MISSION STATEMENT

We, the members of the Metropolitan New York Chapter of the Society of Architectural Historians, are dedicated to the study and dissemination of historical information and the promotion of architectural research and education. Our mission is to support and further the objectives of the International Society of Architectural Historians and to increase awareness and knowledge of the region's architectural heritage and the significance of its historical development.

We are a small dedicated group of people from diverse professional backgrounds who enjoy an interest in architecture. We believe the built environment reflects who we are and the values of society. Our meetings are a time to exchange ideas and share our interests.

We are committed to the study and documentation of significant historical buildings and sites in the metropolitan region. We also encourage the recognition of architectural excellence and the preservation of historic structures.

We believe in the importance of education and are committed to providing opportunities for learning about the history of architecture and its role in shaping our communities.

We strive to create a welcoming and inclusive environment for all who share an interest in architectural history.
