm drainage improvements). Cost
estimates shall be based from a preliminary design of the reconstructed street provided by the applicant's engineer and shall be approved by the City Engineer. If the City Council elects to accept these monies in lieu of the street improvements, the applicant shall also record against all lots or parcels a "Construction Deferral Agreement and Waiver of Rights to Remonstrance for Street and Storm Drainage Improvements" approved by the City Attorney. The construction deferral agreement should be worded such that the subject properties will be responsible for paying a minimum of 50% of the costs of the future street and storm drainage improvements to the subject streets minus the value (at the time the street is constructed) of the money deposited with the City by the applicant plus any accumulated interest, e.g., \((50\% - (\text{deposit} + \text{interest}))\). A separate "Waiver of Rights to Remonstrance" may be required for the future improvement of other public utilities.

G. New Streets

1. Where new streets are created by a subdivision or partition, full street improvements shall be required. 3/4 streets may be approved in lieu of full street improvements when the City finds it to be practical to require the completion of the other 1/4 street improvement when the adjoining property is developed. 3/4 street improvements may be allowed by the City if all of the following criteria are met:

   a. The adjoining land abutting the opposite side of the street is undeveloped and,

   b. The adjoining land abutting the opposite of the street is within the City Limits and the Urban Growth Boundary and,

   c. The proposed street improvements will encompass the entire paved surface of the existing street and,

   d. Storm water drainage is provided for on the non-curbed side of 3/4 street improvements in areas judged by the City Engineer to have drainage concerns.

H. The use of cul-de-sacs and other dead-end streets shall be discouraged and shall only be approved upon a showing by the applicant of unusual or unique circumstances justifying the use of such a street. In cases where cul-de-sacs are determined to be justified they shall only be permitted subject to the following conditions:

   a. There shall be no cul-de-sacs more than four hundred (400) feet in length.

   b. All cul-de-sacs shall terminate with circular turn-a-rounds, except where the Planning Commission finds that a "pear" or "hammerhead turn-around is more appropriate given topography, natural or built features, and expected use.

   c. An accessway shall be provided consistent with the standards for accessways, as determined by the Planning Commission to be necessary to insure safe, efficient, and convenient multi-modal access.

For purposes of this section:

1. "Unusual or unique circumstances" exist when one of the following conditions prevent a required street connection:
a. excess slope (8% or more),

b. presence of a wetland or other body of water that is recognized by the Planning Commission, or

c. existing development on adjacent property prevents a street connection.

2. "Accessway" means a walkway that provides pedestrian and/or bicycle passage either between streets or from a street to a building or other destination such as a school, park, or transit stop. Accessways generally include a walkway and additional land on either side of the walkway, often in the form of an easement or right-of-way, to provide clearance and separation between the walkway and adjacent uses. Accessways through parking lots are generally physically separated from adjacent vehicle parking or parallel vehicle traffic by curbs or similar devices and include landscaping, trees and lighting. Where accessways cross driveways, they are generally raised, paved or marked in a manner which provides convenient access for pedestrians.

I. Street Lighting: Street lights shall be installed within right of way for all streets according to City approval and City standards.

J. Street Names: Street names and numbers shall conform to the established pattern in the City and shall be subject to the approval of the Planning Commission.

K. Grades and Curves: Grades shall not exceed 8 percent on public or private streets. To provide for adequate drainage, all streets shall have a minimum slope of 0.5 percent. On arterials there shall be a tangent of not less than 100 feet between reversed curves.

L. Marginal Access Streets: If a development abuts or contains an existing or proposed arterial street, the Planning Commission may require marginal access streets, reverse frontage lots with suitable depth, screen planting contained in a non-access reservation along the rear or side property line, or such other treatment as may be necessary for adequate protection of residential properties and to afford separation of through and local traffic.

M. Clear Vision Areas: Clear vision areas shall be maintained on corner lots at the intersection of all public streets and at the intersections of a public street with a private street, alley or drive which serves more than three parcels. No structure, object, or planting shall be permitted within a clear vision area which would impede visibility between a height of 30 inches and 10 feet above the curb grade of the intersecting streets. (See definition for Clear Vision Area and Section 2.209.08.)

N. Driveways and Points of Access. Approaches shall be constructed according to City standards and shall meet the minimum separations of five (5) feet between residential driveways, twenty (22) feet between commercial and industrial driveways, twenty (20) feet from intersections for residential streets, fifty (50) feet for collectors, and one hundred (100) feet for arterials. The separation shall be measured between the nearest outside edges of each access lane and the edge of the radius of the street.

The construction of a duplex on a corner shall provide one driveway per unit per street frontage unless the Planning Commission allows a combined access or access on one street frontage based upon a conflict created by the topography of the lot, the location of a public utility, significant vegetation, or different street classifications.
Adjoining properties are encouraged to combine accesses. For public safety purposes and wherever possible, driveways shall align with the access points to properties across the street and other street intersections. Where impractical due to lot configuration, driveways shall be as approved by the City's Public Works Director.

O Restricted parking at Intersections. On all streets, excluding those classified as local, no parking is permitted within twenty (20) feet of an intersection. The distance is measured from a point at the edge of the curb radius. The areas where parking is not allowed shall be indicated by curbing painted yellow and/or signage according to City approval and City standards.

2.202.04 General Right-of-Way and Improvement Widths

The following standards are general criteria for public streets, bikeways and sidewalks in the City of Sublimity. These standards shall be the minimum requirements for all streets, bikeways and pedestrian facilities except where modifications are permitted under Subsection 2.202.05.
The following are the standards for new streets:

</table>

1. All sidewalk widths include curbs.
3. Measured from center line to center line.
4. Eight (8) foot sidewalks shall be provided on Center Street for all contiguous commercial properties.

**Arterial Options:**

1. On-street parking: One side or both sides, eight (8) foot minimum width or
2. Bikeways: Both sides, six (6) foot minimum width, or
3. On-street parking on one side, eight (8) foot minimum, and bike lanes on both sides, six (6) foot minimum.

**Collector Options:**

1. On-street parking: One side or both sides, eight (8) foot minimum width, or
2. Bikeways: Both sides, six (6) foot minimum width.

* Street trees are allowed with approval from the Planning Commission and in accordance to the Development Code.

**Local Street Options:**

1. On-street parking: One side or both sides, eight (8) foot minimum width, or
2. Bikeways: Both sides, six (6) foot minimum width.

* Street trees are allowed with approval from the Planning Commission and in accordance to the Development Code.

Please note: The above options shall be coordinated with the Street Plan and Bike Plan within the Transportation System Plan. The type of improvements are assessed by the Planning Commission at the time of the development.

### 2.202.05 Modification of Right-of-Way and Improvement Width

The Planning Commission, pursuant to the review procedures of Section 3.203, may allow
modification to the public street standards of Subsection 2.202.04, when both of the following criteria are satisfied:

A. The modification is necessary to provide design flexibility in instances where:

1. Unusual topographic conditions require a reduced width or grade separation of improved surfaces such as slopes in excess of 15 percent; or

2. Parcel shape or configuration that would severely limit buildable area on the lot(s) precludes accessing a proposed development with a street which meets the full standards of Section 2.202.04; or

3. A modification is necessary to preserve trees or other natural features determined by the Planning Commission to be significant to the aesthetic or historical character of the area, be significant because of its age and/or size; or

4. A Planned Unit Development is proposed and the modification of street standards is necessary to provide greater privacy or aesthetic quality to the development.

B. Modification of the standards of Section 2.202.04 shall only be approved if the Planning Commission finds that the specific design proposed provides adequate vehicular, pedestrian and bicycle access based on anticipated traffic volumes.

2.202.06 Construction Specifications

Construction specifications for all public streets, bikeways and sidewalks shall comply with the criteria of the most recently adopted public works/street standards of the City of Sublimity.

2.202.07 Private Streets

A. Private streets shall only be allowed where the applicable criteria of Section 2.208.03 (C) are satisfied. Private streets shall have a minimum 30 foot wide easement and a minimum seventeen (17) foot wide paved surface.

B. All private streets serving more than one (1) ownership shall be constructed to the same cross-sectional specifications required for public streets. Provision for the maintenance of the street shall be provided in the form of a maintenance agreement, home owners association, or other instrument acceptable to the City Attorney.

C. A turn-around shall be required for any private residential street, in excess of 150 feet long, which has only one (1) outlet and which serves more than three (3) residences. Non-residential private streets serving more than one (1) ownership shall provide a turn-around if in excess of 200 feet long and having only one outlet. Turn-arounds for private streets shall be either a circular turn-around with a minimum paved radius of thirty five (35) feet, or a "tee" turn-around with a minimum paved dimension across the "tee" of seventy (70) feet.

D. The Planning Commission may require provision for the dedication and future extension of a public street.
2.203  OFF-STREET PARKING AND LOADING

2.203.01 Purpose

The purpose of this Section is to provide adequate areas for the parking, maneuvering, loading and unloading of vehicles for all land uses in the City of Sublimity.

2.203.02 Scope

Development of off-street parking and loading areas for commercial, industrial or multi-family development shall be subject to the Site Development procedures of Section 3.105 and shall be reviewed pursuant to Section 3.203.

The provisions of this Section shall apply to the following types of development:

A. Any new building or structure erected after the effective date of this Ordinance.

B. The construction or provision of additional floor area, seating capacity, or other expansion of an existing building or structure.

C. A change in the use of a building or structure which would require additional parking spaces or off-street loading areas under the provisions of this Section.

2.203.03 Location

Off-street parking and loading areas shall be provided on the same lot with the main building or structure or use except that:

A. In any residential zone, automobile parking areas for dwellings and other uses permitted in a residential zone may be located on another lot if such lot is within two hundred (200) feet of the lot containing the main building, structure or use;

B. In any non-residential zone, the parking area may be located off the site of the main building, structure or use if it is within five hundred (500) feet of such site.

2.203.04 Joint Use

Parking area may be used for a loading area during those times when the parking area is not needed or used. Parking areas may be shared subject to Planning Commission approval for commercial and industrial uses where hours of operation or use are staggered such that peak demand periods do not occur simultaneously. The requirements of Subsection 2.203.05 may be reduced accordingly. Such joint use shall not be approved unless satisfactory legal evidence is presented which demonstrates the access and parking rights of parties.

2.203.05 Off Street Automobile Parking Requirements

Off street parking shall be provided as required by Section 2.203.08 and approved by the Planning Commission in the amount not less than listed below.

2.203.07 Off-Street Loading Requirements

Off-street loading space shall be provided as listed below:

A. All commercial, institution, or industrial buildings shall require a minimum loading space size of twelve (12) feet wide, twenty (20) feet long and fourteen (14) feet high in the following amounts:

1. Less than 5,000 square feet No Spaces
2. More than 5,000 square feet to 30,000 square feet 1 space
3. More than 30,000 square feet to 100,000 square feet 2 spaces
4. More than 100,000 square feet 3 spaces

2.203.08 Parking and Loading Area Development Requirements

All Parking and loading areas, except those for single-family dwellings, shall be developed and maintained as follows:

A. Surfacing: All driveways, parking and loading areas shall have a durable, hard surface. In residential areas, either a minimum of two and one-half (2 ½) inches of asphalt over a six (6) inch aggregate base or four (4) inches of Portland cement concrete shall be provided. In commercial and industrial areas either a minimum of three (3) inches of asphalt over a six (6) inch aggregate base or five (5) inches of Portland cement concrete shall be provided.

B. Size of parking spaces and driveways: The following standards shall apply to all parking areas and driveways:
1. One-way drives shall have minimum improved width of at least twelve (12) feet, exclusive of parking spaces.

2. Two-way drives shall have a minimum improved width of at least twenty (20) feet, exclusive of parking spaces.

3. The minimum width of any parking space shall be eight and one-half (8 ½) feet, exclusive of driveways.

4. The minimum length of any parking space shall be twenty (20) feet, exclusive of driveways.

C. Screening: When any public parking or loading area is within or adjacent to a residential zone, such parking or loading area shall be screened from all residential properties with an ornamental fence, wall or hedge of at least four (4) feet in height but not more than six (6) feet in height. Along alleys, the fence, wall, or hedge shall be four (4) feet in height, except within the vision clearance area.

D. Lighting: Any light used to illuminate a parking or loading area shall be arranged to be directed entirely onto the loading or parking area, shall be deflected away from any residential use and shall not cast a glare or reflection onto moving vehicles on public rights-of-way.

E. Areas used for parking and maneuvering of vehicles shall have durable and dustless surfaces maintained adequately for all-weather use and so drained as to avoid flow of water across sidewalks.

F. Except for parking to serve residential uses, parking and loading areas adjacent to residential zones or adjacent to residential uses shall be designed to minimize disturbance of residents.

G. Groups of more than four parking spaces shall be so located and served by a driveway that their use will require no backing movements or other maneuvering within a street right-of-way other than an alley.

H. Service drives to off-street parking areas shall be designed and constructed to facilitate the flow of traffic, provide maximum safety of traffic access and egress and the maximum safety of pedestrians and vehicular traffic on the site.

I. Service drive exits shall have a minimum vision clearance area formed by the intersection of the driveway centerline, the street right-of-way line, and a straight line joining said lines through points fifteen (15) feet from their intersection.

J. Parking spaces along the outer boundaries of a parking area shall be contained by a curb or a bumper rail at least four (4") high, located a minimum of three (3) feet from the property line, to prevent a motor vehicle from extending over an adjacent property or a street.

2.203.09 General Provisions Off-Street Parking and Loading

A. The provision and maintenance of off-street parking and loading space is a continuing obligation of the property owner. No building permit shall be issued until plans are presented that show property that is and will remain available for exclusive use as
off-street parking and loading space. The subsequent use of property for which the building permit is issued shall be conditional upon the unqualified continuance and availability of the amount of parking and loading space required by this ordinance. Should the owner or occupant of any lot or building change the use to which the lot or building is put, thereby increasing off-street parking and loading requirements, it shall be unlawful and a violation of this ordinance to begin or maintain such altered use until such time as the increased off-street parking and loading requirements are observed.

B. Requirements for types of buildings and uses not specifically listed herein shall be determined by the City Recorder based upon the requirements of comparable uses listed and expectations of parking and loading need.

C. In the event several uses occupy a single structure or parcel of land, the total requirements for off-street parking shall be the sum of the requirements of the several uses computed separately, unless a reduction is approved for shared parking pursuant to Subsection 2.203.04 above.

D. The construction of a duplex on a corner shall provide one driveway per unit per street frontage unless the Planning Commission allows a combined access or access on one street frontage based upon a conflict created by the topography of the lot, the location of a public utility, significant vegetation, or different street classifications.

E. Required parking spaces shall be available for the parking of operable passenger automobiles of residents, customers, patrons, and employees only, and shall not be used for storage of vehicles or materials or for the parking of trucks used in conducting the business or use.

2.203.10 Parking of Bicycles

A. Bicycle parking shall be provided as part of all new multi-family residential developments of four (4) units or more, commercial, industrial, and institutional developments, and change of uses where upgraded or additional vehicle parking is required. Bicycle parking shall also be required for expansions and other remodeling that increases the required level of automobile parking.

B. The following standards shall be required of all new development, expansions and remodels as specified above:

1. A minimum of two (2) spaces at all developments. These spaces, if conveniently placed for the user, may be located in a common area shared by other developments.

2. Above the minimum of two spaces, one bicycle parking space for every twenty (20) automobile spaces required except at schools and parks, where the ratio is one for every ten (10) automobile spaces. When calculating round up to the nearest whole number.

3. Where bicycle parking use is expected to be greater than the above guidelines, additional parking to meet the need may be required.

C. At a minimum, bicycle parking facilities shall be consistent with the following design guidelines:

1. Bicycle parking shall be convenient and easy to find. Where necessary, a sign shall be used to direct users to the parking facility.
2. Each bicycle parking space shall be at least two (2) feet by six (6) feet with a vertical clearance of six (6) feet.

3. An access aisle of at least five (5) feet shall be provided in each bicycle parking facility.

4. Bicycle parking facilities shall offer security in the form of either a lockable enclosure in which the bicycle can be stored or a stationary object, i.e., a "rack," upon which the bicycle can be locked. Structures that require a user-supplied lock shall accommodate both cables and U-shaped locks and shall permit the frame and both wheels to be secured (removing the front wheel may be necessary.) Note: businesses may provide long-term, employee parking by allowing access to a secure room within a building, although additional short-term customer parking may also be required.

5. The rack shall support the bicycle in a stable position without damage.
2.204 STORM DRAINAGE

2.204.01 Purpose

To provide for the drainage of surface water from all residential, commercial and industrial development; to minimize erosion; to reduce degradation of water quality due to sediments and pollutants in storm water runoff.

2.204.02 Scope

The provisions of this Section shall apply to all new residential land partitions and subdivisions, planned unit developments, multi-family developments, commercial developments, and industrial development; and to the reconstruction or expansion of such developments.

2.204.03 Plan for Storm Drainage and Erosion Control

A. No construction of any facilities in a development included in Subsection 2.204.02 shall be permitted until a storm drainage and erosion control plan for the project is prepared by an engineer registered in the State of Oregon and approved by the City. This plan shall contain at a minimum:

1. The methods to be used to minimize the amount of runoff, siltation, and pollution created from the development both during and after construction.

2. Plans for the construction of storm sewers, open drainage channels and other facilities which depict line sizes, profiles, construction specifications and other such information as is necessary for the City to review the adequacy of the storm drainage plans.

3. Calculations used by the engineer in sizing storm drainage facilities. Calculations shall demonstrate that there are no impacts to the downstream properties and shall provide for drainage from upstream properties.

4. Upon a request from either the Planning Commission or City Council, an area study of the development’s impact on the City storm water drainage system.

2.204.04 General Standards

A. Based upon a 50 year flood data, all development shall be planned, designed, constructed and maintained to:

1. Protect and preserve existing natural drainage channels to the maximum practicable extent;

2. Protect development from flood hazards;

3. Provide a system by which water within the development will be controlled without causing damage or harm to the natural environment, or to property or persons within the drainage basin;

4. Assure that waters drained from the development are substantially free of pollutants, through such construction and drainage techniques as sedimentation ponds, reseeding, phasing of grading;

5. Assure that waters are drained from the development in such a manner that will
not cause erosion to any greater extent than would occur in the absence of development;

6. Provide dry wells, french drains, or similar methods, as necessary to supplement storm drainage systems;

7. Avoid placement of surface detention or retention facilities in road rights-of-way.

B. Where culverts cannot provide sufficient capacity without significant environmental degradation, the City may require the water course to be bridged or spanned.

C. In the event a development or any part thereof is traversed by any water course, channel, stream or creek, gulch or other natural drainage channel, adequate easements for storm drainage purposes shall be provided to the City. This does not imply maintenance by the City.

D. Channel obstructions are not allowed except as approved for the creation of detention or retention facilities approved under the provisions of this Ordinance. Fences with swing gates may be utilized.

E. Improvements may be required downstream of the development to provide capacity for drainage through and from the development.

F. Prior to acceptance of a storm sewer system by the City, the storm sewers shall be flushed and inspected by the City. All costs shall be borne by the developer.

G. Easements shall be provided as deemed necessary by the City. Such easements shall be designated on the final plat of all land divisions or recorded with Marion County for individual developments.
2.205 UTILITY LINES AND FACILITIES

2.205.01 Purpose

To provide adequate services and facilities appropriate to the scale and type of development.

2.205.02 Standards

A. The location, design, installation and maintenance of all utility lines and facilities shall be carried out with minimum feasible disturbances of soil and site.

B. All development which has a need for water service shall install water facilities and grant necessary easements pursuant to the requirements of the City. Fire hydrants shall be incorporated into water services where feasible or as required to meet Oregon State Fire Code.

C. All development which has a need for electricity, gas and communications services shall install them pursuant to the requirements of the district or company serving the development. Except where otherwise prohibited by the utility district or company, all such facilities shall be underground.

D. All development which has a need for public/private sanitary sewers shall install the facilities pursuant to the requirements of the city. Installation of such facilities shall be coordinated with the extension of necessary water services and storm drainage facilities.

E. Street lights shall be required for all developments inside the City. Installation of street lights shall be pursuant to the requirements of the city and the company serving the development.

F. Easements shall be provided along property lines as deemed necessary by the City, special districts, and utility companies. Easements for special purpose uses shall be of a width deemed appropriate by the responsible agency. Such easements shall be designated on the final plat of all subdivisions, and on the final plat of all major partitions.
2.206 SIGNS

2.206.01 Purpose

The provisions of this subsection are intended to provide for the necessary means of identification while maintaining a safe and pleasing environment for the people of the City of Sublimity.

2.206.02 General Provisions

A. Conflicting Standards: Signs shall be allowed subject to the provisions of this subsection, except when these provisions conflict with the specific standards for signs in the subject district.

B. Signs Subject to State Approval: All signs visible to the traveling public from state highways are subject to the regulations and permit requirements of the Highway Division of the State of Oregon Department of Transportation. Where the regulations of the State and City differ, the more restrictive regulations shall govern.

C. Uniform Sign Code: All signs shall comply with the provisions of the Uniform Sign Code of the Uniform Building Code, except as otherwise provided in this section.

D. Address Display: The signing program for a multi-family, commercial or industrial development shall include the display of the street number(s) for the development on the sign, support structure or building where it can be seen from adjacent roads.

E. Sign Clearances: A minimum of eight (8) feet above sidewalks and fifteen (15) feet above driveways shall be provided under free-standing signs.

F. Setbacks: All signs shall be situated in a manner so as not to adversely affect safety, corner vision or other similar conditions. Unless otherwise specified, all signs shall observe the yard setback requirements of the districts in which they are located.

G. Blanketing: No sign shall be situated in a manner which results in the blanketing of an existing sign.

H. Illuminated Signs:

1. Internally illuminated signs, or lights used to indirectly illuminated signs shall be placed, shielded or deflected so as not to shine into residential dwelling units or structures, or impair the vision of the driver of any vehicle.

2. The light intensity of an illuminated sign shall not exceed the accepted standards of the sign industry, as provided by the Oregon Electric Sign Association.

3. No sign or other illuminating devices shall have blinking, flashing or fluttering lights, with the exception of a time and temperature sign approved by the Planning Commission.

4. No colored lights shall be used at any location or in any manner which may be confused with or construed to be traffic signals or lights on emergency vehicles.

I. Moving Signs: No sign, sign structure, or portion thereof, shall be designed to rotate, flutter, or appear to move.
J. Maintenance: All signs, together with all of their supports, braces, guys, and anchors, shall be kept in good repair and be maintained in a safe condition. All signs and the site upon which they are located shall be maintained in a neat, clean, and attractive condition. Signs shall be kept free from rust, corrosion, peeling paint, or other surface deterioration. The display surfaces of all signs shall be kept neatly painted or posted.

K. Pre-Existing Signs: Signs and sign structures existing prior to the adoption of this Ordinance which complied with applicable regulations existing when the sign was established, but which do not comply with one or more of the requirements of this subsection, shall be subject to the provisions of Section 3.109 for Nonconforming Uses, except:

1. Alterations to a non-conforming sign which reduces, or does not increase its non-compliance with the provisions of this ordinance, including changes in display surface, sign area, height and setback, may be allowed.

2. Sign copy which identifies or advertises a business, product or service no longer located on the same site or premises on which the sign is posted shall be replaced, or removed, within one (1) month of the change of occupancy of the premises or vacancy of the premises. Failure to use the copy area of a non-conforming sign for purposes permitted under this section for a period of more than twelve (12) consecutive months shall constitute a discontinuation of use as provided under Section 3.109 and such sign shall be removed or modified to satisfy all applicable requirements of Section 2.206 and the underlying district.

2.206.03 Design Standards

A. Legibility: All forms of sign copy shall be appropriate in size, color, style, spacing, and shape to produce a legible, concise, and uncluttered message as viewed from adjacent public roads or from the appropriate internal circulation road or walkway.

B. Design: Signs shall be designed using shapes, graphics, colors and material which are coordinated and complement the development or business identified.

2.206.04 Residential

A. Residential name plates:

1. Shall not exceed two (2) square feet.

2. Shall be limited only to the title, name, and address of the occupant of the premises upon which the sign is located.

3. Only one (1) such sign shall be permitted upon the premises.

4. May be illuminated by indirect lighting only.

B. Signs pertaining to home occupations, as provided under Section 2.306 of this Ordinance:

1. Shall not exceed three (3) square feet.

2. Shall be located inside the dwelling or located flat against the dwelling within which the home occupation is conducted.
3. Only one (1) such sign shall be permitted upon the premises.

4. May be located within the required setback area of the district provided it is situated in a manner so as not to adversely affect safety, corner vision or other similar conditions.

5. May be illuminated by indirect lighting only.

C. Signs identifying multi-family developments or subdivisions:
   1. Free-standing and ground-mounted signs shall not exceed twenty-four (24) square feet, as viewed from a single direction, and shall not exceed a height of five (5) feet above the natural ground elevation.
   2. On-building signs shall be reviewed as part of the architecture of the building.
   3. No more than one (1) free-standing or ground-mounted identification sign shall be allowed for a development or complex, even when more than one (1) tax lot or ownership is included in the development; however, in mixed use developments a separate free-standing sign may be allowed to identify the multi-family portion of the development.
   4. Directional signs within the development shall not exceed three (3) square feet, except as provided in the district.
   5. Artificially illuminated signs may be allowed subject to Subsection 2.206.02 (H).

D. Signs for public and semi-public facilities, schools, churches, hospitals and similar uses:
   1. Shall not exceed eighteen (18) square feet.
   2. May be illuminated by indirect lighting only.
   3. Only one (1) such sign shall be permitted upon the premises.

2.206.05 Permanent Identification Signs for Commercial and Industrial Developments

A. Developments located in a commercial zone shall utilize either free-standing / ground-mounted signs or on-building signs. Free-standing / ground-mounted signs shall not be used in conjunction with on-building signs.

B. Free-standing or ground-mounted signs oriented to off-site circulation identifying the uses on the premises shall be allowed subject to the following conditions:
   1. Only one (1) such sign shall be allowed per street frontage.
   2. Maximum height: Twenty (20) feet.
   3. Maximum sign area: Forty (40) square feet as viewed from one direction, except for developments fronting Highway 22 which may have a maximum sign area of 200 square feet. A sign area may be increased above this requirement subject to Planning Commission review, in consideration of the following factors:
      a. The relative size of the development.
b. Identification of more than one use within a development is included on the sign.

c. The sign is constructed of natural materials and indirectly illuminated.

d. A time and/or temperature display is incorporated into the design of the sign.

4. Setbacks: Signs less than twenty-eight (28) square feet in size must observe at least one-half of the yard setback requirements of the district in which it is located. Signs larger than twenty-eight (28) square feet in size must observe the setback requirements of the district in which it is located.

5. Sign structure: When visible, the supporting structure of the sign shall be incorporated into the overall sign design, and shall be in scale with the sign. The sign structure, and any street numbers included on the sign structure, shall not be counted for purposes of determining sign area.

6. Illumination: Such signs may be internally or indirectly illuminated, subject to Subsection 2.206.02(H).

B. On-building signs identifying the use of the premises shall be allowed subject to the following conditions:

1. The sign area, location on the building, number of signs, and the size of the copy used shall be determined in consideration of the following factors:

   a. The relationship of the building to the road or on-site circulation areas.

   b. The use and the location of a free-standing or ground-mounted sign identifying the premises, including on-site identification sign approved under Subsection 2.206.06(D).

   c. The use of the premises and associated need for identification of the building.

   d. The size and design of the building elevation on which the sign will be placed.

   e. The amount of signing for the use which can be seen from a given direction.

2. Design: On-building signs shall be incorporated into the design of the building, and shall not be placed in locations which interrupt, detract from, or change the architectural character of the building.

C. Pedestrian oriented signs perpendicular to building shall be allowed if used to identify the businesses. The intent is to allow pedestrian traffic to safely identify businesses while walking adjacent to buildings or under awnings or porches. Approval is based on the following conditions:

1. Only one such sign shall be used per business.

2. If more than one business is located in a building, signs must be joined and
erected in a fashion which does not interrupt, detract from, or change the architectural character of the building.

3. Signs shall not impede pedestrian traffic and shall satisfy the design standards under Subsection 2.206.03

4. Pedestrian signs shall not exceed one and one-half (1 ½) square feet in size.

D. Changeable copy signs may be incorporated into a permanent identification sign for a business or development, subject to review and approval of the Planning Commission. Approval shall not be granted unless the following conditions are satisfied:

1. Only one such sign shall be used in a development.

2. The changeable copy sign shall be included in the maximum sign area allowed under Subsections 2.206.05(A)(3) or 2.206.05(B)(1).

3. The sign shall be integrated into the design of the identification sign, and shall satisfy the design standards under Subsection 2.206.03.

4. A changeable copy sign shall not be used on a sign which includes a time and/or temperature display.

2.206.06 On-Site Traffic Control and Identification Signs

A. On-site signs shall be those permanent signs which are oriented toward internal circulation roads, driveway and walkways, or which direct the flow of traffic to and from the site from adjacent roads or walkways.

B. Traffic Control: Signs which direct the flow of traffic to and from and within the site area shall observe the clear-vision requirements of the district and shall be a maximum of three (3) square feet.

C. Directories: An on-site sign oriented primarily toward vehicle circulation which identifies and directs traffic to a number of tenants, uses or buildings within the development, shall be limited in area to a maximum of two (2) square feet per tenant, use or building specifically identified, up to a maximum of forty (40) square feet. Directories oriented toward pedestrian circulation areas, including those attached to buildings, shall be a maximum of twenty-four (24) square feet in area, and eight (8) feet in height. Directory signs shall be incorporated into other signage whenever possible.

D. Identification signs: An on-site, ground-mounted tenant identification sign for an individual building within a development may be allowed as an alternative to an on-building identification sign provided such sign shall:

1. Be located on the most visible side of the building being identified.

2. Not exceed twelve (12) square feet in area.

3. Not exceed four (4) feet in height.

4. Use materials and colors which are the same, or substantially the same, as those used on the building identified by the sign.

2.206.07 Temporary Display and Portable Signs
A. Temporary Displays: A combination of banners, streamers, strings of lights, flags, beacon lights, balloons, tethered signs, and other similar apparatus; may be displayed for the purpose of advertising a grand opening or similar event under the following conditions and limitations:

1. Time period and duration: The temporary display shall not exceed a total time period of four (4) weeks in any calendar year and must coincide with an actual event.

2. Hazards: No sign, light, electrical cord, streamer, banner, or other apparatus shall be situated or used in a manner which creates a hazard.

B. Portable Identification Signs: A portable sign may be used to temporarily identify a new business until permanent identification signs are installed, or to identify an existing business while permanent identification signs are being repaired or replaced, under the following conditions and limitations:

1. Need: No portable sign shall be allowed under this provision when any other permanent or portable sign visible from adjacent roads accurately identifies the premises.

2. Number: Only one (1) portable identification sign shall be displayed for a development or complex.

3. Time period: The use of a portable identification shall be valid for ninety (90) consecutive days, or until a permanent identification sign is installed, whichever occurs first.

4. Design review: The application for permanent identification signing for the business shall be submitted for review prior to, or concurrent with, the establishment of a temporary display or portable sign under this Section.

5. Size limits: Portable signs shall not exceed a sign area of thirty-two (32) square feet, or a height of six (6) feet above the natural ground elevation.

6. Setbacks: Portable signs shall observe clear-vision area requirements of the district. In no case shall a portable sign be placed within the road right-of-way.

7. Anchoring: All signs approved under this provision shall be physically established in a manner which both prevents the sign from being moved or blown from its approved location, and allows for removal of the sign.

8. Exceptions: No portable sign shall be allowed under this provision for any business or development which has a changeable copy sign incorporated into their permanent identification sign.

9. Illuminated Signs: Illumination of any sign, or portion thereof, in the shape of an arrow, or any other shape which may be construed as a traffic control device is prohibited. Signs containing any electrical components or parts, or illuminated by electrical lighting, must be approved under the National Electrical Code as modified by the State of Oregon Rules and Regulations. Lights and illuminated signs requiring an outside power source shall use a state approved power outlet.

10. Hazards: No sign, light, electrical cord, streamer, banner, or other apparatus shall
be situated or used in a manner which creates a hazard.

C. Portable Service Station Signs: A service station may maintain one (1) portable sign displaying the current prices for fuel sold on the same premises provided such sign does not exceed an area of twelve (12) square feet, or a height of five (5) feet. Such signs shall be subject to clear-vision area requirements, and one-half (1/2) the setback requirements of the district, and conditions 7 and 8 under Subsection 2.206.07(B).

D. Incidental Signs: Emblems, decals, and other similar signs indicating membership in organizations, acceptance of credit cards, brand names of items sold, and other such information which pertains to the business or proprietor of the business located on the premises may be displayed on the inside of any window or door.

E. Temporary Window Signs: Posters and other signs of a temporary nature which advertise or inform the public of current prices or events may be displayed on the inside of a window or door of a business located in a commercial or industrial district.

F. Temporary signs advertising the sale, rental or lease of commercial or industrial premises, or identifying a property developer, lease agent or builder, or advertising a legally recorded subdivision in its entirety, or residential property in excess of one (1) acre, may be allowed, subject to the following limitations:

1. Shall not exceed sixty (60) square feet in area.
2. Shall observe the setback provisions under Subsection 2.206.05(A)(4).
3. Only one (1) such sign shall be permitted on the premises.
4. Shall not be artificially illuminated.
5. Such signs shall be removed from the premises after the premises are sold, rented or leased. Signs pertaining to recorded subdivisions shall not remain upon the premises in excess of eighteen (18) months from the date of filing of the subdivision.

G. Real estate signs advertising individual lots:

1. Shall not exceed six (6) square feet.
2. Shall be located at least five (5) feet behind the front lot line.
3. Shall not exceed five (5) feet in height.
4. Shall be temporary in nature and shall be removed within two (2) weeks after the date of sale.
5. Shall not be artificially illuminated.

2.206.08 Off-Premise Signs

A. Along State Highways: All off-premise signs which are visible from a state highway are subject to approval by the Oregon State Highway Division pursuant to the Motorists Information Act.

B. Billboards: New billboards shall not be allowed in any zoning district.
C. Political Signs: Signs which support or oppose ballot measures, persons running for political office, and other issues subject to a vote by the public may be allowed subject to the following conditions:

1. Approval of the owner of the property on which the sign is to be posted.

2. Setbacks: Such signs may be located within the required setback area of the district, provided they are situated in a manner so as not to adversely affect safety, corner vision, or other similar conditions.

3. Right-of-Way Excluded: Signs shall not be posted in city, state, or county rights-of-way, on telephone poles, traffic signs, or other public apparatus.

4. Size: Signs shall not exceed sixteen (16) square feet in size, as viewed from one direction.

5. Time Limit: All such signs shall be installed no more than 30 days prior to the election and shall be removed within one (1) week after the election for which the sign is posted.

D. Along Public Roads: Off-premise directional signs of a temporary nature such as those used to direct persons to open houses, garage sales, or special one-day events may be allowed subject to the following conditions:

1. Any such sign which is visible from a state highway shall be subject to approval pursuant to Subsection 2.206.08(A), above.

2. All such signs shall comply with conditions 1 through 4 under Subsection 2.206.08(C), above.

3. Time Limit: All such signs shall be removed at the end of the day on which the event, open house or garage sale is conducted.
2.207 SITE AND LANDSCAPING DESIGN

2.207.01 Purpose

A. To guide the planting and maintenance of landscaping materials.
B. To enhance the appearance of the City, provide areas for outdoor recreation and to:
   1. Provide shade and windbreaks where appropriate to conserve energy in building and site design;
   2. Buffer and screen conflicting land uses;
   3. Provide for vegetation of streetscapes within the commercial and industrial zone districts;
   4. Provide for the landscaping of parking areas to facilitate vehicular movement and break up large areas of impervious surface.
   5. Promote public safety through appropriate design principles.
C. To prevent or reduce erosion potential on steep terrain by providing appropriate landscape materials.

2.207.02 Scope

All construction, expansion, or redevelopment of structures or parking lots for commercial, multi-family, institutional, or industrial uses shall be subject to the landscaping requirements of this Section. Landscaping plans shall be submitted as required by the Site Development Review procedures of section 2.207 and reviewed by the Planning Commission, subject to Type II review procedures set forth in section 3.200.

2.207.03 Minimum Area Requirements

Landscaped areas may include landscaping: around buildings; in open spaces and outdoor recreation areas; in islands and perimeter planting areas in parking and loading areas; along street frontages; and in areas devoted to buffering and screening as required in this Section and elsewhere in this Ordinance. The following area requirements shall be the minimum areas devoted to landscaping:

For expansions of existing developments and parking lots and change of use, the minimum new landscaped area shall be determined by: first calculating the percentage of the increase of total floor area or parking area; multiplying the gross site area by this percentage of increase; multiplying the resulting area by the minimum percentage for the type of development, as listed below:

A. Multi-Family Developments: A minimum of 25 percent of the gross land area shall be devoted to landscaping in multi-family developments. Interior courtyards, atriums, solar greenhouses and roof gardens may be included with general landscaped areas in the calculation of this percentage.

B. Commercial developments: A minimum of 15 percent of the gross land area shall be devoted to landscaping in commercial developments. Landscaping located in rights-of-way shall be included in the minimum requirement, and shall include the use of...
boulevards, tree insets within sidewalks, or sidewalk planters. Landscaping located in
rights-of-way shall be maintained by the property owner.

C. **Industrial Developments**: A minimum of 15 percent of the gross land area shall be
devoted to landscaping in industrial developments.

D. For a change of use, the percentage shall be calculated at 50% of the required
landscaping.

2.207.04 General Provisions

A. For purposes of satisfying the minimum requirements of this Ordinance, a "landscaped
area" must be planted in lawn, ground cover plants, shrubs, annuals, perennials or trees,
or desirable native vegetation, or be used for other landscape elements as defined in this
Ordinance.

B. Landscaping shall be designed, developed and maintained to satisfy the specific
functional and aesthetic objectives appropriate to the development and the district,
considering the following:

1. Type, variety, scale and number of plants used;
2. Placement and spacing of plants;
3. Size and location of landscaped areas;
4. Contouring, shaping and preparation of landscaped areas;
5. Use and placement of non-plant elements within the landscaping.
6. Use of root barrier planting techniques to prevent root infiltration of utility lines and
   limit possible surface cover damage.

C. The Planning Commission may grant the applicant credit for landscaping to be done in
the public right-of-way provided the elements set forth for the granting of a variance are
met by the applicant. It shall not be necessary to hold a public hearing to grant this credit.
The Planning Commission shall consider the need for future use of the right-of-way for
street purposes when granting approval for credit under this section.

D. The landscape design shall incorporate existing significant trees and vegetation
preserved on the site.

2.207.05 Screening and Buffering

A. Screening shall be used to eliminate or reduce the visual impacts of the following uses:

1. Commercial and industrial uses when abutting residential uses.
2. Industrial uses when abutting commercial uses.
3. Service areas and facilities, including garbage and waste disposal containers,
   recycling bins, and loading areas.
4. Outdoor storage areas.
5. Parking areas for six (6) or more vehicles for multi-family developments, or ten (10) or more vehicles for commercial or industrial uses. Parking areas shall be calculated based on approved projects. Parking areas shall not be calculated by tax lot.

6. At and above-grade electrical and mechanical equipment, such as transformers, heat pumps, and air conditioners.

7. Any other area or use as required by this Ordinance.

B. Screening may be accomplished by the use of sight-obscuring plant materials (generally evergreens), earth berms, walls, fences, building parapets, building placement or other design techniques.

C. Buffering shall be used to mitigate adverse visual impacts, dust, noise or pollution, and to provide for compatibility between dissimilar adjoining uses. Where buffering is determined to be necessary, one of the following buffering alternatives shall be employed:

1. Planting Area: Width not less than fifteen (15) feet, planted with the following materials:
   a. At least one row of deciduous or evergreen trees staggered and spaced not more than fifteen (15) feet apart.
   b. At least one row of evergreen shrubs which will grow to form a continuous hedge at least five (5) feet in height within one (1) year of planting.
   c. Lawn, low-growing evergreen shrubs or evergreen ground cover covering the balance of the area.

2. Berm Plus Planting Area: Width not less than ten (10) feet, developed in accordance with the following standards:
   a. Berm form should not slope more than forty (40) percent (1:2.5) on the side away from the area screened from view. The slope for the other side (screened area) may vary.
   b. A dense evergreen hedge shall be located so as to most effectively buffer the proposed use.

3. Wall Plus Planting Area: Width must not be less than five (5) feet developed in accordance with the following standards:
   a. A masonry wall or fence not less than five (5) feet in height.
   b. Lawn, low-growing evergreen shrubs, and evergreen ground cover covering the balance of the area.

4. Other methods which produce an adequate buffer considering the nature of the impacts to be mitigated, as approved by the Planning Commission.

2.207.06 Commercial, Industrial, Institutional Streetscapes

Trees shall be installed at street frontages as follows:
A. Types of trees. Street trees shall be limited to a City approved list. The list of acceptable tree species and planting methods shall be established by the Public Works Department, and shall be reviewed at the time of a site development review.

B. Minimum installation size. Street trees shall be a minimum caliper of two (1) inches when measured four (4) feet in height at the time of installation.

C. Spacing. The spacing of street trees by mature tree size shall be as follows:

1. Small sized trees (under 25 feet tall and less than 16 feet wide) shall be no greater than 20 feet apart.

2. Medium sized trees (25 feet to 40 feet tall and more than 16 feet wide) shall be spaced no greater than 30 feet apart.

3. Large trees (over 40 feet tall and more than 35 feet wide) shall be spaced no greater than 40 feet apart.

D. Placement. The placement of trees is subject to the site design review process. Tree placement shall not interfere with utility poles, light standards, power lines, utility services, visual clearance areas, or sidewalk access.

2.207.07 Planting and Maintenance

A. No sight-obscuring plantings exceeding thirty (30) inches in height shall be located within any required clear-vision area as defined in section 1.200 of this Ordinance.

B. Plant materials shall not cause a hazard. Landscape plant materials over walks, pedestrian paths and seating areas shall be pruned to a minimum height of eight (8) feet and to a minimum height of fifteen (15) feet over streets and vehicular traffic areas.

C. Landscape plant materials shall be selected which do not generally interfere with utilities above or below ground. (See recommended tree list, Section 2.207.08.)

D. Landscape plant material shall be installed to current nursery industry standards.

E. Landscape plant materials shall be properly guyed and staked to current industry standards as necessary. Stakes and guy wires shall not interfere with vehicular or pedestrian traffic.

F. All landscape material shall be guaranteed by the developer for a period of one year from the date of installation. A copy of the guarantee shall be furnished to the City by the developer.

G. Plant materials shall be suited to the conditions under which they will be growing. As an example, plants to be grown in exposed, windy areas which will not be irrigated should be sufficiently hardy to thrive under these conditions. Plants should have vigorous root systems, and be sound, healthy, free from defects, diseases, and infections.

H. Deciduous trees should be fully branched, have a minimum caliper of one and one-quarter (1 1/4) inches, and a minimum height of eight (8) feet at the time of planting.

I. Evergreen trees shall be a minimum of six (6) feet in height, fully branched.
J. Shrubs should be supplied in one (1) gallon containers or eight (8) inch burlap balls with a minimum spread of twelve (12) to fifteen (15) inches.

K. Ground cover plants shall be spaced in accordance with current nursery industry standards to achieve covering of the planting area. Rows of plants are to be staggered for a more effective covering. Ground cover shall be supplied in a minimum four (4) inch size container or a two and one-quarter (2 1/4) inch container or equivalent if planted eighteen (18) inches on center.

L. All developments are required to provide appropriate methods of irrigation for the landscaping. It is recommended that large landscape areas be irrigated with automatic sprinkler systems to insure the continued health and attractiveness of the plant materials. Sprinkler heads shall not cause any hazard to the public. Hose bibs and manually operated methods of irrigation may be appropriate for small landscaping areas. Irrigation shall not be required in wooded areas, wetlands, floodplains, or along natural drainage channels or stream banks.

M. Appropriate methods of care and maintenance of landscaped plant material shall be provided by the owner of the property.

N. Landscape plant material shall be protected from damage due to heavy foot traffic or vehicular traffic by protective tree grates.
2.207.08  Recommended Street Trees

A. The following tree species are recommended for use as street trees:
   1. Trees maturing to small mature stature:

<table>
<thead>
<tr>
<th>Common Name</th>
<th>Latin Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>Amur Maple</td>
<td>Acer ginnala</td>
</tr>
<tr>
<td>Trident Maple</td>
<td>Acer buergeranum</td>
</tr>
<tr>
<td>Hedge Maple</td>
<td>Acer compestre</td>
</tr>
<tr>
<td>Globe Norway</td>
<td>Acer calleryana</td>
</tr>
<tr>
<td>Bradford Pear</td>
<td>Pyrus calleryana</td>
</tr>
<tr>
<td>(varieties: aristocrat, chanticleer, etc.)</td>
<td></td>
</tr>
<tr>
<td>Golden Rain Tree</td>
<td>Koelreuteria paniculata</td>
</tr>
<tr>
<td>Redbud</td>
<td>Cercis canadensis</td>
</tr>
<tr>
<td>(needs protection from Southwest sun)</td>
<td></td>
</tr>
<tr>
<td>Kwanzan Cherry</td>
<td>Prunus serrulata</td>
</tr>
<tr>
<td>Crape Myrtle</td>
<td>Lagerstroemia indica</td>
</tr>
<tr>
<td>Flowering Plum</td>
<td>Prunus cerasifera</td>
</tr>
<tr>
<td>(varieties: Flireiana, Thundercloud, etc.)</td>
<td></td>
</tr>
<tr>
<td>Raywood Ash or Flame Ash</td>
<td>Fraxinus oxycarpa</td>
</tr>
<tr>
<td>Snowdrift Flowering Crabapple</td>
<td>Malus ‘sonwdrift’</td>
</tr>
<tr>

<td>Pistacia chinensis</td>
</tr>
<tr>
<td>Variegated Boxelder</td>
<td>Acer negundo</td>
</tr>
<tr>
<td>Grecian Laurel</td>
<td>Laurus nobilis</td>
</tr>
</tbody>
</table>
3. **Prohibited Street Trees:** The following trees are not allowed as street trees except under special circumstances and with the approval of the Staff Advisor. As street trees, they cause one or more of the following problems: 1) their roots damage sewer lines or pavement; 2) they are particularly subject to disease or insects; 3) they cause visibility problems along streets or intersections; 4) they create messy sidewalks and pavements, usually due to fruit drop; 5) their average height at maturity is larger than Code standard.

</table>
2.208 DEVELOPMENT STANDARDS FOR LAND DIVISIONS

2.208.01 Purpose

To provide for the orderly, safe, efficient and livable development of land within the City of Sublimity.

2.208.02 Scope

The provisions of this Section shall apply to all subdivisions minor partitions within the City of Sublimity.

2.208.03 Standards for Lots or Parcels

A. Minimum lot area: Minimum lot area shall conform to the requirements of the zoning district in which the parcel is located.

New residential subdivisions shall provide a mix of housing at the ratio of 85 percent single family lots and 15 percent multifamily lots. For single family lots, the minimum lot areas are as required as follows:

<table>
<thead>
<tr>
<th>Type</th>
<th>Minimum Lot Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single family</td>
<td>10,000 square feet</td>
</tr>
<tr>
<td>Duplexes</td>
<td>8,500 square feet</td>
</tr>
<tr>
<td>Triplexes</td>
<td>8,500 square feet</td>
</tr>
</tbody>
</table>

To determine the number of units, the following formula is applied:

\[
\text{Total number of acres reduced by 25 percent to allow for dedications of rights of way} = \text{Developable acres} \\
\text{Developable acres times 85 percent to establish the acreage reserved for single family development.} \\
\text{Developable acres times 15 percent to establish the acreage reserved for multifamily development.}
\]

B. Lot width and depth: The depth of a lot or parcel shall not be more than two and one-half (2 ½) times the width of the parcel, with the following exceptions:

1. Individual lots for townhouse units shall not be less than 20 feet in width. Lot depth may vary, but shall be adequate to provide a minimum of 300 square feet of semi-private outdoor living space for each unit.

2. Individual lots for single-family attached dwelling units shall be designed so that lot depth is not greater than 3 1/2 times lot width.

3. Parcels created for public utility uses shall be exempt from width to depth ratio provisions.

C. Access: All lots or parcels created after the effective date of this Ordinance shall provide a minimum of 25 feet of frontage on an existing or proposed public street, with the following exceptions:

1. Residential lots or parcels, excluding townhouse developments and Planned Unit Developments, may be accessed via a private street developed in accordance
with the provisions of Section 2.202 when the Planning Commission finds that public street access is:

a. Not feasible due to parcel shape, terrain, or location of existing structures; and

b. Unnecessary to provide for the future development of adjoining property.

2. Lots or parcels in townhouse developments or Planned Unit Developments may be accessed via public or private streets, in accordance with the following standards:

a. Internal local streets or drives may be private and shall be subject to the provisions of Section 2.202.

b. Collector and arterial streets shall be public and shall comply with the applicable provisions of Section 2.202.

c. Local streets which are needed to provide access to adjoining properties shall be public and shall comply with the applicable provisions of Section 2.202.

3. Commercial or Industrial uses located in a campus or park-like development may be accessed via private streets when developed in accordance with Subsection 2.202.07.

D. **Access for duplexes on corner lots:** Individual driveways for duplexes on corner lots shall be installed at the rate of one driveway per unit per street frontage unless the Planning Commission allows a combined access or access on one street frontage based upon a conflict created by the topography of the lot, the location of a public utility, significant vegetation, or different street classifications.

E. **Flag-Lots:** With the exception of lots meeting both criteria set forth below, all lots shall maintain the lot frontage (width) required in the applicable zoning district. It is not the intention of this Section to allow the creation of "flag-lots" by increasing the required building setback line.

1. Flag-lots shall only be approved in conjunction with a partition application. However, this requirement is not intended to encourage the subdivision of a parcel through a number of subsequent partition applications. If the City Recorder determines that this is being done, the applicant shall be required to submit a street and lot plan which covers land under contiguous ownership of the applicant.

2. It is the only reasonable method by which the rear portion of a lot being unusually deep or having an unusual configuration may be accessed.

If a flag-lot is permitted, the following standards shall be met:

a. The access strip shall not be less than twenty five (25) feet wide. The access strip shall be improved with a minimum fifteen (15) foot wide, paved driveway and paved encroachment which meet applicable City standards. If said access strip is over two hundred (200) feet in length, the driveway shall terminate in a turn-around capable of accommodating emergency fire vehicles and approved by the Fire Chief.
b. The access strip shall not be included in the calculation of lot area for purposes of determining compliance with any minimum lot size provision of this Ordinance.

c. Where two flag-lots abut, access shall be via a shared drive wherever possible. Shared drives shall be developed as private streets and shall conform to the standards of Subsection 2.202.07.

F. Through Lots: Through lots shall be avoided except where essential to provide separation of residential development from major traffic arteries, adjacent non-residential activities, or to overcome specific disadvantages of topography and orientation. Screening or buffering, pursuant to the provision of Section 2.207, may be required by the Planning Commission during the review of the land division request.

G. Lot Side Lines: The side lines of lots, as far as practicable, shall run at right angles to the street upon which the lots face.

H. Lot Grading: Lot grading shall conform to the following standards unless physical conditions demonstrate the propriety of other standards.

1. Cut slopes shall not exceed one and one-half (1 ½) feet horizontally to one (1) foot vertically.

2. Fill slopes shall not exceed two (two) feet horizontally to one (1) foot vertically.

3. The character of soil for fill shall be suitable for the purpose intended.

4. The minimum elevation at which a structure may be erected, taking into consideration the topography of the lot, the surrounding area, drainage patterns and other pertinent data, shall be established by the City Building Inspector.

H. Utility Easements: Utility easements shall be provided on lot areas where necessary to accommodate public utilities. Such easements shall have a minimum total width of twelve (12) feet six (6) feet on each lot if located on a common lot line.

2.208.04 Standards for Blocks

A. General: The length, width, and shape of blocks shall be designed with regard to providing adequate building sites for the use contemplated; consideration of needs for convenient access, circulation, control, and safety of street traffic including pedestrians and bicyclists; and recognition of limitations and opportunities of topography.

B. Sizes: Blocks shall not exceed 1600 feet in perimeter between street lines, except blocks adjacent to arterial streets, or unless the previous adjacent development pattern or topographical conditions justify a variation. The recommended minimum distance between intersections on arterial streets is 250 feet.

2.208.05 Improvement Requirements

A. Partitions: During the review of partition proposals, the City may require as a condition of approval, the improvement of:

1. Public streets upon which the property fronts to public standards, including: surfacing from center line to curb, installation of curbing, storm sewers, sanitary
sewers, water lines and other necessary public utilities.

2. Sidewalks and bikeways, meeting City standards, along public street frontage.

3. Private driveways serving flag lots, per the requirements of Subsection 2.202.07. All improvements required as a condition of approval of a partition shall be completed prior to the issuance of any building permits for the subject property.

4. The construction of all new public or private streets to the standards of Section 2.202.

5. The installation of storm sewers, sanitary sewers, water lines and other utilities necessary to serve lots accessing off of the new street.

6. The construction of sidewalks and bikeways along all new public streets to the standards of Section 2.202.

All improvements required under this Section shall be completed or assured through a performance bond or other instrument acceptable to the City Attorney prior to the approval of the final plat of the partition.

C. Subdivisions: The following improvements shall be required for all subdivisions in the City of Sublimity:

1. Frontage Improvements: One-half street improvements to full City Standards shall be required for all public streets on which a proposed subdivision fronts. Such improvements shall be blended to match with existing improved surfaces across the center line and for a reasonable distance beyond the frontage of the property. Additional frontage improvements shall include: sidewalks and bikeways, curbing, storm sewer, sanitary sewer, water lines, other public utilities as necessary, and such other improvements as the City shall determine to be reasonably necessary to serve the development or the immediate neighborhood.

2. Project Streets: All public or private streets within the subdivision shall be constructed as required by the provisions of Section 2.202.

3. Monuments: Upon completion of street improvements, monuments shall be re-established and protected in monument boxes at every street intersection and all points of curvature and points of tangency of street center lines. Elevation bench marks shall be established at each street intersection monument with elevations to US Geological Survey datum.

4. Surface Drainage and Storm Sewer System: Drainage facilities shall be provided within the subdivision and to connect the subdivision drainage to drainage-ways or to storm sewers outside the subdivision. Design of drainage within the subdivision shall take into account the capacity and grade necessary to maintain unrestricted flow from areas draining through the subdivision and to allow extension of the system to serve such areas.

5. Sanitary Sewers: Sanitary sewer shall be installed to serve the subdivision and to connect the subdivision to existing mains both on and off the property being subdivided.

If the required sewer facilities will, without further sewer construction, directly
serve property outside the subdivision, the Planning Commission may recommend to the City Council construction as an assessment project with such arrangement with the subdivider as is equitable to assure financing his share of the construction.

The City may require that the subdivider construct sewage lines of a size in excess of that necessary to adequately service the development in question, where such facilities are or will be necessary to serve the entire area within which the development is located when the area is ultimately developed. The City may also require that the construction take place as an assessment project with such arrangement with the subdivider as is desirable to assure his share of the construction.

6. **Water System:** Water lines with valves and fire hydrants serving the subdivision and connecting the subdivision to the City mains shall be installed. The design shall take into account provisions for extension beyond the subdivision to adequately grid the City system and to serve the area within which the development is located when the area is ultimately developed. However, the City will not expect the subdivider to pay for the extra cost of mains exceeding six inches in size.

7. **Sidewalks:** Sidewalks shall be installed along both sides of each public street and in any pedestrian ways within the subdivision. The Planning Commission or City Council may postpone sidewalk construction until the dwellings or structures are constructed.

8. **Other:**
   
   (a) Curb cuts and driveway installations are not required of the subdivider, but, if installed, shall be according to the City standards.

   (b) Street tree planting is not required of the subdivider, but, if planted, shall be according to City requirements and of a species compatible with the width of the planting strip.

   (c) Accessways shall be installed when required for cul-de-sacs or dead-end streets.

9. **Street Lights.** The installation of street lights is required at locations, and of a type required by City standards.

10. **Street Signs.** The installation of street name signs and traffic control signs is required at locations determined to be appropriate by the city and shall be of a type required by City standards.

All improvements required under this Section shall be completed to City standards, or assured through a performance bond or other instrument acceptable to the City Attorney, prior to the approval of the Final Plat of the subdivision.

**2.208.06 Improvement Procedures**

In addition to other requirements, improvements installed by a developer for any land division, either as a requirement of these regulations or at his own option, shall conform to the requirements of this Ordinance and improvement standards and specifications adopted by the City, and shall be installed in accordance with the following procedure:
A. Improvement work shall not commence until plans have been checked for adequacy and approved by the City. Plans shall be prepared in accordance with requirements of the City.

B. Improvement work shall not commence until the City has been notified in advance; and, if work has been discontinued for any reason, it shall not be resumed until the City has been notified.

C. Improvements shall be constructed under the inspection and to the satisfaction of the City Recorder or the Public Works Director. The City may require changes in typical sections and details in the public interest, if unusual conditions arise during construction to warrant the change.

D. All underground utilities, sanitary sewers, and storm drains installed in streets by the subdivider shall be constructed prior to the surfacing of the streets. Stubs for service connections for underground utilities and sanitary sewers shall be placed to a length eliminating the necessity for disturbing the street improvements when service connections are made.

E. A map showing all public improvements as built shall be filed with the Public Works Director upon completion of the improvements.
2.209 **YARD AND LOT STANDARDS**

2.209.01 **New Buildings Shall be on a Lot**

Every building erected shall be located on a lot as herein defined.

2.209.02 **Yards Apply Only to One Building**

No required yard or other open space or required driveway provided around or for any building or structure for the purpose of complying with the provisions of this Ordinance shall be considered as providing a yard or open space for any other building, nor shall any yard or other required space on an adjoining lot be considered as providing a yard or open space on the lot whereon the building is to be erected.

2.209.03 **No Parking in Front Yard, Yards Adjacent to a Street, or Landscaped Areas**

No parking shall be allowed exclusive of driveways within the required front yard area. The side yard and rear yard areas may be used for parking of vehicles unless otherwise prohibited by this Ordinance.

The yard areas and driveways adjacent to a street shall not be used for the permanent storage of utility trailers, house or vacation trailers, boats or other similar vehicles.

2.209.04 **Zero Side Yard Setback**

Zero side yard dwelling units shall meet the following use and development standards:

A. Number of attached units. No more than two (2) dwelling units, each on a lot held in separate ownership, may be attached in the R-1 zone and no more than six (6) dwelling units on two or more lots held in separate ownership may be attached in the R-2 zone.

B. Yards adjacent to a street. The requirements of this Ordinance for yards adjacent to a street are not relieved by this Section.

C. Maintenance easement. As a condition of issuance of a permit for any building having an exterior wall contiguous to a property, the applicant shall furnish an easement from the owner of the property adjacent to said wall providing for ingress, egress, and use of such adjacent property for the purpose of maintaining, repairing, and replacing the building. Said easement shall be appurtenant to the property on which the building is located and shall be approved as to form by the city attorney and shall be recorded with the County Clerk prior to issuance of the permit.

2.209.05 **Front Yard Projections**

Planter boxes, chimneys and flues, steps, cornices, eaves, gutters, belt courses, leaders, sills, pilasters, lintels, and other ornamental features of not more than twenty four (24) inches, from main buildings, uncovered porches, covered but unenclosed porches when not more than one story high and which do not extend more than ten (10) feet beyond the front walls of the building, but in no case shall such projection come closer than ten (10) feet from the property line (except structures located within the Center Street Commercial Corridor) and the floors of which are not more than eighteen (18) inches above grade, are exempt from the front yard setback provisions and need not be included when determining the average setback.

2.209.06 **Side Yard Projections**
A. Cornices, eaves, gutters and fire escapes, when not prohibitive by any other code or ordinance, may project into a required side yard not more than one-third (1/3) of the width of the side yard, nor more than 4 feet in any case.

B. Chimneys, flues, belt courses, leaders, sills, pilasters, lintels and ornamental features may project not more than twelve (12) feet into a required side yard, provided, however, chimneys and flues shall not exceed six (6) feet in width.

C. Uncovered decks and patios attached to the main building when measured directly beneath the outside edge of the deck or patio may be extended to the side yard property line when they are eighteen (18) inches or less in height from ground level.

2.209.07 Rear Yard Projections

A. Chimneys, flues, belt courses, leaders, sills, pilasters, lintels, gutters and other ornamental features, may project not more than twelve (12) feet into a required rear yard, provided, however, chimneys and flues shall not exceed six (6) feet in width.

B. A fire escape, balcony, outside stairway, cornice or other unenclosed, unroofed projections may project not more than five (5) feet into a required rear yard and set back at least six (6) feet from any property line.

C. Planter boxes, steps, uncovered porches, covered but unenclosed porches including covered patios when not more than one story high and the floors, which are not more than eighteen (18) inches above grade and which shall not come closer than fourteen (14) feet from the rear lot line, are exempt from the minimum rear yard depth requirements.

D. No permitted projection into a required rear yard shall extend within 10 feet of the center line of an alley or of a rear lot line if no alley exists.

E. Uncovered decks and patios attached to the main building when measured directly beneath the outside edge of the deck or patio may be extended to the rear yard property line when they are eighteen (18) inches or less in height from ground level.

2.209.08 Vision Clearance

A. Vision clearance for corner lots located on intersecting street shall be a minimum of twenty (20) feet.

B. Vision clearance for street-alley intersections and street driveway intersections shall be a minimum of ten (10) feet extending along the length of the driveway or alley, and a minimum of twenty (20) feet extending along the street.
2.210 POST APPROVAL REVIEW

2.210.01 Modification of Approved Plan.

A modification of an approved subdivision or Planned Unit Development (PUD) plan that does not deviate by more than ten percent (10%) from approved parcel or lot size or dimensions, but not number of lots, may be approved by the Planning Commission subject to notice and hearing requirements pursuant to Section 2.01.02. The plan must substantially conform to the approved subdivision or PUD plan.

2.210.02 Monitoring Development.

The City Planner, the Public Works Director, or their designee shall review each approved subdivision and PUD on an annual basis to determine whether the subdivision or PUD is developing on schedule or in compliance with its approved plan. If the City Planner, the Public Works Director, or their designee determines that the PUD is not developing on schedule or in compliance with its approved plan, the City of Sublimity shall notify the owner in writing that the owner must either apply for a modification to the approved plan or for an extension to the subdivision or PUD deadline. The owner must make such application within sixty (60) days of the mailing of the notice in order to bring the subdivision or PUD into compliance. If the owner fails to apply for a modification or extension within that time, or if the city denies the modification or extension, the city may revoke the subdivision or PUD. Revocation proceedings will occur at a Planning Commission public meeting.
2.300 SUPPLEMENTAL STANDARDS FOR SPECIAL USES

2.301 GENERAL PROVISIONS

2.301.01 Applicability of Special Use Standards

Special uses included in this Section are uses which, due to their effect on surrounding properties, must be developed in accordance with special conditions and standards. These special use standards may differ from the development standards established for other uses in the same Zoning District. When a dimensional standard for a special use differs from that of the underlying district, the standard for the special use shall apply.

2.301.02 Process

The status of a special use as a permitted or conditional use is set forth in the underlying Zoning District.

Conditional uses shall be processed in accordance with the criteria and procedures specified in Section 3.103. Permitted uses shall be reviewed for compliance with the standards of Section 2.200 in the manner specified in the particular special use section.

A. Conditional Uses: Special uses which are conditional uses in the underlying Zoning District shall be reviewed for compliance with the standards of Section 2.200 during the review of the Conditional Use Permit. In addition to any specific requirements under the special use, the following information shall be included with the application submittal:

1. A description of the proposed use and specific reason for the request.
2. A vicinity map indicating the relationship of the proposed use to the surrounding area.
3. A site plan of the property, including existing and proposed improvements, and other information necessary to address the requirements and conditions associated with the use.
4. A building profile of proposed new or remodeled structures, as applicable.
5. Information addressing the criteria set forth under Section 3.103.
2.302 PLANNED UNIT DEVELOPMENT (P.U.D.)

2.302.01 Purpose

A. To produce a development which would be as good as, or better than one resulting from traditional lot-by-lot development.

B. To allow flexibility which will encourage a more creative approach in the development of land, and will result in a more efficient, aesthetic and desirable use of open area, while substantially maintaining the same population density and area coverage permitted in the district in which the project is located.

C. To allow flexibility in design, placement of buildings, use of open spaces, circulation facilities, off-street parking areas, and to best utilize the sites potential characterized by special features of geography, topography, size and shape.

2.302.02 Area of Application

A. Planned Unit Developments may be established as a conditional use in residential districts on parcels of land which are suitable for and of sufficient size to be planned and developed in a manner consistent with the purposes and objectives of this Section.

2.302.03 Applicant for Planned Unit Development Projects

A. Planned Unit Development projects may be applied for:

1. By the owner of all the property involved, if under one (1) ownership, or:

2. Jointly by all owners of the property in the area proposed for the Planned Unit Development project, if there is more than one owner.

2.302.04 Uses Permitted

A. In a Planned Unit Development only the following uses are permitted:

1. Residential units, including the construction of duplexes on corner lots or on an equivalent number of lots as approved by the Planning Commission.

2. Recreational facilities including, but not limited to, tennis courts, swimming pools and playgrounds.

3. Open space uses.

4. Schools, libraries, community halls, and churches.

5. Offices, buildings and facilities required for the operation, administration and maintenance of any Planned Unit Development and for recreation purposes such as: golf courses, recreation rooms, and vehicle storage areas.

6. Convenience establishments of a commercial and service nature, including stores, laundry, and dry-cleaning establishments, beauty shops and barber shops, (but specifically excluding gas stations, repair garage, and eating and drinking establishments) provided:

   a. Such convenience establishments are an integral part of the general
plan of development for the Planned Unit Development and provide facilities related to the needs of the prospective residents.

b. Such convenience establishments and their parking areas will not collectively occupy more than one (1) acre per one hundred (100) dwelling units.

c. Such convenience establishments will be located, designed and operated to efficiently serve frequent trade and to serve the needs of persons residing in the Planned Unit Developments.

d. Such convenience establishments will not, by reason of their location, construction or operation, have adverse effects on residential uses within or adjoining the district, or create traffic congestion or hazards to vehicular or pedestrian traffic.

2.302.05 Development Requirements

Planned Unit Developments shall comply with the applicable development standards of Section 2.200.

A. Site Adaptation: To the maximum extent possible, the plan and design of the development shall assure that natural or unique features of the land and environment are preserved.

B. Lot Arrangement: All lots within the development shall be designed and arranged to have direct access to, or frontage on, open space or recreation areas.

C. Density of Development: Permitted density of development in all PUDs shall be determined in accordance with the following procedures:

1. Determine total gross site area (G.S.A.)

2. Multiply the G.S.A. by .85 to determine the Net Site Area (N.S.A.).

3. Deduct from the N.S.A. any acres of 20 percent or greater slope which will be developed, proposed commercial areas, and other non-residential uses to determine Net Developable Site Area (N.D.S.A). Open space areas and hillside areas which will be in open space areas are not required to be deducted.

4. Determine maximum density of development in accordance with the appropriate method below:

   a. R-1 Zone Developments: Divide NDSA by 10 units per acre.

   b. R-2 Zone Developments Which Have No MultiFamily Uses: Divide NDSA by 10 units per acre.

   c. R-2 Zone Developments Proposing Multi-Family Units Only: Multiply NDSA by 15 units per acre.

   d. R-2 Zone Developments Proposing Mixed Uses of Multi-Family and Other Residential Uses: Multiply multi-family NDSA areas by 15 units per acre; divide other NDSA by 10 units per acre; add the two results together to determine maximum site density permitted.
D. **Amount of Open Space**: The required amount of open space or outdoor recreational area shall be at least twenty (20) percent of the gross area. Such open space should include school access routes, bicycle trails, natural or landscaped buffer areas, covered bus stops and the like, whenever practical or appropriate.

E. **Community Option**: The Planning Commission may request the dedication of proposed open space land which is reasonably suited for use as a City park or for recreation purposes, taking into consideration such factors as size, shape, topography, geology, access, location, and applicable Comprehensive Plan policies, when such dedication is consistent with the ability of the City to maintain such parks.

F. **Structure Setback Provisions**: Yard setbacks for lots on the perimeter of the project shall be the same as that required for the subject zoning district. All detached structures shall maintain a minimum side yard setback of three (3) feet or meet the Uniform Building Code requirement for fire walls. A minimum front yard setback of twenty (20) feet shall be required for any garage structure whose opening faces onto a public street.

G. **Circulation**:

1. Streets within a PUD shall comply with the applicable standards of Section 2.202.

2. Roads, pedestrian and bikeway paths shall be an integrated system designed to provide efficient and safe circulation to all users. Developments should be designed to minimize the length of roadway.

3. Pedestrian/bikeways shall be clearly signed and have adequate crossing facilities where warranted.

H. **Off-Street Parking**

Off-street parking requirements shall be as specified in Section 2.203. Parking may be provided on each lot or in clustered parking areas. Additional off-street parking for guests and recreational vehicles may be required by the Planning Commission if warranted by reduced lot sizes, type of street and/or traffic volumes.

I. **Utilities**

In addition to other requirements set forth herein, the following shall apply:

1. All sewer and water provisions shall be approved by the City before construction of such improvements.

2. All utility services shall be placed underground.

3. Provisions shall be made for fire prevention, including service water lines, non-freeze hydrants, and free emergency access for fire fighting equipment around buildings.

4. Provision shall be made for control of site storm water drainage, as required by Section 2.204.

J. **Homes Association**

A non-profit incorporated homes association, or an alternative acceptable to the City Attorney,
shall be required for improving, operating and maintaining common facilities, including open space, streets, drives, service and parking areas and recreation areas. The following principles shall be observed in the formation of any homes association and shall be reviewed by the City Attorney.

1. A homes association shall be set up before approval of the final plat, or any portion thereof.

2. Membership shall be mandatory for each home buyer and any successive buyer.

3. The open space restrictions shall be in perpetuity.

4. The homes association shall be responsible for liability insurance, local taxes, and the maintenance of recreational and other facilities.

5. Home owners shall pay their pro rate share of the cost or the assessment levied by the association shall become a lien on the property.

6. The association shall be able to adjust the assessment to meet changes needed.

7. No change in open space use or dissolution of homes association shall occur without a public hearing before the Planning Commission and approval by the City Council.

2.302.06 Process

Planned Unit Developments shall be processed in accordance with the submittal requirements and procedures established in Section 3.107. Approval shall only be granted if the requirements of this Section and all other applicable requirements of this Ordinance are met.
2.302 COMMERCIAL PLANNED UNIT DEVELOPMENT (P.U.D.): Commercial

2.302.7 Purpose

A. To produce a development which would be as good as, or better than one resulting from traditional lot by lot development.

B. To produce a larger scale development without creating the “big box” appearance to building(s) within the commercial district.

C. To allow flexibility which will encourage a more creative approach in commercial development through the creation of a multi-business and/or multi-ownership complex.

D. To allow flexibility in design, placement of buildings, use of landscaped areas, circulation facilities, off street parking areas, and to best utilize the site’s potential characterized by special features of geography, topography, size and shape.

E. To allow second story residential units in conformance with an R-2 zone district and other applicable development standards.

2.302.8 Area of Application

A. Planned Unit Developments may be established as a conditional use in the commercial zone district on parcels of land that are suitable for and or sufficient size to be planned and developed in a manner consistent with the purposes and objectives of this Section.

2.302.09 Applicant for Planned Unit Development Projects

A. Planned Unit Development projects may be applied for:

1. By the owner of all the property involved, if under one (1) ownership, or

2. Jointly by all owners of the property in the area proposed for the Planned Unit Development project, if there is more than one owner.

2.302.10 Uses Permitted

A. In a Planned Unit Development only the following uses are permitted:

1. All uses as listed in Section 2.103.02 as permitted uses, with the exception of gas stations. Public facilities and government structures are also permitted uses in a Planned Unit Development. Other uses listed under conditional uses in that section are not permitted within a PUD.

2.302.11 Development Requirements

A. Development Standards: Planned Unit Development shall comply with the applicable development standards of Sections 2.103.04, 2.103.05, 2.103.06, and 2.200. The exceptions to 2.103.04 shall be as follows:

1. Maximum building size is restricted to 12,000 square feet, and

2. No more than 3,000 square feet may be used per separately owned or operated business.
B. Structure Setback Provisions: Planned Unit Developments shall comply with the applicable property lines setbacks as stated in Section 2.103.04.

C. Site Adaptation: To the maximum extent possible, the plan design of the development shall assure that natural or unique features of the land and environment are preserved.

D. Community Option: The Planning Commission may require the dedication of an area for an architectural feature, City monument, or community announcement area / mechanism to enhance the commercial corridor.

E. Circulation:
   1. Streets within a PUD shall comply with applicable standards of Section 2.202.12.
   2. Vehicle, pedestrian, and bike paths shall be in an integrated system designed to provide efficient and safe circulation to all user. Development should be designed to minimize the length of the roadways, driveways, and pedestrian / bike ways.
   3. Pedestrian / bike ways shall be clearly signed and have adequate crossing facilities where warranted.

F. Off Street Parking: Off street parking requirements shall be as specified in Section 2.203. Parking may be provided on each lot or in clustered areas. Additional off street parking for public use may be required by the Planning Commission if warranted to meet the purpose of the commercial corridor.

G. Utilities: In addition to other requirements set forth herein, the following shall apply:
   1. All water and sewer provisions shall be approved by the City before construction of such improvements.
   2. All utility services shall be placed underground.
   3. Provisions shall be made for fire prevention, including service water lines, non freeze hydrants, and free emergency access for fire fighting equipment around buildings.
   4. Provision shall be made for control of site storm water drainage, as required by Section 2.204.

H. Business Association: If the businesses are under the different ownerships, submittal of the business association agreement shall be reviewed by the City’s Attorney. The agreement shall:
   1. cover improving, operating, and maintaining common facilities, including landscaped areas, streets, drives, service and parking area, and private utilities;
   2. allow flexibility to adjust to meet unknown potential needs; and
   3. state that changes modifying the footprint of the structures and change in square footage of landscaped, parking, or maneuvering areas requires approval from the City’s Planning Commission.

2.302.13 Process
Planned Unit Development shall be processed in accordance with the submittal requirements and procedures established in Section 3.107 and all other applicable local, county, or state regulations or requirements.
2.303 MANUFACTURED HOMES

2.303.01 Scope

The following general standards are applicable to all manufactured homes sited in the City of Sublimity.

2.303.02 General Standards

A. The manufactured home shall be multi-sectional and shall enclose a space of no less than 1,000 square feet.

B. The manufactured home shall be placed on an excavated and back-filled foundation and enclosed at the perimeter such that the manufactured home is located no more than twelve (12) inches above grade. The foundation must be constructed of concrete or concrete block.

C. The manufactured home shall have a roof with a nominal pitch of no less than 3/12.

D. Roofing material shall be composition asphalt, fiberglass, wood shake, or tile.

E. The exterior siding must be standard wood siding, T-111, or a siding of equivalent appearance.

F. The manufactured home shall be certified by the manufacturer to have an exterior thermal envelope meeting performance standards specified by state law for single-family dwellings.

G. The manufactured home shall have an enclosed, attached or detached garage. The size of the garage (single or double car) shall be in conformance with the surrounding area. The garage shall be constructed of materials which are similar in color, material, and appearance to the house. The garage shall be constructed prior to occupancy.

H. Transportation mechanisms, including wheels, axles, and hitch must be removed prior to occupancy.

I. The manufactured home shall be provided with gutters and downspouts to direct storm water away from the placement site.

J. All utilities shall be connected to the manufactured home in compliance with City and State requirements prior to occupancy.

K. At the time of installation, the manufactured home shall be in good repair and free of structural, electrical, mechanical, and plumbing defects.

L. The manufactured home and any manufactured home accessory buildings shall be constructed and maintained in conformance with state and federal safety and construction standards, applicable at the time of placing the manufactured home. The home shall bear the Oregon "Insignia of Compliance."

M. Except for a structure which conforms to the state definition of a manufactured home accessory structure, no other extension shall be attached to a manufactured home, except a garage or carport constructed to the standards of the Oregon State Structural Specialty Code. No attached extension shall exceed a height of fourteen (14) feet, or the roof line of the manufactured home, whichever, is greater.
N. The applicant must obtain an installation/set-up permit for the manufactured home from the City.

2.303.03 Process

Compliance with the standards of this Section shall be reviewed administratively by the City Building Inspector during the review of applicable building permits and set-up permits.
2.304 MANUFACTURED HOME PARKS

2.304.01 Scope

The following standards shall apply to the design and development of all manufactured home parks in the City of Sublimity.

2.304.02 General Standards

A. Any lot or site used for a manufactured home park and any modifications to a manufactured home park shall comply with the provisions of ORS 446.002 to ORS 446.210 and Manufactured Home Park Standards, adopted as Oregon Administrative Rule, Chapter 814, Subdivision 3, Manufactured Home Parks, Sections 28.010 to 18.170, inclusive.

B. All parks shall require a minimum of three acres.

C. Density. The maximum density of a manufactured home park shall not exceed six (6) units per gross acre.

D. Minimum area. The minimum area to be contained on a manufactured home space by a manufactured home and its accessory structures shall be 3,000 square feet.

E. Yard Setbacks. Adjacent to any public street, there shall be a yard of at least twenty (20) feet in depth. Adjacent to any property line other than along a street, there shall be a minimum of at least ten (10) feet. The units on the periphery of a manufactured home or modular home park shall maintain the same yard setbacks required on the adjacent parcels.

F. Minimum width. No manufactured home space shall be less than forty (40) feet in width at its driveway frontage.

G. Boundaries of space. The boundaries of each manufactured home space shall be clearly marked by a fence, landscaping or by permanent markers.

H. Driveways. All driveways shall be paved with an asphaltic material or concrete and shall be a minimum of twenty (20) feet in width. In addition, if parking is to be permitted along the driveway, a minimum width of thirty (30) feet is required. All driveways shall be adequately designed as to permit safe, easy access by emergency vehicles.

I. Parking. A minimum of two (2) off-street parking spaces shall be provided for each unit.

J. Walks. Provisions shall be made for a walk from each manufactured home to each driveway. All walks must be hard surfaced, well drained and not less than thirty six (36) inches in width. All walks adjacent to driveways and thoroughfares shall be curb line walks.

K. Patio. Each manufactured home space shall have a slab or patio or concrete, asphalt or flagstone or similar substance not less than twenty (20) feet in length and ten (10) feet in width adjacent to each manufactured home parking site.

L. Storage area. A storage space in a building having a gross floor area of at least sixty (60) square feet shall be constructed and completed prior to occupancy of the manufactured home for storing the outdoor equipment and accessories necessary to residential living.
M. Accessory buildings. Accessory buildings shall not be placed closer than five (5) feet to any property line. Accessory buildings which are placed on a manufactured home space shall be sited in a manner so as not to hinder or restrict access to the side and rear yard areas adjacent to the manufactured home.

N. Manufactured home space coverage. Not more than 45 percent of a manufactured home space may be occupied by a manufactured home and its accessory structures, whether or not it is attached to the manufactured home.

O. Signs. All signs shall be in accordance with Section 2.206 of this ordinance.

P. Lighting. Common driveways and walkways must be adequately lighted.

Q. Skirting. All manufactured homes shall have skirting around the exterior of the manufactured home or they may be situated upon a continuous foundation meeting the approval of the city building code.

R. Open space. A minimum of at least 5,000 square feet per 25 manufactured home spaces or portion thereof shall be provided for a recreational play area group or community activities. No approved open space area shall contain less than 5,000 square feet.

S. Utilities. All utility services shall be underground. The applicant shall furnish the city with proper easements for reading the meters and for inspecting water and sewer lines. All meters and water and sewer lines shall be maintained by the park owners to city standards.

T. Water, sewer and surface drainage. Adequate provisions shall be made for an ample supply of safe and potable water and adequate provisions shall be made for sewage disposal and surface drainage and plans for such must have prior approval of the health department and the city engineer before a manufactured home park is approved. All manufactured home spaces shall have individual water meters. All meters, sewer and water lines shall be inspected while being installed and the installation shall meet normal city standards.

U. Additions to manufactured homes. Carports, cabanas, ramadas, awning and all other structures, whether defined herein or not, which are situated upon a manufactured home space and are attached to the manufactured home, shall conform to the requirements of the city building code. Such additions and structures shall be considered as a portion of the manufactured home for determining the extent of lot coverage, setback lines and all other requirements for manufactured homes, as if such additions and structures were a part of such manufactured home.

V. No part of any manufactured home park shall be used for the parking or storage of any heavy equipment or trucks.

W. A caretaker, owner or manager shall be responsible for keeping the manufactured home park, its facilities and equipment in a clean, orderly and sanitary condition.

X. Landscaped buffer areas shall be developed around the perimeter of all manufactured home parks. Buffering shall comply with the standards of Section 2.207.

Y. All units placed within a manufactured home park after the effective date of this Ordinance shall be "manufactured homes" as defined in Section 1.200 of the Development Code.

2.304.03 Process
Manufactured home parks shall be subject to the Site Development Review procedures of Section 3.105. Submittal requirements and review procedures shall be as specified in that Section. Approval shall not be granted unless all provisions of this Section and other applicable requirements of this Ordinance are met.
2.305 MANUFACTURED HOME SUBDIVISIONS

Deleted 1994.
2.306 HOME OCCUPATIONS

2.306.01 Standards

Home occupations may be allowed as an accessory use on any property on which there is a residence, subject to the following standards and restrictions:

A. Participation: The home occupation shall include at least one member of the family residing in the residence.

B. Character: The character and primary use function of the residence and premises shall not be changed by the use of colors, materials design, construction, lighting, landscaping or lack of landscaping.

C. Traffic: A home occupation located on a local street, or privately maintained road serving three or more residences, shall not generate more than twenty (20) vehicle trips in one day. A "trip" is a vehicle traveling in one direction to or from a source. Twenty (20) trips is equivalent to ten (10) round trips.

D. Noise: A home occupation shall not create noise of a type, duration or intensity which, measured at the property line, exceeds 60 DBA between the hours of 7:00 a.m. and 6:00 p.m. No noise shall be created by the home occupation between the hours of 6:00 p.m. and 7:00 a.m. that is detectable to normal sensory perception, off the premises of the home occupation.

E. Equipment and Process Restrictions: No home occupation conducted within a single-family detached residence or an accessory structure shall create vibration, glare, fumes, odors, or electrical interference detectable to the normal sensory perception, off the property. No home occupation conducted in a residence other than a single family detached residence shall create vibration, glare, fumes, odors, or electrical interference detectable to normal sensory perception outside the dwelling unit. In the case of electrical interference, nothing shall be used which creates visual or auditory interference in any radio or television off the premises.

F. Hazards: No equipment, process or material shall be used which will change the fire rating or structure separation, fire wall, or ventilation requirements for the structure in which the home occupation is located. No hazardous materials shall be used or stored on the property on which a home occupation located in quantities not typical of those customarily used in conjunction with activities or primary uses allowed in the zoning district.

G. Signs: Signing shall be as provided in Section 2.206.

H. On-Premise Client Contact: Customer and client contact shall be primarily by telephone or mail, and not on the premises of the home occupation, except those home occupations, such as tutoring, counseling or personal services, which cannot be conducted except by personal contact. Services or sales conducted on the premises shall be by appointment only, and shall not be oriented toward, or attract, off-the-street customer or client traffic.

I. Deliveries and Large Vehicle Storage: Delivery of materials to and from the premises shall not involve the use of vehicles over two (2) ton capacity, except parcel post or United Parcel Service trucks. No vehicle over one (1) ton capacity used in conjunction with a home occupation shall be stored on the property or on public rights-of-way.
J. Parking: Parking spaces needed for the conduct of a home occupation shall be provided off the street, in defined areas which are appropriately designed and surfaced for that purpose, and not located within the side or rear yard setbacks of the district. No more than two (2) home occupation-related vehicles shall be located on the property at one time. In the case of vehicle repair services, only two (2) vehicles shall be located and repaired on the property at one time, and shall be located and repaired within an enclosed structure. Except when access to the property is from a local or collector street, adequate maneuvering room shall be provided on-site to allow vehicles to leave the property front-end first.

K. Storage and Use of Yard Areas: Storage of tools, equipment and materials, and display of merchandise and all other activities associated with a home occupation, except as provided above for parking, shall be contained and conducted wholly within covered and enclosed structures and shall not be visible from the exterior of the containing structure(s). Home occupations which involve the care of children by a babysitter, as defined in Section 1.200, may use yard areas.

2.306.02 Process

Home occupations are allowed as an accessory use to any residential use in the City of Sublimity, subject to the Type I approval process listed in Subsection 3.201.01. The standards of this Section shall govern all home occupations.

2.306.03 Non-Compliance

Any home occupation which does not comply with the requirement of this Section and the provisions of the underlying district shall be a violation of this Ordinance and shall be subject to the penalties and remedies of Subsection 1.102.03.
2.307 SMALL SCALE MANUFACTURING IN THE COMMERCIAL GENERAL ZONE

2.307.01 Standards

A small scale manufacturing operation may be permitted in the Commercial General (C) Zone as a conditional use provided that:

A. The area involved in the manufacturing of the product does not involve more than 4,000 square feet of floor area, and all storage of materials is enclosed.

B. The building and site plan are not incompatible with the character of the commercial area.

C. No building shall be located closer than sixty (60) feet to the centerline of a public road; provided, however, that in no case shall any structure be located closer than twenty (20) feet to the right-of-way of any state highway or public road.

D. There shall be a side yard of twenty (20) feet in width adjacent to a residential zone.

E. There shall be a rear yard of twenty (20) feet in width adjacent to a residential zone.

F. All sign requirements of Section 2.206 are met.

G. All height requirements of the C Zone are met.

H. Off-street parking shall be provided for all customers and employees of the manufacturing business consistent with the provisions of Section 2.203.

I. The use shall not be objectionable in relationship to surrounding residential or commercial uses because of odor, dust, smoke, cinders, fumes, noise, glare, heat or vibration.

2.307.02 Process

A. Small-scale manufacturing uses in the C Zone shall be reviewed in accordance with the Conditional Use Permit criteria and procedures as specified in Section 3.103; and

B. Small-scale manufacturing uses in the C Zone shall be subject to the criteria and procedures of Site Development Review process as set forth in Section 3.105.

The above reviews shall include consideration of the standards of this Section. Approval shall not be granted unless all standards of this Section and other applicable provisions of this Ordinance are met.
2.308 MOBILE HOME, TRAILER, AND VEHICULAR SALES, SERVICE AND RELATED USES

2.308.01 Scope

The provisions of this Section shall apply to the following uses:

A. Automobile service stations;
B. Automobile, truck, mobile home, recreation vehicle or trailer sales;
C. Boat and marine accessory sales;
D. Motorcycle sales;
E. Retail tire shop, sales, service and repair;
F. Towing service.

2.308.02 Standards

In addition to other development standards established elsewhere in this Ordinance, the following standards shall apply to the development of the uses listed in Subsection 2.308.01, above.

A. All parking areas, loading areas or areas used for storage of boats, automobiles, mobile homes, recreational vehicles, trucks, trailers, motorcycles or other vehicles shall be paved with a concrete or asphalt surface.
B. The lot shall be screened from adjoining residentially zoned properties in accordance with the provisions of Section 2.207.
C. All merchandise and supplies, other than vehicles, mobile homes and trailers, shall be stored within a building.

2.308.03 Process

The uses listed in this subsection shall be reviewed for compliance with the standards of this subsection pursuant to the Site Development Review process set forth in Section 3.105.
2.400 GENERAL PROVISIONS

2.401 GENERAL STANDARDS

2.401.01 Minimum Requirements

In interpreting and applying this Ordinance, the provisions herein shall be held to be the minimum requirements adopted for the promotion of the public health, safety, comfort, convenience and general welfare.

2.401.02 Completion of a Structure Within a Reasonable Length of Time

A structure not completed within one year of beginning construction shall constitute a violation of this Ordinance.

2.401.03 Lots of Record

A. A parcel is a legal lot of record for purposes of this Ordinance when the lot conforms to all zoning requirements, Subdivision Ordinance requirements, and Comprehensive Plan provisions, if any, in effect on the date when a recorded separate deed or contract creating the separate lot or parcel was signed by the parties to the deed or contract; except

B. Contiguous lots under the same ownership when initially zoned shall be combined, for the purposes of this Ordinance, when any of these lots do not satisfy the lot size requirement of the initial district. A lot or parcel which is a separate legal lot or parcel prior to the adoption of this provision shall remain a separate legal lot regardless of ownership.

C. Lots in recorded plats shall not be combined under Subsection 2.401.03 (B).

D. The use or development of any legal lot of record shall be subject to the regulations applied to the property when such development or use is commenced, irrespective of the lot width, street frontage, depth or area, but subject to all other regulations. However, no dwelling shall be built on an existing lot less than 3,000 square feet in area.

2.401.04 Lots Abutting a Partial Street

New structures which are proposed to be constructed on lots abutting an existing public street which does not meet the minimum standards of Section 2.202 for right-of-way width shall provide setbacks sufficient to allow for the future widening of the right-of-way. Building permits shall not be issued unless a yard setback equal to the minimum yard requirements of the zoning district plus the required minimum additional right-of-way width is provided.

2.401.05 Protection of Solar Access

The use of solar energy systems including solar collectors, storage facilities, and distribution components for space heating and cooling and domestic water heating is a permitted use within all zones, whether as a part of a structure or incidental to a group of structures nearby.

A. Solar collectors and the equipment used for the mounting and operation of such collectors, where necessary, may be elevated above the two and one half (2 ½) story height limitation in residential zones. However, elevation of solar collectors shall not restrict solar access to adjacent properties.
B. Chimneys, communication transmission towers, television and radio masts shall not significantly restrict or impair solar access to buildings or solar collector locations.

2.401.06 Unsafe Building

Nothing in this Ordinance shall prevent the strengthening or restoring to a safe condition of any part of any building or structure declared unsafe by proper authority.

2.401.07 Limitations on Buildings

In an R-1 and R-2 Zones there shall be only one main building on a lot except in the case where multi-family dwelling units are built in an R-2 Zone; then the lot area requirements for multi-family dwellings shall apply.

2.401.08 Fences Around Swimming Pools

All swimming pools shall be enclosed by a locking fence of six (6) in height. No swimming pool shall be located in a clear vision zone.

2.401.09 Fences, Walls and Hedges

Fences, walls and hedges may be located in any required yard or along the edge of any yard, subject to the maintenance of clear-vision area. A fence, wall or hedge may not exceed six (6) feet in height without approval of a variance.

Fences and walls shall not exceed a height of three and one-half (3 1/2) feet along the front property line or within a front yard setback.

Fences or walls constructed of unsafe materials, including, but not limited to barbed wire, electric fencing, broken glass, and spikes shall generally be prohibited.

Use of barbed wire is as follows:

A. Agricultural uses may utilize electric and barbed wire fencing.

B. Conforming and city approved businesses may use fencing in a commercial or industrial zone district with a height limit of six (6) fee. This may include the use of one (1) foot of double barbed 12 ½ gauge fencing at the top portion. Approval of a fence with barbed wire higher than six (6) feet requires the approval of a variance request.

2.401.10 No Parking in Front Yard, Yards Adjacent to a Street, or Landscaped Areas

No parking shall be allowed, exclusive of driveways, within the required front yard area of the R-1 or P Zones. The side yard and rear yard areas may be used for parking of vehicles unless otherwise prohibited by this Ordinance.

2.401.11 Co-Locating Communications Towers and Antennas

Whenever possible, all requests for locating communications antennas shall be required to use existing structures and/or towers and only as permitted in the appropriate zone district. Requests for new towers and/or support structures requires approval from the Planning
Commission under a conditional use process
2.402 GENERAL EXCEPTIONS

2.402.01 Yard Exceptions for Accessory Service Station Structures and Equipment

In a district where automobile service stations are permitted, free standing gasoline pumps and pump islands, identification signs and lighting standards may occupy a required front or street side yard exclusive of a clear vision zone unless otherwise prohibited by this Ordinance. In any zone, gasoline pumps and pump islands shall not be located so that any part of a vehicle being served shall extend into any public street right-of-way, alley or private drive used for access or egress to private property. Further, gasoline pumps or pump islands shall not be built within 10’ from a property line.

2.402.02 General Exception to Building Height Limitations

Projections such as chimneys, spires, domes, elevator shaft housing, towers, aerials, flagpoles, and other similar objects not used for human occupancy are subject to review and approval of the Planning Commission in accordance with the Variance procedures of Section 3.104.

2.402.03 Height Exceptions for Public Buildings

Public or quasi-public buildings, religious buildings, hospitals, and educational institutions when permitted in a zone may be constructed to a height not to exceed 1.75 times the height limit for the zone, provided the required yards are increased one (1) foot for each two (2) feet of additional building height above the height regulation for the zone.

2.402.04 Additions to Existing Structures

When structures exist at the time a zone is adopted which do not comply with front yard setback restrictions, additions to such structures not conforming to the front yard setbacks shall be allowed, provided:

A. The setback distance will not be decreased by the addition;
B. The addition conforms to all other provisions of the zoning district; and
C. The addition shall not be greater than 40 percent of the square footage on the ground level of the existing structure.

2.402.05 Public Dedications

Setback restrictions of this Ordinance shall not apply to existing structures whose setback is reduced by a public dedication. Additions to such structures shall be allowed subject to Subsection 2.402.04.

2.402.06 Miscellaneous Exceptions to Setback Requirements

Setback limitations stipulated elsewhere in this Ordinance may be modified as follows:

A. Bus shelters which are intended for use by the general public and are under the ownership and/or control of a city, county, state or municipal corporation shall be exempt from setback requirements.
B. Side and rear yards of underground structures may be reduced to three (3) feet except:
1. Where the perimeter wall of the structure is above the natural elevation of the adjacent ground, in which case the setback provisions of the district shall apply.

2. All openings into the structure, including doors, windows, skylights, plumbing, intake and exhaust vents, shall meet the minimum setbacks of the district.

C. An uncovered porch, terrace or patio structure extending no more than two and one-half (2 1/2) feet above the finished elevation may extend within three (3) feet of a side lot line or within ten (10) feet of a front or rear lot line.
2.403 USES PERMITTED IN ALL ZONES

2.403.01 Scope

The following uses and activities are permitted in all zones:

A. Placement and maintenance of underground or above ground wires, cables, pipes, guys, support structures, pump stations, drains, and detention basins within rights-of-ways by public agencies and utility companies for telephone, TV cable, or electrical power transmission, or transmission of natural gas, petroleum products, geothermal water, water, waste waters, sewage and rainwater.

B. Railroad tracks and related structures and facilities located within rights-of-ways controlled by railroad companies.

C. Surfaced travel lanes, curbs, gutters, drainage ditches, sidewalks, bikeways, transit stops, landscaping and related structures and facilities located within rights-of-ways controlled by a public agency.

D. Expansion of public right-of-way and widening or adding improvements within the right-of-way, provided the right-of-way is not expanded to more width than prescribed for the street in the Public Facilities segment of the Comprehensive Plan. A non-conforming use may be continued although not in conformity with the regulations for the zone in which the use is located.
CHAPTER 3
APPLICATION REQUIREMENTS AND REVIEW PROCEDURES

3.100 APPLICATION REQUIREMENTS AND REVIEW CRITERIA

3.101 SUMMARY OF APPLICATION TYPES AND REVIEW PROCEDURES

All development permits and land use actions are processed under the City's administrative procedures. There are four types of actions, each with its own procedures.

3.101.01 Type I Action

A Type I action is a ministerial review process in which City staff apply clear and objective standards that do not allow much discretion. This process does not provide notice to the public of the application or decision. Appeal is to the Planning Commission. The following actions are processed under the Type I procedure:

* Lot line Adjustment
* Home Occupation

3.101.02 Type II Actions

A Type II action is a quasi-judicial review in which the Planning Commission applies a mix of objective and subjective standards that allow considerable discretion. Public notice and a public hearing is provided. Section 3.202 lists the notice requirements. Appeal of a Type II decision is to the City Council. The following actions are processed under a Type II procedure:

* Conditional Use Permit
* Partition
* Non-Conforming Uses
* Planned Unit Development
* Similar Use
* Site Development Review
* Subdivision
* Variance

3.101.03 Type III Actions

A Type III action is a quasi-judicial process in which the City Council applies a mix of objective and subjective standards. The Planning Commission has an advisory role. Public notice is provided and public hearings are held at the Planning Commission and City Council. Section 3.202 lists the notice requirements. Appeal of the decision is to the Land Use Board of Appeals (LUBA). The following actions are processed under a Type III procedure:

A. Comprehensive Plan Amendment
B. Comprehensive Plan Text Amendment
C. Development Code Text Amendment
D. Zone Change

3.101.04 Type IV Actions

A Type IV action is a legislative review in which the City considers and enacts or amends laws and policies. Private parties cannot request a Type IV action. It must be initiated by City staff, Planning Commission, or City Council. Public notice and hearings are provided in a Type IV process.

A. Rewriting the City’s Comprehensive Plan document

B. Rewriting the City’s Development Code

C. Creating City Plan documents (e.g. Public Facilities Plan)

D. City wide changes to the Comprehensive Plan map

E. City wide changes to the Zone District map

3.101.05 Annexations and Vacations

Applications requesting annexation of property to within City limits and vacation of public rights of way shall be processed according to the applicable Oregon Revised Statutes.

3.101.06 Preapplication Conference

An applicant for any proposed land use action within the City of Sublimity may request a preapplication meeting with city staff. The city shall schedule a preapplication conference with the applicant within twenty-one (21) days following receipt of a written request and the applicable fee from the applicant for a preapplication conference.

Representatives of public and private agencies may attend or may submit such information and recommendation that will assist the applicant in preparing a complete, land-use application. The applicant or the city may request additional meetings.
3.102 ZONE CHANGE

3.102.01 Process

Zone change shall be reviewed in accordance with the Type III review procedures specified in Section 3.201.

3.102.02 Application and Fee

An application for a zone change shall be filed with the City Recorder and accompanied by the appropriate fee. It shall be the applicant's responsibility to submit a complete application. Applications are not ruled complete until the City receives written responses to all applicable criteria.

3.102.03 Criteria for Approval

Zone change proposals shall be approved if the applicant provides evidence substantiating the following:

A. Approval of the request is consistent with the Comprehensive Plan;

B. The property and affected area is presently provided with adequate public facilities, services and transportation to support uses allowed within the requested zone, or such facilities, services and transportation networks are planned to be provided concurrently with the development of the property; and

C. There has been a change in circumstance which necessitates the zone change or the original zoning was in error.
3.103 CONDITIONAL USE PERMITS

3.103.01 Process

Conditional Use Permit applications shall be reviewed in accordance with the Type II review procedures specified in Section 3.201.

3.103.02 Application and Fee

An application for a Conditional Use Permit shall be filed with the City Recorder and accompanied by the appropriate fee. It shall be the applicant's responsibility to submit a complete application which addresses the review criteria of this Section.

3.103.03 Criteria for Approval

Conditional Use Permits shall be approved if the applicant provides evidence substantiating that all the requirements of this Ordinance relative to the proposed use are satisfied, and demonstrates that the proposed use also satisfies the following criteria:

A. The use is listed as a conditional use in the underlying district.

B. The characteristics of the site are suitable for the proposed use considering size, shape, location, topography, and location of improvements and natural features.

C. The proposed development is timely, considering the adequacy of transportation systems, public facilities and services, existing or planned for the area affected by the use.

D. The proposed use will not alter the character of the surrounding area in a manner which substantially limits, impairs, or precludes the use of surrounding properties for the primary uses listed in the underlying district.

E. The proposal satisfies any applicable goals and policies of the Comprehensive Plan which apply to the proposed use.
3.104 VARIANCES

3.104.01 Applicability

Under the following provisions, a property owner or his designate may propose a modification or variance from a standard or requirement of this Ordinance, except when one or more of the following applies:

A. The proposed variance would allow a use which is not permitted in the district;

B. Another procedure and/or criteria is specified in the Ordinance for modifying or waiving the particular requirement or standard;

C. Modification of the requirement or standard is prohibited within the district; or

D. An exception from the requirement or standard is not allowed in the district.

3.104.02 Application and Fee

An application for a variance shall be filed with the City Recorder and accompanied by the appropriate fee. It shall be the applicant's responsibility to submit a complete application which addresses the review criteria of this Section. Applications are not ruled complete until the City receives written responses to all applicable criteria.

3.104.03 Criteria and Procedure

The Planning Commission may allow a variance from a requirement or standard of this Ordinance after a public hearing conducted in accordance with the Type II review procedures provided that the applicant provides evidence substantiating all of the following and affirmatively answering the questions:

A. Compliance with the applicable requirement or standard of the Ordinance would create a hardship due to one or more of the following conditions:

1. The physical characteristics of the land, improvements, or uses are not typical of conditions in the zoning district.

2. If the standard or requirement is applied, the applicant is not granted the preservation or enjoyment of a substantial property right possessed by other property owners in the same vicinity or district.

3. The authorization of such variance will not be materially detrimental to the public welfare or injurious to property in the vicinity or district in which property is located.

4. That the special conditions and circumstances on which the application is based do not result from the negligent or knowing violation of this Ordinance by the applicant.

B. Is strict adherence to the requirement or standard unnecessary because the proposed variance will reasonably satisfy both the following objectives?

1. granting the variance will not create significant adverse affects to the appearance, function or safety of the use or uses on the subject
property, and

2. Granting the variance will not impose limitations on other properties in the area, including uses which would be allowed on vacant or undeveloped properties.

C. Does approval of this application allow the property to be used only for purposes authorized by the zoning district?

D. If approved, is the application still in compliance with the policies and objectives of the Comprehensive Plan?
3.105  SITE DEVELOPMENT REVIEW

3.105.01  Purpose

The Site Development Review Process is intended to:

A.  Guide future growth and development in accordance with the Comprehensive Plan and other related Ordinances;

B.  Provide an efficient process and framework to review development proposals;

C.  Ensure safe, functional, energy-efficient developments which are compatible with the natural and man-made environment; and

D.  Resolve potential conflicts that may arise between proposed developments and adjacent uses.

E.  The site development review provisions are not intended to preclude permitted multifamily housing development.

3.105.02  Application and Fee

An application for Site Development Review shall be filed with the City Recorder and accompanied by the appropriate fee. It shall be the applicant's responsibility to submit a complete application. Applications are not ruled complete until the City receives written responses to all evaluation standards.

3.105.03  Applicability of Provisions

A.  Site Development Review shall be applicable to all new developments and major remodeling of existing developments except:

1.  Single-family detached dwellings;

2.  A duplex;

3.  Any commercial or industrial remodel that does not exceed 50% of the total square footage of the existing structure; or

4.  An commercial or industrial expansion or change of use that intensifies activity on the property. Intensification is defined as a use requiring different development standards, Section 2.200 through 2.207.

B.  All of the provisions and regulations of the underlying zone shall apply unless modified by other Sections of this Code.

3.105.04  Review and Approval Process

Site Development Review applications shall be reviewed in accordance with the Type II review procedures specified in Section 3.201.

3.105.05  Submittal Requirements

A.  The following information shall be submitted as part of a complete application
for Site Development Review:

1. Site Analysis
   a. Existing site topography;
   b. Identification of areas exceeding 10% slopes;
   c. Site drainage, areas of potential flooding;
   d. Areas with significant natural vegetation;
   e. Classification of soil types; and
   f. Existing structures and utilities.
   g. Existing and proposed streets, bikeways and pedestrian facilities within 200 feet.

2. Site Plan
   a. Proposed grading and topographical changes;
   b. All proposed structures including finished floor elevations and setbacks;
   c. Vehicular, pedestrian and bikeway circulation patterns, parking, loading and service areas;
   d. Proposed access to public roads and highways, bikeways, pedestrian facilities, railroads or other commercial or industrial transportation systems;
   e. Site drainage plan including methods of storm drainage, sanitary sewer system, water supply system and electrical services. Inverse elevations may be required for all underground transmission lines;
   f. Proposed landscape plan, to include appropriate visual screening and noise buffering, where necessary, to ensure compatibility with surrounding properties and uses;
   g. Proposed on-premise signs, fencing or other fabricated barriers, together with their heights and setbacks;
   h. Proof of ownership and signed authorization for the proposed development, if applicant is not the owner of the site; and
   i. A schedule of expected development.

3.105.06 Evaluation of Site Development Plan

The review of a Site Development Plan shall be based upon consideration of the following:
A. Characteristics of adjoining and surrounding uses;

B. Drainage and erosion control needs;

C. Public health factors;

D. Traffic safety, internal circulation and parking;

E. Provision for adequate noise and/or visual buffering from non-compatible uses;

F. Retention of existing natural features on site;

G. Connectivity of internal circulation to existing and proposed streets, bikeways and pedestrian facilities; and

H. Problems that may arise due to development within potential hazard areas.

3.105.07 Expiration of Approval--Standards for Extension of Time

A. Site Development Review approval shall be effective for a period of one (1) year from the date of approval if substantial construction of the approved plan has not begun within the one year period.

B. Site Development Review approval shall be voided immediately if construction on the site is a departure from the approved plan.

C. The City Recorder shall upon written request by the applicant and payment of the required fee, grant an extension of the approval for a period not to exceed six months provided that:

1. No changes are made to the approved Site Development Plan;

2. The applicant can show intent to initiate construction on the site within the six month extension period; and

3. There have been no changes in the facts or applicable policies or ordinance provisions on which the original approval was based.

3.105.08 Bonding and Assurances

If required site improvements cannot be completed prior to the issuance of an occupancy permit, a performance bond or other guarantee acceptable to the City Attorney may be required, as provided for in Subsection 3.201.01(I)(3).
3.106 PARTITIONS

3.106.01 Area of Application

A partition is required for any land division which creates two or three parcels in a calendar year. The parcels shall meet the Development Standards for Land Division of Section 2.210, other applicable development standards and the following additional requirements:

A. Access: Each parcel shall meet the access requirements of Subsection 2.210.03. Additionally, each lot in a minor partition shall have a minimum of twenty-five (25) feet of frontage on an existing state, county, city or public street; or, a constructed private easement being used for access, when said easement existed prior to the adoption of this Ordinance. A land division which requires the creation of a public or private street to provide access to new parcels shall be either a partition or a subdivision.

B. Each parcel shall satisfy the dimensional standards of applicable zoning district, unless a variance from these standards is approved.

3.106.02 General Provisions

A. Partition approval is valid in perpetuity, upon recording of the final surveyed plat.

B. No parcel within an approved partition may be redivided within the same calendar year in which it was recorded, except through the subdivision process.

C. A master plan for development is required for any application which leaves a portion of the subject property capable of replatting.

3.106.03 Submittal Requirements for Preliminary Review

A. Applications for partitions shall be submitted on forms provided by the City to the City Recorder and accompanied by the appropriate fee. It shall be the applicant's responsibility to submit a complete application which addresses the review criteria of this Section.

B. Each application shall be accompanied by a preliminary partition plat drawn to scale of not less than one (1) inch equals fifty (50) feet nor more than one (1) inch equals two hundred (200) feet, and containing at a minimum, the following:

1. Name and address of the owner of the property to be divided.

2. Legal description of the property, by Township, Range, Section and Tax Lot.

3. Dimensions and size in square feet or acres of all proposed parcels.

4. Individual parcel designation, e.g., Parcel I, Parcel II.

5. Adjacent property under the same ownership.

6. North arrow and scale.

7. All adjacent roads, bikeways and pedestrian facilities, public or private, existing or planned, including name and road width.

8. Location and size of all existing and proposed utilities.
9. Comprehensive plan and zoning designations for the subject property.

10. All existing structures on the property and their setbacks.

11. Slopes on the property exceeding 10 percent.

12. Natural drainage ways, streams, wetlands or other significant natural features of the property, such as significant vegetative areas or specimen trees.

13. Other pending applications, including building permits, on the subject property.

14. All easements (existing or proposed).

3.106.04 Process for Preliminary Review

Preliminary plats for partitions shall be reviewed in accordance with the Type II review procedures specified in Section 3.201. A letter stating the findings and conclusions of the Planning Commission shall be forwarded to the applicant within thirty 30 days of receipt of a complete application.

3.106.05 Process for Final Plat Approval

A. Survey Submitted: Within 180 days of the final decision approving a preliminary plat, four copies of a final survey of the approved plat shall be submitted to the City for review. The applicant shall be responsible for all recording fees. If the final survey is not submitted within 180 days, the preliminary approval shall lapse.

B. Final Approval: If the partition plat is consistent with the approved preliminary plat, and if the conditions of approval have been satisfied, the City Recorder shall mark the survey plat "APPROVED" and shall:

1. Transmit one copy each of the approved plat to the Assessor, the County Clerk for recording, and the applicant, and

2. Retain one copy for the City's files.

C. Recording of Approved Plat Required: No building permit shall be issued, or parcel sold, transferred or assigned until the final approved Plat has been recorded with the County Clerk.

D. Improvements/Bonding: Prior to issuance of an occupancy permit, all improvements required by the conditions of approval shall be constructed or the construction shall be guaranteed through a performance bond or other instrument acceptable to the City Attorney, as provided for in Subsection 3.201.01(G)(3). If ownership of a parcel is transferred prior to satisfaction of the conditions of approval, the new owner shall be notified in writing by the transferor of these conditions.
3.107 SUBDIVISIONS AND PLANNED UNIT DEVELOPMENTS

3.107.01 General Provisions

A. All major partitions, subdivisions, and PUDs shall conform to all applicable Zoning District Standards, development standards and other provisions of this Ordinance and the Comprehensive Plan.

B. A Master Plan for development is required for any application which leaves a portion of the subject property capable of redevelopment.

C. All applications shall submit written responses to the criteria for approval before the application is ruled complete.

3.107.02 Submittal Requirements

A. The following submittal requirements shall apply all Preliminary Plan applications for subdivisions and residential and commercial PUDs.

1. All applications shall be submitted on forms provided by the City to the City Recorder along with the appropriate fee. It shall be the applicant's responsibility to submit a complete application which addresses the review criteria of this Section.

2. In addition to the information listed in Subsection 3.106.03 of this ordinance, applicants for subdivisions, and planned unit developments shall submit the following:

   a. The name, address and phone number of the applicant engineer, land surveyor, or person preparing the application;

   b. Name of the PUD or subdivision.

   c. Date the drawing was made.

   d. Vicinity sketch showing location of the proposed land division.

   e. Identification of each building footprint, lot or parcel and block by number.

   f. Gross acreage of property being subdivided.

   g. Direction of drainage and approximate grade of abutting streets.

   h. Streets proposed and their names, approximate grade, and radius of curves, as well as required bikeways and pedestrian facilities.

   i. Any other legal access to the subdivision, or PUD other than a public street.

   j. Contour lines at two (2) foot intervals if 10 percent slope or less, five (5) foot intervals if exceeding 10 percent slope, and a statement of the source of contour information.

   k. All areas to be offered for public dedication.
B. The following supplemental information shall be required for all PUD Preliminary Plan applications:

1. Calculations justifying the proposed density of development for residential PUDs required by Subsection 2.302.05(D).

2. Proposed uses of the property, including sites, if any, for attached dwelling units, recreational facilities, parks and playgrounds or other public or semi-public uses, with the purpose, condition and limitations of such reservations clearly indicated.

3. The approximate location and dimensions of all commercial or multi-family structures proposed to be located on the site.

4. Statement of improvements to be made or installed including streets, sidewalks, bikeways, trails, lighting, tree planting, landscaping, and time such improvements are to be made or completed.

5. Written statement outlining proposals for ownership and maintenance of all open space areas, private streets and any commonly owned facilities.

3.107.03 Review Procedures

A. All Preliminary Plans for subdivisions and residential or commercial PUD shall be heard by the Planning Commission pursuant to the procedures set forth in Section 3.203.

B. Approvals of any preliminary plans for a subdivision or residential or commercial PUD shall be valid for one year after the date of the written decision. A Final Plat for a subdivision or a Final Plan for a PUD shall be recorded within this time period or the approvals shall lapse. PUDs which do not involve the subdivision of property shall show substantial progress toward the construction of the project within the one year period or the approval shall lapse.

C. The Planning Commission, after holding a hearing may extend the approval period for any subdivision or PUD for not more than one (1) additional year at a time. Requests for extension of approval time shall be submitted in writing thirty (30) days prior to the expiration date of the approval period.

D. If the approval period is allowed to lapse, the applicant must resubmit the proposal, including all applicable fees, for public hearing before the Planning Commission. The applicant will be subject to all applicable standards currently in effect.

3.107.04 Criteria for Approval

A. The review body shall approve, approve with conditions, or deny the request based upon the following criteria:

1. Development of any remaining contiguous property under the same ownership can be accomplished as provided in this Code.

2. Adjoining land use under separate ownership can either be developed or be provided access that will allow its development in accordance with the Comprehensive Plan and this Code.

3. The proposed street plan affords the most economic, safe, efficient, and least environmentally damaging circulation of the traffic possible under existing
circumstances.

4. The preliminary plan complies with applicable portions of the Comprehensive Plan, this Code, and State and Federal laws.

5. For planned unit developments, the project results in an equal or superior product than would have resulted from following the requirements of the zoning district and base development standards, as provided in this Code or lot standards for land divisions, as provided in Section 2.208 of this Code.

6. For Planned unit developments, the proposal results in a balanced exchange: for the developer, flexible development standards, maximum land utilization and alternate ownership options; for the Community, greater preservation of natural features and natural resources, greater proportions of useable open space and recreation facilities; for both, a greater opportunity for housing at all income levels.

7. The proposal provides a housing mix of 85 percent single family and 15 percent multifamily for residential developments, based upon the formula presented in section 2.208.03.A.

8. Potential impacts to adjoining properties have been adequately mitigated through site design and attached development conditions.

3.107.05 Form of Final Subdivision or Plat

A. The final plat shall be prepared in a form and with information consistent with ORS 92.010-92.160, and

B. The final plat shall contain, at a minimum, the following information:

1. The lines and names of all streets or other public ways, parks, playgrounds, and easements intended to be dedicated for public use or granted for the use of the owners within the subdivision.

2. The length and bearings of all straight lines, curves, radii, arcs and the semi-tangents of all circles.

3. All dimensions along the building footprints under separate ownership or lot lines of each lot, in feet and decimals of a foot to the nearest hundredth, with the true bearings and any other data necessary for the location of any lot line in the field.

4. Suitable primary control points, approved by the County Surveyor, and description and ties to these control points, to which all dimensions, angles, bearings and similar data given on the plat shall be referred.

5. The location of all permanent monuments.

6. The names of all subdivisions or PUDs immediately adjacent to the subdivision.

7. The date, true North point and scale.

8. The boundary of the divided tract, with the bearings, curves and distances marked, as determined by a field survey made by a registered engineer or a licensed land surveyor by the State of Oregon, and to close with an error of not more than one (1) foot in four thousand (4,000) feet.
9. Any easements or notes required by the City.

10. Open space and common ownerships shall be labeled as tracts and their use identified.

C. All Homeowners Agreements, Business and Cooperative Agreements, Articles and By-Laws shall be submitted with the final plat for review by the City Attorney.

1. Neither the final plat nor any PUD shall be approved by the Planning Commission until the Homeowners Association Agreement, Business and Cooperative Agreements, Articles and By-Laws are approved.

2. The Homeowner's Association Agreement for residential PUDs shall be consistent with Chapter 94, Oregon Revised Statutes.

3. A Certificate of Formation of a non-profit corporation, with a State seal, for the residential PUD Homeowners Association, shall be submitted with the final plat for review by the Planning Commission.

4. Signed, original documents of the Homeowners Association Agreement, Business Cooperative Agreement, Articles and By-Laws and the Certificate of Formation described in (3) above, shall be recorded with the final plat.

D. All plat and PUD plan names shall conform to ORS 92.090.

3.107.05 Final Plat Review of Subdivisions

A. The final subdivision plat shall be submitted to the Planning Commission for review. The Planning Commission shall review the plat to assure compliance with the approved preliminary plat and with the conditions of approval. The Planning Commission Chairman shall signify Planning Commission approval of the final plat by signing the recorder's plat sheet and exact duplicate.

B. The final subdivision plat shall be filed with the Marion County Department of Assessment and Taxation.
3.108 SIMILAR USES

3.108.01 Purpose and Scope

The purpose of this Section is to provide for those uses not specifically listed in a particular zoning district but which are similar in character, scale and performance to the permitted uses specified therein.

3.108.02 Application and Fee

Any application for a similar use shall be filed with the City Recorder and accompanied by the appropriate fee. It shall be the applicant's responsibility to submit a complete application which addresses the review criteria of this Section.

3.108.03 Process

Similar use requests shall be reviewed in accordance with the Type II review procedures.

3.108.04 Review Criteria

A similar use may be authorized provided that the applicant demonstrates that the proposed use satisfies the following criteria:

A. The use is consistent with the purpose of the underlying zoning district and is similar in character, scale and performance to permitted uses specified in the underlying district.

B. The use conforms with the applicable standards and limitations of the underlying zoning district.

3.108.05 Conditions of Approval

In approving an application for a similar use, the Planning Commission may impose such conditions as it deems appropriate to ensure that the intent of this Section is carried out.

3.108.06 Site Development

Prior to the issuance of a Building Permit for any approved similar use in any zone, the applicant shall be subject to the Site Development Review procedures of Section 3.105.
3.109 NONCONFORMING USES

3.109.01 Purpose and Scope

Within the zoning districts established by this Ordinance and amendments thereto, uses and structures exist which were lawful before the date of adoption or amendment of this Ordinance but which would be prohibited or restricted under the terms of this Ordinance. The general purpose of this Section is to encourage the conversion of such nonconforming uses to conforming uses. However, this Section allows nonconforming uses and structures to be continued, altered, restored or replaced subject to satisfaction of the review criteria specified in Subsection 3.109.03. Nothing contained in this Ordinance shall require any change in the plans, construction, or designated use of any structure for which a building permit was issued and actual construction commenced prior to the date of adoption of this Ordinance or any amendment thereto. However, no alteration of a nonconforming use shall be permitted except in compliance with the provisions of this Section.

3.109.02 Application and Fee

An application for an alteration or expansion of a nonconforming use shall be filed with the City Recorder and accompanied by the appropriate fee. It shall be the applicant's responsibility to submit a complete application which addresses the review criteria of this Section. Nonconforming use requests shall be heard by the Planning Commission pursuant to the provisions of Sections 3.202 and 3.203.

3.109.03 Discontinuation of Use

If a non-conforming use is discontinued for a period of more than twelve (12) consecutive months, the use shall not be resumed unless the resumed use conforms with the requirements of the Ordinance and other regulations applicable at the time of the proposed resumption.

3.109.04 Alterations Required by Law

The alteration of any nonconforming use when necessary to comply with any lawful requirement for alteration of the use or structure shall be permitted, subject to all other laws, ordinance and regulations.

3.109.05 Maintenance

Normal maintenance of a nonconforming use is permitted provided there are not major structural alterations as determined by the City Building Inspector.

3.109.06 Alteration, Restoration, or Replacement

A. The Planning Commission shall authorize restoration or replacement of a nonconforming use or structure when restoration or replacement is made necessary by fire, casualty, or natural disaster, provided that the following criteria are met:

   1. The physical restoration or replacement is lawfully commenced within one (1) year of the damage or destructions; and

   2. The owner of the property on which the non-conforming use or structure was sited prior to damage is the party which will replace or restore the non-conforming use or structure.
B. The alteration of a nonconforming use or structure may be authorized by the Planning Commission, subject to the Type II review procedure, provided that the applicant demonstrates that the proposal satisfies the following criteria:

1. That the alteration of structures would result in a reduction in nonconformity of the use, or would have no greater adverse impact on the neighborhood; and

2. If a change in use is requested, the non-conforming use would not be replaced by another non-conforming use (replacement of a non-conforming use by a use in the same land use category shall not be considered a change of use).

3.109.07 Conditions of Approval

In approving the alteration, restoration or replacement of a nonconforming use, the Planning Commission may impose such conditions as it deems appropriate to ensure that the intent of this Section is carried out. Such conditions shall be reasonably related to the criteria set forth in Subsection 3.109.03.

3.109.08 Compliance with Conditions

Compliance with conditions imposed in granting a permit for alteration, restoration or replacement of a nonconforming use and adherence to the approved plot plan shall be required. Any departure from these conditions of approval and approved plans constitutes a violation of this Ordinance. The City Recorder may revoke any permit issued hereunder for failure to comply with any prescribed condition of approval, or for any other violation of this Ordinance.
3.110 LOT LINE ADJUSTMENTS

3.110.01 Applicability

The procedures and requirements in this section apply to the relocation of a common property line between two abutting properties.

3.110.02 Process

A. The property owner, contract purchaser or an authorized agent of the owner or contract purchaser, may submit a lot line adjustment application.

B. Lot line adjustments are processed as a Type I procedure pursuant to Section 3.201.01. A Type I procedure is a ministerial action reviewed by staff based on clear and objective standards. Clear and objective conditions may be placed on the decision, and notice of the decision is sent only to the applicant.

3.110.03 Submittal Requirements

In addition to the completed application form, the applicant shall also submit:

A. A map showing the configuration of each parcel before the proposed adjustment.

B. A map showing the configuration of each parcel after the proposed adjustment.

3.110.04 Evaluation Criteria

Approval of the lot line adjustment shall not be granted unless each of the following criteria are met:

A. The number of lots or parcels as large as the minimum lot size in the affected zone is at least the same after the adjustment as before the adjustment.

B. The number of lots or parcels resulting from the adjustment is the same as the number of lots or parcels existing before the adjustment.

C. If a lot or parcel will be split-zoned after the adjustment, each portion of the lot or parcel that is in a separate zone shall meet the minimum lot size for that zone.

D. All lots or parcels having access to a public or private street before the adjustment must retain access after the adjustment.

E. The adjustment shall not reduce the street access for any lots or parcels to a size or dimension that does not meet the minimum standards required by the Sublimity Development Code or Public Works Design Standards.

F. The lot line adjustment shall not reduce any required development feature or standard, such as parking, landscaping, or building setbacks, to a size or dimension that does not meet the minimum standards of the Sublimity Development Code or Public Works Design Standards.

G. The adjustment shall not increase the degree of nonconformity of nonconforming lots or parcels.
3.110.05 Final Survey

In order to finalize the lot line adjustment process, Oregon Revised Statutes (ORS), Section 92.060(7) requires that the adjustment of a common boundary shall be surveyed and monumented, and a survey complying with ORS 209.250 shall be filed with the county surveyor, with the following exceptions:

A. The survey requirement shall not apply to the relocation of a common boundary of a lot in a subdivision or a parcel in a partition when the adjusted property line is a distance of even width along the common boundary (a line is adjusted parallel to its current location with no change in its length); or

B. The survey requirement shall not apply to the sale or grant by a public agency or public body of excess property resulting from the acquisition of land by the state, a political subdivision or special district for highways, county roads, city streets, or other right of way purposes when the sale or grant is part of a property line adjustment incorporating the excess right of way into adjacent property.
3.200 ADMINISTRATIVE PROCEDURES

3.201 GENERAL PROCEDURES

3.201.01 Procedure for Type I Review

Applications subject to administrative review shall be reviewed and decided by the City Recorder or his / her designee.

A. Upon receipt of an application for a Type I land use action, the City staff shall review the application for completeness.

1. Incomplete applications shall not be reviewed until all required information has been submitted by the applicant.

2. If incomplete, the applicant shall be notified and provided additional time of up to 30 days to submit supplemental information as necessary.

B. The application shall be deemed complete for the purposes of scheduling the hearing and all related timing provisions either:

1. Upon receipt of the additional information; or, if the applicant refuses to submit the information;

2. On the 31st day after the original submittal the application shall be deemed complete for review purposes.

C. Referrals will be sent to interested agencies such as City departments, police and departments, school district, utility companies, and applicable state agencies.

D. Within thirty (30) days of receipt of a complete application or such longer period mutually agreed to by both staff and the applicant, staff shall review the application and shall make a decision based on an evaluation of the proposal and on applicable criteria as set forth in this Ordinance;

E. The applicant shall be notified in writing of staff's decision.

F. If the staff finds that the facts of the particular case require interpretation of existing standards, then a public hearing before the Planning Commission shall be scheduled. The procedures for conducting the public hearing shall comply with the standards in Sections 3.203.

G. All administrative land use decisions of the City Recorder may be appealed to the Planning Commission, if such an appeal is filed within ten (10) days from the date of the decision, pursuant to the provisions of Section 3.205 for appeals.

H. The timing requirements established this Section are intended to allow a final action, including resolution of appeals for all Type II or Type III land use actions within one hundred twenty (120) days of receipt of a complete application. If for any reason it appears that such final action may not be completed within the 120 day period, unless the time period is voluntarily extended by the applicant, the following procedures shall be followed regardless of other processes set forth elsewhere in this Ordinance.

1. The City staff shall notify the City Council of the timing conflict by the 95th day. The City Council shall, in accordance with its own procedures, set a time for an
emergency meeting with in the 120 day period.

2. Public notice shall be mailed to affected parties as specified in Section 3.203.

3. The City Council shall hold in a public hearing on the specified date, in accordance with the provisions of Section 3.205 and render a decision approving or denying the request within the 120 day period. Such action shall be the final action by the City on the application.

3.201.02 General Procedures for Type II and Type III Actions

A. Upon receipt of an application for Type II or Type III land use action, the City staff shall review the application for completeness.

1. Incomplete applications shall not be scheduled for Type II or Type III review until all required information has been submitted by the applicant.

2. If incomplete, the applicant shall be notified and provided additional time of up to 30 days to submit supplemental information as necessary.

B. The application shall be deemed complete for the purposes of scheduling the hearing and all related timing provisions either:

1. Upon receipt of the additional information; or, if the applicant refuses to submit the information;

2. On the 31st day after the original submittal the application shall be deemed complete for scheduling purposes only.

C. Applications for more than one Type II or Type III land use action for the same property may, at the applicant's discretion, be combined and heard or reviewed concurrently.

D. Referrals will be sent to interested agencies such as City departments, police and departments, school district, utility companies, and applicable state agencies.

E. The Public Hearing shall be conducted under the following procedures:

1. Open the public hearing and announce the purpose.

2. Call for abstentions or declarations from the commissioners or councilors, and

3. Ask the attendees for any objections to jurisdiction of the commission or council to conduct the hearing.

4. The commission chairperson or mayor requests the staff report.

5. Proponents then address Commission / Council in the following order:

   (a) Principal, and

   (b) Others.

6. Opponents and anyone else just wishing to comment address Commission / Council.
7. Questions of proponents and opponents from the floor and Commission / Council directed through Chair / Mayor.

8. Comments from Public Agencies are either presented by an agency representative or written evidence is entered into the record.

9. Any other letters or written / printed materials are entered into the record.

10. The Proponent is allowed an opportunity for rebuttal.

11. Staff makes a final recommendation to the Commission / Council.

12. The Commission chairperson or the Mayor closes the hearing.

F. Within 7 days or any action on a Type II or Type III land use application, the applicant and all individuals who have in writing requested notice of the decision, shall be mailed written notice of the action. The notice shall specify findings justifying the approval or denial of the request and any applicable conditions of approval.

G. The timing requirements established this Section are intended to allow a final action, including resolution of appeals for all Type II or Type III land use actions within one hundred twenty (120) days of receipt of a complete application. If for any reason it appears that such final action may not be completed within the 120 day period, unless the time period is voluntarily extended by the applicant, the following procedures shall be followed regardless of other processes set forth elsewhere in this Ordinance.

1. The City staff shall notify the City Council of the timing conflict by the 95th day. The City Council shall, in accordance with its own procedures, set a time for an emergency meeting within the 120 day period.

2. Public notice shall be mailed to affected parties as specified in Section 3.203.

3. The City Council shall hold in a public hearing on the specified date, in accordance with the provisions of Section 3.205 and render a decision approving or denying the request within the 120 day period. Such action shall be the final action by the City on the application.

H. Approvals of any Type II or Type III action may be granted subject to conditions. The following limitations shall be applicable to conditional approvals:

1. Conditions shall be designed to protect public health, safety and general welfare from potential adverse impacts caused by a proposed land use described in an application. Conditions shall be related to the following:
   a. Protection of the public from the potentially deleterious effects of the proposed use; or
   b. Fulfillment of the need for public service demands created by the proposed use.

2. Changes of alterations of conditions shall be processed as a new administrative action by City staff if the changes or alterations do not numerically diminish requirements, do not increase the impact on an adjacent single family residence or zone, or substantially alter the design or operation of the approved application. If
City staff determines that a substantial change or alteration is requested, the Planning Commission becomes the administrative approval body.

3. Whenever practical, all conditions of approval required by the City shall be completed prior to the issuance of an occupancy permit. When an applicant provides information which demonstrates to the satisfaction of the Planning Commission that it is not practical to fulfill all conditions prior to issuance of such permit, the Planning Commission may require a performance bond or other guarantee to ensure compliance with zoning regulations or fulfillment of required conditions.

   a. Types of Guarantees

   Performance guarantees may be in the form of performance bond payable to the City of Sublimity, cash, certified check, time certificate of deposit, or other form acceptable to the City and shall be presented in a form that does not include an expiration date. The return of the cash, check, or expiration of the time certificate of deposit bond, etc. is based upon the completion of the requirement(s) according to City approval. The form must be approved by the City Attorney and appropriate documents filed with the City Recorder.

   b. Amount of Guarantee

   The amount of the guarantee must be equal to at least 110% of the estimated cost of the performance. The applicant must provide a written estimate acceptable to the City, which must include an itemized estimate of all materials, labor, equipment and other costs of the required performance.

   c. Time Periods

   The Planning Commission may grant a waiver of performance for a period not to exceed six (6) months. A request for extension of any waiver granted must be submitted to and approved by the City Council.

3.201.03 Procedure for Type IV Actions

A. Public Hearing are initially scheduled before the Planning Commission.

1. A public hearing shall be held by the Planning Commission on all proposed amendments as stated in section 3.101.04. The Planning Commission may continue any hearing in order to make a reasonable decision.

2. Amendments shall be considered and acted upon by the Planning Commission.

3. Notice of the time, place and purpose of the Planning Commission’s hearings shall be given by publication of a notice in a newspaper of general circulation in the City not less than ten (10) days prior to the date of hearing.

B. The purpose of the public hearing conducted is to make a final decision on the application.

1. Following Planning Commission action, the City Council shall hold a public hearing to consider the Planning Commission’s recommendation on proposed
3.202 PUBLIC NOTICE REQUIREMENTS

3.202.01 Type I Actions

Applications subject to administrative review shall be reviewed and decided by the City Recorder or his or her designee.

A. Provide a fourteen (14) day period for submission of written comments prior to the decision,

B. State that issues which may provide the basis for an appeal shall be raised in writing prior to the expiration of the comment period,

C. List applicable criteria for the decision.

D. State the street address or other easily understood geographical reference to the subject property.

E. State the place, date, and time that comments are due.

F. State that copies of all evidence relied upon by the applicant are available for review and that copies may be obtained at cost.

G. Include the name and phone number of a local government contact person,

H. Provide notice of the decision to the applicant and any person who submits written comments, and

I. Briefly summarize the local decision making process for a Type I action.

3.202.02 Type II and Type III Actions

A. Written notice of the initial public hearing shall be mailed at least twenty (20) days prior to the hearing date to the applicant and the owners of property within one hundred (100) feet of the boundaries of the subject property.

If the application requires two or more hearings, written notice may be mailed ten (10) days before the first hearing.

B. Written notice of a public hearing shall:

1. Explain the nature of the application and the proposed use or uses which could be authorized;

2. List the applicable criteria from the ordinance and the plan which apply to the application at issue;

3. Set forth the street address or other easily understood geographical reference to the subject property;

4. State the date, time and location of the hearing;

5. State that failure of an issue to be raised in a hearing, in person or by letter, or failure to provide sufficient specificity to afford the decision maker an opportunity to respond to the issue precludes appeal to the City Council for Planning
Commission decision, and Land Use Appeals Board of Appeals for City Council decisions;

6. Include the name of the City representative to contact and the telephone number where additional information may be obtained;

7. State that a copy of the application, all documents and evidence submitted by or on behalf of the applicant and application criteria are available for inspection at no cost and a copy will be available at reasonable cost;

8. State that a copy of the staff report will be available for inspection at no cost at least seven (7) days prior to the hearing and a copy will be provided at reasonable cost;

9. Include a general explanation of the requirements for submission of testimony and the procedure for conduct of hearing.

3.202.03 TYPE IV ACTIONS

Public notice for Type IV actions may be initiated using a media notification as stated in letters A. and B. (as follow) or using letter C. separately.

A. Public notice for public hearings conducted by the Planning Commission on all proposed amendments to this Ordinance and on all legislative amendments to the Comprehensive Plan and Zoning Maps shall be given by publication of a notice in a newspaper of general circulation in the City not less than twenty (20) days prior to the date of the hearing.

B. Public notice for public hearings conducted by the City Council following Planning Commission action shall be as specified in Section 3.202.03.A.

C. Public notice for both hearings, the Commission’s and the Council’s may be given by publication in a newspaper of general circulation under one notice when not less than ten (10) days before the Commission’s hearing and not less than twenty (20) days prior to Council’s hearing.
3.203 PUBLIC HEARING BEFORE THE PLANNING COMMISSION

3.203.01 General Provisions

A. Land use actions which require a public hearing by the Planning Commission under the provisions of this Ordinance shall be initially heard by the Planning Commission within sixty (60) days of the receipt of an application which is complete as specified in Section 3.201.

B. The Planning Commission may continue a public hearing for additional, information, testimony or for decision only, to its next regular meeting or to a special meeting. In no instance, however, shall the decision be continued more than sixty (60) days beyond the initial hearing date.

C. Unless there is a continuance, if a participant so requests before the conclusion of the initial evidentiary hearing, the record shall remain open for at least seven days after the hearing.

D. The decisions of the Planning Commission on applications for Type II actions shall be final unless appealed to the City Council pursuant to Section 3.205.

E. The recommendations of the Planning Commission on applications for Type III actions shall be referred to the City Council for final determination, pursuant to Section 3.204.

F. Written notice of the decision shall be prepared and mailed within seven days of the decision to affected individuals.

G. An issue which may be the basis for an appeal to the Land Use Board of Appeals (LUBA) may be raised not later than the close of the record at or following the final evidentiary hearing on the proposal before the city. Such issues shall be raised with sufficient specificity so as to afford the City Council or Planning Commission, and the parties, an adequate opportunity to respond to each issue.

H. Appeal of a Type I action shall be heard by the Planning Commission in accordance with provisions of Section 3.205. Findings of the Planning Commission on such appeal shall be final unless further appealed to the City Council.

3.203.02 Evidence

A. All evidence offered and not objected to may be received unless excluded by the Planning Commission on its own motion. Evidence may be received subject to a later ruling as to its admissibility.

B. The Planning Commission may exclude irrelevant, unduly repetitious, immaterial or cumulative evidence; but erroneous admission of evidence by the Commission shall not preclude action or cause reversal on appeal unless shown to have substantially prejudiced the rights of a party. When a hearing will be expedited, any part of the evidence may be received in written form.

C. All evidence shall be offered and made a part of the public record in the case.

D. The Planning Commission may take notice of judicially recognizable facts, and members may take notice of general, technical or scientific facts within their specialized knowledge. Parties shall be notified at any time during the proceeding, but in any event prior to the
final decision, of the material so noticed, and they shall be afforded an opportunity to contest the facts so noticed. The Planning Commission members may utilize their experience, technical competence and specialized knowledge in evaluation of the evidence presented.

E. Every party is entitled to an opportunity to be heard and to present and rebut evidence.

F. All interested persons shall be allowed to testify.

3.203.03 Record of Hearing

A verbatim record of the proceeding shall be made by written, mechanical or electronic means, which record need not be transcribed except upon review of the record.

3.203.04 Limits on Oral Testimony

The Planning Commission Chairman may set consistent, reasonable time limits for oral presentations to the end that parties are encouraged to submit as much evidence as possible in writing prior to the hearing.

3.203.05 Exhibits

All exhibits received shall be marked so as to provide identification upon review. Such exhibits shall be retained by the City.
3.204 REVIEW AND PUBLIC HEARINGS BY CITY COUNCIL

3.204.01 General Provisions

A. Action on Type III Reviews: The City Council shall hear all Type III actions pursuant to Subsection 3.201.02. The City Council action on such requests shall be the final action of the City on the request.

B. Appeals: The City Council shall hear appeals of all Planning Commission actions conducted pursuant to Section 3.205. The appeal hearing shall be conducted in a manner consistent with Section 3.204. The action of the Planning Commission shall be final and the appeal shall not be heard by the Council if the appeal period has lapsed.

C. All hearings or reviews required by the City Council shall be heard within thirty (30) days of the Planning Commission's written decision or appeal request. In no instance, however, shall this period extend the date of the hearing and final action beyond 120 days from the date of the initial submission of a complete application, unless voluntarily agreed to by the applicant.

D. The decision shall be made by the City Council and written findings prepared listing findings for approval or denial, and any conditions of approval, within two weeks of the hearing by the City Council. In no case, however, shall this decision and the preparation of written findings extend beyond 120 days from the date of initial submittal of a complete application, unless voluntarily agreed to by the applicant.

3.204.02 Hearings by City Council

Actions on quasi-judicial requests shall be conducted at public hearings pursuant to the City Council's adopted rules of procedure. The City Council shall allow opportunity for all parties to be heard and may accept new evidence.

3.204.03 Review by City Council

A. Review on Record: Except as set forth in Subsection 3.203.03 (B), the City Council review of an appeal on an action by the Planning Commission shall be confined to the record of the initial proceeding. Parties may offer testimony regarding alleged errors in the Planning Commission action. The meeting shall be conducted as set forth in the City Council's adopted rules of procedures. The record of the initial proceeding shall include:

1. All materials, pleadings, memoranda, stipulations and motions submitted by any party to the proceeding and received or considered by the Planning Commission as evidence;

2. All materials submitted by the City Staff with respect to the application;

3. The transcript of the hearing; and

4. The findings and action of the Planning Commission and the notice of decision.

B. Submission of New Testimony and De Novo Hearings: The City Council may admit additional testimony and other evidence by holding a de novo hearing.

Upon the decision to admit additional testimony or other evidence and to hear the entire matter de novo, the presentation of such testimony and evidence shall be governed by the procedures applicable to the presentation of such matters at the initial hearing.
C. City Council Action: The City Council may affirm, rescind or amend the action of the Planning Commission and may grant approval subject to conditions necessary to carry out the Comprehensive Plan and as provided for in Subsection 3.201.02. The City Council may also remand the matter back to the Planning Commission for additional information, subject to the agreement of the applicant to extend the 120 day review period specified in Section 3.201.02 (G).
3.205 APPEAL PROVISIONS

3.205.01 Appeal Period

The decision of the City staff under administrative procedure or a decision made by the Planning Commission following a public hearing shall be final unless a notice of appeal from an aggrieved party is received by the City within twelve (12) days of the date of the final written notice, or unless:

A. The Planning Commission, on its own motion, orders review within twelve (12) days of the decision of the City staff under administrative procedure; or

B. The City Council, on its own motion, orders review within twelve (12) days of initial action.

An appeal stays the proceedings in the matter appealed until the determination of the appeal.

Appeal of staff decision on administrative procedures is appealed to the Planning Commission. An appeal of a decision made by the Planning Commission is appealed to the City Council.

3.205.02 Form of Appeal

Appeal requests shall be made on forms provided by the City and shall state the alleged errors of the City staff decision or in the Planning Commission action based upon the approval criteria or any other local, state, or federal regulation that applied to the application.

3.205.03 Notice Requirements

Notice of hearings by the City Council on appeal requests shall be as specified in Section 3.202.

3.205.04 Transcript Fees

In addition to other fees for appeal requests, the appellant shall pay a transcript fee equal to the actual cost of the preparation of the transcript up to $500, plus one-half (1/2) the actual costs over $500. The cost of the transcript fee shall be determined by the cost per page for the preparation of such transcripts, at the rate of $0.25 per page.

The City shall estimate the cost of the transcript at the time of the filing of the appeal request and shall receive a deposit in that amount. The appellant shall be billed for actual costs in excess of the deposit or receive a refund for surplus deposit funds in excess of transcript fees authorized by this Section.
3.206 FEES

3.206.01 Purpose

Fees are for the purpose of defraying administrative costs.

3.206.02 General Provisions

A. Fees shall be payable at the time of application and shall be as set forth by Ordinance or Resolution of the City Council. There shall be no fee required for an application initiated by the Planning Commission or the City Council.

B. The failure to submit the required fee with an application or notice of appeal, including return of checks unpaid or other failure of consideration, shall be a jurisdictional defect.

C. Fees are not refundable unless the application is withdrawn prior to the notification of the hearing.

D. The City Council may reduce or waive the fees upon showing of just cause to do so.
3.207 TYPE IV ACTIONS

3.207.01 Initiation

Type IV may be initiated by:

A. Majority vote of the City Council.

B. Majority vote of the Planning Commission.

3.207.02 Procedure for Type IV Actions

A. Public Hearings by Planning Commission

1. A public hearing shall be held by a majority of the Planning Commission on all proposed amendments to this Ordinance and on all legislative amendments to the Zoning Maps.

   The Planning Commission may continue any hearing in order to make a reasonable decision.

2. Amendments shall be considered and acted upon by the Planning Commission and no extension granted by the City Council, the City Council may act upon the amendment.

3. Notice of the time, place and purpose of the Planning Commission's hearings shall be given by publication of a notice in a newspaper of general circulation in the City not less than twenty (20) days prior to the date of hearing.

B. Public Hearing by City Council: Following Planning Commission action, the City Council shall hold a public hearing to consider the Planning Commission's recommendation on proposed amendments. Notice shall be as specified in Section 3.202.
