NOTICE OF ADOPTED AMENDMENT

05/14/2013

TO: Subscribers to Notice of Adopted Plan or Land Use Regulation Amendments

FROM: Plan Amendment Program Specialist

SUBJECT: City of Sodaville Plan Amendment
DLCD File Number 001-01

The Department of Land Conservation and Development (DLCD) received the attached notice of adoption. A Copy of the adopted plan amendment is available for review at the DLCD office in Salem and the local government office.

Appeal Procedures*

DLCD ACKNOWLEDGMENT or DEADLINE TO APPEAL: Thursday, May 30, 2013

This amendment was submitted to DLCD for review prior to adoption pursuant to ORS 197.830(2)(b) only persons who participated in the local government proceedings leading to adoption of the amendment are eligible to appeal this decision to the Land Use Board of Appeals (LUBA).

If you wish to appeal, you must file a notice of intent to appeal with the Land Use Board of Appeals (LUBA) no later than 21 days from the date the decision was mailed to you by the local government. If you have questions, check with the local government to determine the appeal deadline. Copies of the notice of intent to appeal must be served upon the local government and others who received written notice of the final decision from the local government. The notice of intent to appeal must be served and filed in the form and manner prescribed by LUBA, (OAR Chapter 661, Division 10). Please call LUBA at 503-373-1265, if you have questions about appeal procedures.

*NOTE: The Acknowledgment or Appeal Deadline is based upon the date the decision was mailed by local government. A decision may have been mailed to you on a different date than it was mailed to DLCD. As a result, your appeal deadline may be earlier than the above date specified. NO LUBA Notification to the jurisdiction of an appeal by the deadline, this Plan Amendment is acknowledged.

Cc: Michelle Kirkman, City of Sodaville
Gordon Howard, DLCD Urban Planning Specialist

Updated December 30, 2011
ORDINANCE NO. 01-01

AN ORDINANCE AMENDING SODAVILLE ZONING
ORDINANCE NO. 43 BY SETTING STANDARDS
AND PROCEDURES FOR REVIEW AND APPROVAL
OF COMMON DRIVEWAYS SERVING 2-4 RESIDENCES

THE CITY OF SODAVILLE ORDAINS AS FOLLOWS:

Section 4.120 Driveaway Permits. For purposes of this section, driveaways are defined as that portion of the private road serving a lot or lots, which extends from the property line to the roadway of the abutting street. An exception to this definition pertains to common driveaways intended to serve 2-4 residences, in which case the driveaway standards shall apply to the entire length of the driveaway. A driveaway permit is required for the construction of a new driveaway, for the relocation or realignment of an existing driveaway, and for major improvements to existing driveaways. Standards and procedures for driveaway permits are in the following sub-sections of this section.

1 Purpose of Driveaway Permit. Driveaway permits are required in order to assure that driveaways are:

   a) Wide enough to handle the anticipated traffic and types of vehicle expected to use the driveaway
   b) Located far enough from street intersections to minimize potential traffic safety hazards
   c) Located in order to assure that there is adequate sight distance along the adjacent street to minimize the creation of potential safety hazards
   d) Designed and constructed with materials and methods to prevent the creation of traffic safety hazards and to assure that driveway conditions will not result in drainage or roadway maintenance problems.

2 General Driveaway Standards.
   a) The driveaway should intersect with the street at as close to a right angle as possible
   b) The maximum grade of the driveaway should be ten percent (10%) except where the steepness of the slope requires a steeper grade. In all circumstances the grade of the driveaway should be as flat as possible
   c) Driveaways should be located at least 75 feet from the nearest intersecting street. Driveaways on the same side of the street should be at least 25 feet from each other
d) Each property in the city is entitled to a driveway. However, under some circumstances the joint or multiple use of a driveway shall be encouraged as long as there is a joint use and maintenance agreement between affected property owners. In the event the driveway is intended to serve 2-4 residences, the development of a common driveway to serve all residences shall be required.

e) The City shall adopt driveway road access design, construction, and materials standards including standards related to drainage and drainage structures such as culverts, as the basis for review and action on driveway permit requests.

3) Driveway Permit Process: Driveway permits shall be issued by the Zoning Official. After submittal, the Zoning Official shall transmit the permit to the City Engineer or another party with professional engineering credentials for review and action. Driveway road access permits shall meet the City's adopted standards and shall be approved and inspected by the City Engineer or other designated party with professional engineering credentials. Copies of the approved driveway permit shall be transmitted to the applicant and to the City Recorder. The City Recorder shall retain the approved permit on file.

(Amended by Ordinance No 98-6)

4) Standards for Common Driveways Intended to Serve 2-4 Residences

a) The minimum pavement width shall be 20 feet.
b) The driveway radius at the approach to the street shall be 25 feet.
c) Common driveways shall serve no more than 4 residences, if more than 4 residences are to be served, the driveway shall be constructed to a public street standard.
d) The driveway shall be paved for its entire length.
e) Prior to the installation of the driveway, provision shall be made for the handling of drainage in conjunction with driveways, and for the installation of water lines to serve the lots. The City shall approve plans for drainage and for installation of the water lines.
f) The end of the driveway shall be provided with an emergency turn-around that meets the standards of the Lebanon Rural Fire Protection District. Normally a hammerhead turn-around will be adequate.
g) The owners of all properties to be served by the driveway shall sign a maintenance agreement indicating that it is the responsibility of each property owner to maintain the driveway in satisfactory condition. Before any building permits may be issued for construction of residences on the property, evidence shall be provided to the City that all affected property owners shall be made aware of the maintenance agreement and property owner responsibilities under the agreement.
h) The general standards of Section 4.120 and the permit standards that are a part of the Sodaville Driveway Permit apply to common use residential driveways serving 2-4 residences.
Section 2. Emergency. It is hereby declared that conditions in the City of Sodaville are such that this Ordinance is necessary for the immediate preservation of the peace, health, safety and general welfare of the city and the residents thereof, and an emergency is hereby declared to exist and this Ordinance shall be in full force and effect from and after its passage by the City Council and signing by the Mayor.
