

LIB101
Assignment #4: Finding Articles from General Article Indexes
Due In Class February 5th

Name _____

Search both Academic Search Elite **and** ArticleFirst to find **at least five** magazine or journal articles on your topic. **The assignment should be typed not handwritten.** Using these articles, do the following:

- A. Find one article that is available **in print** from a library at the University of Oregon. Go find the article in the print journal and make a photocopy of the first page of the article. Staple the photocopy to this sheet. (3 points)

- B. Find one article that is available in **full-text** from the computer. Print out the article. (If you cannot find a full-text article on your topic, print out the abstract of one article). Staple the photocopy to this sheet. (2 points)

- C. Using proper APA or MLA style, cite the five articles that you found on your topic. Include the name of the database in which you found the article underneath the citation. Two of these five articles should be the articles that you used in A. and B. above. Your citations should include some articles from each database. (5 points)

Extra Credit (2 points)

Explain why the two articles you copied are from scholarly or popular periodicals.
