

2017 SYMPOSIUM

AMERICA ON FIRE: TRENDS IN WILDFIRE LAW, SCIENCE, AND POLICY ON PUBLIC AND PRIVATE LANDS

On September 29, 2017, at the William W. Knight Law Center at the University of Oregon in Eugene, Oregon, the *Journal of Environmental Law and Litigation (JELL)* sponsored a symposium titled “America on Fire: Trends in Wildfire Law, Science, and Policy on Public and Private Lands.”

The *JELL* 2017 Fall Symposium, and the first part of this accompanying 2018 issue, seeks to further the dialogue between communities facing high natural wildfire risk and the federal, state, and local agencies responsible for mitigation and management. This Symposium explored developments in wildfire policy after the third consecutive warmest year (2016 global averages) and the legal response to mitigation and recovery from wildfire disasters.

The symposium generated the following symposium essay and three symposium articles.
