To and From

Pardon me for yawning but this continuing squabble in the Pacific Coast Conference about who is going to leave the Conference and who is going to stay is getting to be rather tiresome. One thing for sure: If anyone fails to live up to the code now and violates the rules to the same degree that was evident a year ago there will be fewer members in the Conference. If any good can come of such a sad affair it will be that some institutions will no longer be like our old friend the ostrich. Too many people felt that what others said about violations was just impossible but now they will be more strict.

Through it all the University's position has been unwavering. Certain members of the Conference violated the rules and were therefore subject to discipline. If the majority of the members of the Conference feel that the rules are wrong, let's change them. If we consider changes let's also remember that we are talking about educational institutions and not professional or even semi-professional athletic teams.

From here it appears that the conference will remain intact but there will still be rumors and threats. It is disappointing to note the political pressure being brought to bear on certain institutions just to satisfy the selfish mania to have a winning athletic team. No wonder there is concern for the over-emphasis of athletics in some areas. Some seem to forget that we have inter-collegiate sports because we have colleges and not colleges because we have athletics.

So much for that for the moment. Next we take up the question of engineering at Oregon, suggested in Dr. Jim Noel's letter on page 15.

First of all, no, the University has given no serious thought to proposing that a school of engineering be established on the Oregon campus. But that doesn't mean that we would not do so.

We are more concerned with improving what we have rather than trying to add more areas of study at the expense of what we now have. Also, it is doubtful that the State Board would reverse its policy of division of education among the schools within the state system. Many of our alumni may not be aware of the particularly fine program in science which we have on the campus now. The members of our faculty in the fields of physics, chemistry, biology, mathematics and geology are particularly distinguished. As a matter of fact, with the staff and facilities we have, certain fields of engineering could be added without great cost to the state.

With this in mind it is doubtful that we will make any effort to add engineering at Oregon. Nevertheless, if you have any ideas on the matter we would like to hear them.

Old Oregon

The President and the Queen

COVER

If one can depend on the meaning of facial expressions, the President of the University of Oregon is deeply concerned with the Technique of Crowning Queens. Or, in this case, one queen in particular—Sue Walcott who reigned over Junior Week. Now, it's not difficult to guess what Her Majesty is thinking—all hearts and flowers, we'll bet. But anyway, back to the President. The Technique of Crowning Queens is not so simple as you might think. Grasping the crown firmly between the thumb and three fingers (the little finger being optional) the crown must be firmly affixed exactly 1 3/4 inches back from the hairline, and in such a way that, should Her Majesty decide to flutter off and do the Charleston, the crown will remain firmly in place. President Wilson, an old hand at the Technique of Crowning Queens, demonstrates the proper form. You might practice it yourself, just in case you are ever called upon to Crown a Queen. (University Photo Bureau.)

Another Oregon Man-on the way

Remember when it was you standing there? How you squirmed when your father saw that one bad report card. You're glad now that he made you buckle down — grateful that you were able to go on to one of the country's finest universities.

Naturally, you want to be just as farsighted about your own son's future. So now that he's one year closer to college — wouldn't it be wise to call your Massachusetts Mutual man and discuss the best insurance plan for his education?

And since this is the time for report cards and review, perhaps you should re-evaluate your own career. Are you as far along as a man of your ability should be?

For example, are you earning as much as \$12,490 a year? That was the 1956 average income of 562 representatives who have been with the Massachusetts Mutual Life Insurance Company five years or longer.

They are men like you — men chosen for their fine education and background. All received thorough training and earned while they learned. Now they are established in a career that uniquely combines independence with stable income—plus the security of group insurance and retirement benefits.

If you would like to know more about this opportunity, write for a free copy of "A Selling Career".

*... to the junior prom
(of course) ...*

Dancers at the Junior Prom, held on May 11, sway to the music of Les Brown's orchestra. What most alumni remember as Junior Weekend is now called "Junior Week," extends over seven-day period.

Men, accustomed to being kept waiting for what seems like interminable hours for their dates to come gracefully gliding down the stairway, seldom realize the trouble that women go through in the process of Getting Ready. This, of course, is never more true than on a college campus during such momentous events as the Junior Prom and Junior Week.

The bit of behind-the-scenes drama illustrated on the preceding page was duplicated all over the campus last May 11. As always, the transformation from a pedal-pushers-clad college girl to a charming cinderella requires the greatest part of a full day. As demonstrated by Patricia Wilson, a senior student from Oakridge, Oregon, first comes the Hair Washing Routine. This is followed by a full schedule of events, such as Waiting for the Hair to Dry, Applying Nail Polish and many others. Finally, as the gentleman (in this case Louis Fulton, of Ventura, California) calls and has been kept waiting the regulation five minutes, our cinderella applies the Final Touch of lipstick and is Ready to Go. Then, once the gals were ready, the events of Junior Week could proceed.

Junior Week princesses Harriet Swanson, Gloria Begenich, Diane Oldham and Sue Ramsby applaud the coronation of Queen Sue W'alcott.

Plastic tarps keep gals from Gamma Phi Beta sorority dry while they work on float.

"Calypso" float of Pi Beta Phi, Phi Kappa Psi and Ann Judson House emerged second in canoe fete.

a wet junior week . . .

For once the famous editorial plea for a canny Junior Week failed to accomplish the purpose. Written by Buck Buchwach '41, and dutifully reprinted by the *Emerald*, the editorial produced little but showers. "If only we'd run it a day earlier . . ." mused the present *Emerald* editor, Chuck Mitchelmore.

Continued . . .

How to keep dry while watching the canoe fete is demonstrated in a variety of ways. Among the spectators: Songster Hoagy Carmichael in center foreground.

Happy freshman girl, Dianne McKrola, is tapped for Kivama honorary by Sue Sandoz.

moms and celebrities

But looking back on the 1957 Junior Week, students and townspeople alike considered it a very successful event in spite of rain. The event attracted University of Oregon Mothers from throughout the West and a few celebrities as well. The Moms toured the campus and attended the special Junior Week events with their sons and daughters, and then elected Mrs. M. L. Ziniker of Creswell as president of the Oregon Mothers. Other officers: Mrs. C. A. Ricketts, Roseburg, vice president; Mrs. G. J. Shea, Eugene, recording secretary; Mrs. C. A. Fratzke, Independence, treasurer; Mrs. Deo D. Palmer, Portland, corresponding secretary; Mrs. C. G. Van Valzah, Medford, financial secretary; Mrs. L. E. Fischer, Eugene, publicity.

In top photo, Oregon mothers register for special activities held in connection with Junior Week. Lower photo: Newly elected Oregon Mothers officers discuss plans for coming year.

What the well-equipped luncheonnaire should have is demonstrated by Governor Robert Holmes: Coke, lunchbox and campus newspaper.

Row 4—Betsy Rice, Elizabeth Johnson Kelley, Harrison Kincaid, Don Eva, Chet Knowlton.

Oregon Scientists Invade Hanford

... And General Electric Company hopes to get more like them. To make sure it does, this company carries on a fabulous program to support higher education

By Bill Clothier '52

Dr. R. S. Paul (right), manager of testing methods, engineer section at Hanford, adjusts dial of a cathode-ray oscilloscope, an instrument used to analyze electrical wave forms. In photo below, Dr. Constantine H. Spalaris studies properties of reactor materials. He has since transferred to another General Electric plant in California.

SCIENTIFIC RESEARCH moves swiftly these days, requiring large numbers of trained men with imaginative understanding. Like many another institution of higher learning, the University of Oregon is sending men trained in science into business concerns that deal with research and technological problems. And although the University is a liberal arts institution, the men who ought to know speak well of their Oregon background in science.

The men pictured on these pages are Oregon-trained scientists presently carrying out a wide variety of duties for General Electric Company at the Hanford Atomic Products Operation in Washington.

"Oregon's science curriculum may not be among the largest, but I feel that this is actually an advantage," says Dr. R. S. Paul, who holds three degrees from Oregon. "Smaller classes give students an opportunity to know their professors better. When doing a thesis the individual is responsible, not a team as is common in some of the larger physics departments. Certainly, at General Electric we are eager to recruit Oregon graduates in physics, chemistry and mathematics."

Wes Nicholson, statistician at the Hanford Laboratories, adds this bit of experi-

Dr. W. I. Nicholson, statistician, is one of the instructors at Hanford's Nuclear School. He received bachelor's and master's degrees at U.O.

ence: "As a Ph.D. candidate at the University of Illinois, I was in competition with excellently trained students from eastern schools known for their scientific curriculum. However, I frequently found that my knowledge of basic mathematical and statistical concepts was superior to that of my contemporaries. I feel that this was directly due to the University of Oregon's emphasis on high level mastery of the fundamental material in a field. Once the foundation is laid, advanced concepts come quite easily."

Byron Brendon, who works in the instrument research and development operation at Hanford, will be remembered by alumni of '51 vintage as a Phi Beta Kappa and member of the Senior Six at Oregon. "The excellent physics and related science courses at the University of Oregon provided the stimulating and vital background necessary to join General Electric's physics and advanced engineering program," he says. "The personal attention of professors is not usually available at institutions where large classes compete impersonally for degrees in the physical sciences."

Adds E. D. Clayton, manager of reactor lattice physics at Hanford, "I would recommend the University of Oregon to anyone who wants an exceedingly good academic

background with the opportunity of frequent consultation with his professors. Science students at Oregon can receive more individual attention than is possible at some larger universities. I'll always remember the friendly atmosphere at Oregon."

Like many other giant corporations, the company for which these men work is vitally interested in quality education. By helping education in general, this company believes it helps itself in particular. The technological fires at General Electric are fueled by a continuing supply of highly educated young men and women. Unfortunately the supply of such persons is not keeping pace with the demand.

The company is meeting this problem with a number of educational assistance plans. They cover an astonishingly wide range—scholarships, fellowships, training programs and company operated schools. One such project is the School of Nuclear Engineering at the Hanford atomic plant.

Located in the desert, far from regular university or college campuses, the Hanford School does the next thing to bringing the mountain to Mohammed.

Since the Nuclear School was founded in 1947, two doctoral degrees and 31 master's degrees have been granted as a result of work at the school. One of the doctor's degrees was earned by Constantine H. Spalariis who received his master's in chemistry from the University of Oregon.

Regular employees of General Electric serve as instructors. Three of them, R. S. Paul, E. D. Clayton, and W. L. Nicholson, hold advanced degrees from Oregon. Two students presently enrolled in the school, Donald R. Green and Donald R. Koberg, are Oregon graduates.

Research work (which constitutes a considerable amount of the work necessary for an advanced degree) is done at Hanford. To complete the course work necessary for a doctoral degree, a year or more of residence on the campus of one of the cooperating institutions is required.

Hanford's "summer school" (formally known as the College Training Program) was begun in 1951. Originally designed for the benefit of college professors and upper division students, it has since been broadened to include high school teachers.

Last summer 43 persons were assigned to various positions in Hanford's engineering, manufacturing, radiological science and finance departments. All were paid as though they had been full-time, regular employees in their respective jobs.

For many years alumni contributions have helped finance educational needs at the nation's colleges and universities. To broaden the base for alumni contributions, General Electric established a Corporate Alumnus Program in 1954. (Other big companies have similar programs.) Under this program, the company will match any amount of money up to \$1,000 contributed by an employee-alumnus to his Alma Mater.

During the 1956-57 academic year, 34 fellowships were offered by GE to outstanding students either starting or continuing work toward advanced degrees. The company has provided an additional 40 fellowships directly to various schools, with emphasis in the fields of physics, chemistry and metallurgy. Still another part of the educational package includes \$650 scholarships and loans up to \$1,000 for undergraduate study.

General Electric also makes available to high school teachers for use in classroom studies an extensive list of publications on such subjects as "The Story of the Turbine," "The Story of Cloud Seeding," "Engineering Tomorrow," "Thunderbolts in Harness."

Such varied programs indicate how seriously one big company regards the widening gap between the supply and demand of technical graduates. During the past decade, GE has invested \$1,250,000,000 in new plants and equipment. There must be an adequate reservoir of trained personnel to keep this huge investment working at full capacity.

Schools like Oregon, GE hopes, will be turning out these men and women in ever increasing numbers. And, as one General Electric staffer says, "The additional value of a broad background at a liberal arts university adds perspective to an education based on science. Business concerns dealing with technological problems must have scientists, but they want the whole man—not one inured with tunnel-vision thinking. There is more to education than knowing how to solve an equation."

Dr. E. D. Clayton, supervisor, reactor lattice physics at Hanford plant, instructs his secretary on a change he'd like made in a model of the neutron flux in a lattice cell.

Byron B. Brenden, who works in the instrument research and development operation, uses a spectograph to check characteristic wave lengths of different light sources.

A University and its friends

*The last of two articles
on why state funds alone
can't build a great school*

By W. L. Thompson

WHY ALL THIS furor about giving to the University? The answer is quite elementary—state funds are simply not adequate for the job of building a great University. Tax funds merely provide the basics—buildings, salaries, equipment, some scholarships, essential library needs, limited faculty travel—those things without which a University couldn't exist. But they are not enough to make a truly great university. For this, a school is dependent upon its alumni and friends.

Throughout the years those things which have made for a distinguished program at the University of Oregon—aside from its faculty—have come from private sources. The Museum of Fine Arts is a case at point.

No public funds were available to provide a home for the magnificent Murray Warner Collection of oriental art which had been offered to the University by Mrs. Murray Warner in 1926. To provide such a building, Mrs. George Gerlinger headed an eminently successful drive for funds. As a result, the University of Oregon today possesses one of the very few major art centers to be found on a university campus.

Almost everywhere you turn you find similar evidence of the importance of private gifts to the University.

There's the Henry Failing Distinguished Lecture Series, for example. Made possible through funds from the estate of Mary Failing, this series brings to the University distinguished speakers who otherwise would not be available, or at best would be available in much fewer numbers. Students and faculty thus have an opportunity to meet and exchange thoughts with the great men and women of our time. Few schools in the west offer equal opportunities.

Even in the field of teaching, private funds can meet a critical need. The Oregon Legislature this year provided handsome increases in faculty salaries. These were increases sorely needed if the University was to remain competitive with other major universities on general faculty levels. Despite these increases, the University will continue to have difficulties in obtaining and keeping outstanding teachers. Private funds can be and have been immensely important in solving such problems.

The late W. E. Miner of Eugene recognized this fact years ago. To help meet the need he gave to the University the Miner building in Eugene. The building was sold, the proceeds of the sale comprising an endowment fund which makes possible two Miner Professorships in the School of Business Administration.

In terms of endowments, the University can't pretend to rank with the great independent schools, but it is not entirely penniless, either. Through the years persons of vision have provided endowed funds that have served to meet critical needs. But critical needs continue to arise.

Among the earliest endowments was the original University of Oregon Land Grant

which provided \$109,831.39. And, of course, there was the gift of \$50,000 from Henry Villard, mentioned in the first of these articles. Income from these funds continue to provide for basic wants. Added to these have been other endowments ranging in value from \$625,000 down to \$1. You don't get much income from a \$1 endowment, but the spirit of giving which motivated the gift is of great importance.

Total endowed funds today amount to \$1,304,828.84, with almost half that amount being in the Miner endowment—and another \$243,000 in scholarship funds.

The figure, \$1,304,828.84, does not represent annual income to the University, but rather the principal from which income is derived. The annual amounts available to the University from this total will be approximately \$53,000.

Funds from sources other than the state provide for the needs of the University to a rather considerable extent. During the 1955-56 school year, almost \$700,000 was received in gifts, most of it from the federal government and from foundations, and earmarked for research. The U.S. government provided \$270,000 of which \$133,940 came from the International Cooperation Administration to support the educational program being carried out in Nepal. Other grants provided funds for research in many areas.

Second largest source of this total came from foundations, such as the W. K. Kellogg Foundation, which provided \$51,940 for a cooperative program in education administration. The total of foundation grants was \$259,178.

Gifts from individuals in 1955-56 totaled \$92,176.77. Corporations gave \$10,453.48, and groups and organizations contributed \$21,444.56. Most of this money provided scholarships for needy students.

All this would indicate that the University is adequately cared for from the standpoint of private funds. But while the private contributions have been substantial, the needs of the University have grown by leaps and bounds. Today, more than ever, the school is in need of its friends.

Nor is this situation peculiar to the University of Oregon. Leading schools throughout the nation have arrived at similar conclusions—and have decided to do something about it.

The University of Michigan, Ohio State University, the University of Illinois and tax-supported institutions in every state have turned to private sources for help. The results have been impressive. Michigan, where through the years private sources have provided more than half of the school's physical resources, has moved into a new program seeking private support.

Ohio State has a highly successful annual program which develops funds for research projects, student aid and other purposes including building funds, publications and acquisitions. Others have done the same.

To serve a similar purpose here, the University of Oregon Development Fund has been reactivated. Basically, it is a rebirth of the original Alumni Holding Company which was first begun under President Prince Campbell back in the 1920's.

Efforts to reactivate the corporation first came in 1950 under President Harry K. Newburn. At that time the name Alumni Holding Company was changed to the University of Oregon Development Fund. A new membership was formed and trustees elected.

Further efforts in this direction came last fall when members of the board of trustees authorized a comprehensive program aimed at channeling gifts to the University. More important, the board approved a program to bring the University closer to its alumni and friends.

O. Meredith Wilson is president of the Development Fund. Other officers are William N. Russell, Eugene, vice-president; Bass Dyer, secretary; Orville Lindstrom, treasurer; and Willard L. Thompson, executive director.

Other members of the corporation are Raymond E. Vester, Robert T. Mautz, Leland S. Anderson, Robert H. Atkinson and William A. Haseltine, all of Portland; Stanley R. Darling, C. R. Manerud, Lynn S. McCready, William N. Russell and Dr. Donald B. Slocum, all of Eugene; Owen M. Callaway, New Rochelle, New York; Douglas T. Farrell, Sr., Beverly Hills, California; Henry N. Fowler, Bend, Oregon; Otto J. Frohnmayer, Medford, Oregon; Palmer E. Hoyt, Denver, Colorado; George C. Huggins, Sr., Coos Bay, Oregon; Robert Lovell, Astoria, Oregon; Everett H. Pixley, Pittsburgh, Pennsylvania; Arthur S. Rudd, Chicago; and Ralph Cronise, Albany, Oregon.

There are many ways in which individuals and groups can give to the University. And there are countless uses to which such gifts can be put—for scholarships and fellowships, for equipment and research, for additions to library and museums, for faculty travel, for the Millrace restoration, for expansion on every hand.

Most important of all to any school, however, is the unrestricted gift—funds to be used at the discretion of the president. Almost without end there arise situations in which to have funds immediately available would permit the president to advance the cause of the University immeasurably. One such occasion came last fall when suddenly a valuable private library became available to the school—at a price. By chance, funds were available at that time. We are not always so fortunate.

In this era of increasing enrollments, expanding facilities and rising costs, the University of Oregon needs its friends more than ever. In the past, its friends have always come through at the times of greatest need. And based on past performances, a University and its friends are a winning combination.

OLD OREGON ROUNDUP

PAUL PATTERSON FUND

A drive to raise \$50,000 for the Paul L. Patterson Memorial Fund got under way in Oregon in mid-May. The endowed fund will honor the late governor who was graduated from the University in 1923 and the University Law School in 1926.

Income from the fund will be awarded annually to an outstanding student in law. The selection of the student will be on the basis of integrity, leadership and dedication to public service.

Campaign director for the drive is William P. Hutchison '40 of Portland. John C. Higgins '97, also of Portland, will be chairman of the fund.

Area chairmen who are working on this campaign include Wendell Wyat, Astoria; G. C. Knodel, Albany; Austin Dunn, Baker; Phil Brogan, Bend; Ernest Fatland, Condon; Art Steele, Clatskanie; Joe McKeown, Coos Bay; George Ulett, Coquille; Walter Durgan, Corvallis; H. C. Eakin, Cottage Grove; Niel Allen, Grants Pass; W. Verne McKinney, Hillsboro; Garnett Barratt, Heppner; Jack Steiwer, Fossil; John P. Hounsell, Hood River.

David Baum, La Grande; Chick Chaloupka, Lakeview; Gene Marsh, McMinnville; Otto Frohnmayer, Medford; William Ireland, Molalla; Larry Hull, Newport; Jared Lewis, Nyssa; James Goodwin, Oregon City; George Corey, Pendleton; Orval Yokum, John Day; William Tugman, Reedsport; Paul Geddes, Roseburg; a committee of Ed Armstrong, Ralph Purvine, William Phillips and William Hammond, Salem; John L. Foote, St. Helens; Stewart Weiss, Sweet Home and Lebanon.

Charles Phipps, The Dalles; Warren McMinimee, Tillamook; Judge A. T. Goodwin, Eugene; Mary Brown, Redmond; Jack Lively, Springfield; Arthur Wood, Dallas; Phil Bergh, New York; E. P. Hoyt, Denver; Dr. H. J. Capell, Yakima; and John Bustrud, San Francisco, Cal.

DISCRIMINATION ISSUE

A few wisps of smoke appeared to curl upward from the edges of the campus in recent months over an issue of racial discrimination at campus living organizations. When the whole thing had died down it left few ashes, and it might well be chalked up as much smoke and little fire.

The House Taxation Committee touched it off last March when students appeared before it to lobby in favor of the living organization tax exemption bill. Just how many fraternities and sororities, the committee demanded, are open to non-white students? After all, they said, it would not be right to pass a measure that aided or-

ganizations which practiced racial discrimination.

Said a committee member later: "We're just trying to show you college boys that civil rights mean more than just mouthing platitudes; but we're not going to let the race issue be a 'major' point in our decision one way or another—at least we shouldn't."

News reports of the committee's race discussions were widely publicized.

This precipitated a rash of letters to the *Oregon Daily Emerald* over the next few weeks. Many letters came from political science graduate students. Commented a foreign student, Yasumasa Kuroda, "I came here to observe your behavior as well as to study my academic subject matter. Whatever I observe here may have an influence upon the future international relations..."

The student senate appointed a committee to investigate and eventually the committee returned a report: Eleven out of 18 fraternities do not have race clauses in their constitutions; no information came from sororities because of a national Pan-Hellenic regulation prohibiting release of information.

The issue eventually found its way into campus student body elections, pitting Don Kalberer (Oregon Students Party) against Jim Lynch (Greek) for student body President.

If elected, said Kalberer, he'd ask the administration just how much support is given to groups that have racial clauses; the clauses should be removed.

Said Lynch: "I think the senate must adopt a positive approach to the discrimination problem. It should aid national fraternities in removing discrimination. This approach should be slow and deliberate, to remove discrimination in fact, not just from constitutions."

There were other developments. The Interfraternity Council announced itself as opposed to white clauses in fraternity constitutions. Donald DuShane, dean of students commented, "recognition of student groups does not imply approval or disapproval of... their charters or policies."

By the time the smoke had cleared, Jim Lynch had won the student elections. The Oregon Legislature had passed the living organization tax exemption bill. And the racial discrimination issue didn't die, exactly; it merely faded away.

LIBRARY MAGAZINE

The Call Number, semi-annual publication of the University of Oregon Library, has changed to a printed format. The publication had previously been put out in mimeographed form.

The Call Number contains many articles and informative notes about the facilities of the library, book collections, and historical research. Authors include members of the library staff along with University professors and students.

Alumni wishing to be placed on the mailing list (free of charge) for *The Call Number* may do so by writing the library.

HUNGARIAN QUARTET

The Hungarian String Quartet, which was warmly received during its visit to the campus last summer—will again be in residence for three weeks during the 1957 summer session, the School of Music has announced.

The quartet will present four formal concerts and four informal lecture-recitals, and will do a limited amount of private teaching and coaching. The formal concerts, which will be at 8 p.m. in the Music School Auditorium, will be on July 9, 16, 19 and 22. The concerts will be free of charge and the public is invited.

ALUMNI 'ROUND THE WORLD

Twenty-three University graduates are officers in the U. S. Foreign Service of the State Department, according to a survey released by the college relations staff of the State Department. The report includes all men serving as of May 1, 1956. The officers are: Harlan P. Bramble '37, detailed, Industrial College of the Armed Forces; James L. Carson '51, vice consul, Frankfurt, Germany; John I. Church '49, specialist officer, Hong Kong; Wilfred V. Duke '38, attache, Rome; William A. Fowler '27, counselor, Stockholm; Christian M. Freer '40, attache, Brussels; Stuart W. Gates '51, assistant attache, Tangier; John W. Halderman '31, consul, Casablanca; William O. Hall, Jr. '36, U. S. Mission to the United Nations; Joseph E. Jette '39, assigned, Hong Kong; Carl Neuhausen Jones '37,

Philip Bergh '27 has been appointed advertising and sales promotion manager in textile division, U.S. Rubber Company.

How about it?

Anybody in favor of

Engineering at Oregon?

TO THE EDITOR:

For at least ten years we have been hearing cries from all sides to the effect that America must wake up. We are falling behind in the training of scientists and engineers. Industry needs more highly trained specialists and schools need more teachers of technical subjects. From all the fuss being made about it, it must be true.

If it is true, why doesn't the University of Oregon help do something about it? What I mean is, why don't we get a school of engineering at Oregon? Naturally your first answer is that according to the setup of the State System of Higher Education in this state, OSC is the only school that can have engineering. That may be true but, they aren't supposed to have Business Administration or PE either but they have; at least they keep telling everyone that they have them. If they do, then I see no reason why we can't get engineering at Oregon.

Even if there are rules against it, it seems to me that the primary responsibility of the State System of Higher Education is to see that the youth of this state are properly trained to best prepare themselves for employment and in a sense to serve their fellow man. If we need more engineers then the state should make the training available. How about it?

I, for one, would like to know if we are trying to establish an engineering school at Oregon.

Sincerely,
DR. JIM NOEL '49

Sounds like a swell idea, Dr. Noel. Anyone else want to be heard on the subject?
—EDITOR.

treaty adviser and analyst; Stanley R. Kidder '33, Officer of the Executive Director; Mrs. Helen Angell Kitchen '42, intelligence research officer; Jeffrey C. Kitchen '43, deputy director, Office of Greek, Turkish, and Iranian Affairs; Joseph B. Kyle '49, intelligence research analyst; Roy P. Litte '52, vice consul, Chiangmai, Thailand; Mrs. Andree Pellion Maddox '24, intelligence research officer; Blanche A. McClellan '40, attache, Madrid; Denzil L. Page '33, consul, Hong Kong; Carlton R. Savage '21, assistant secretary policy planning; Robert R. Schott '43, detailed, University of Michigan for Persian language and area training; Thomas T. Turner '39, second secretary and consul, Prague; David G. Wilson, Jr. '39, psychological intelligence and research staff.

NEWS OF THE FACULTY

Gordon Wright, head of the University's History Department, has co-authored *A History of World Civilization*, recently published by Henry Holt Company of New York.

Sylvan Karchmer, assistant professor in creative writing currently on leave at Columbia University, is author of a three-act play entitled, *Vain Empire*. It was given for the first time in April by the department of theater arts at Stephens College, Columbia, Missouri. More than 350 short stories writ-

ten by Mr. Karchmer have appeared in literary magazines. He has also written a number of plays for television.

D. M. Dougherty, head of the University's Foreign Language Department, has been elected Northwest regional president of the American Association of Teachers of French.

Dr. S. Y. Ch'en, professor of physics, has been invited to France to read two papers to an international scientific conference July 1 to 6. The conference is sponsored by the National Center of Scientific Research, a branch of the French Ministry of Education. Dr. Ch'en's papers are titled: "Pressure Induced Satellites in Atomic Spectra" and "Fine Structure Pressure Effects of Atomic Lines."

Dr. Paul R. Washke, who has devoted a 39-year career to physical education, 27 of them at the University, has received the Northwest District Honor Award, presented by the American Association for Health, Physical Education and Recreation. Dr. Washke is professor of physical education and director of intramural sports at the University.

Television Training: Liberal Arts vs. Professional School, an article by E. A. Kretsinger, assistant professor of speech, appeared in the April issue of the Quarterly Journal of Speech.

Chandler B. Beall, professor of Romance Languages, has been named chairman of

the executive council of the Northwest Conference of Foreign Language Teachers. The conference will meet on the University's campus in 1958.

William C. Jones, dean of administration at the University, has been elected president of the Pacific Northwest Area Council of YMCA. His term is for one year.

Hoyt Trowbridge, a member of the English department faculty in the University of Oregon for the past 16 years, has resigned to accept a position as head of the English department in the University of New Mexico, Albuquerque, N. M.

MORE FOUND ALUMNI

With regard to OLD OREGON's Lost Alumni list, the following information has been sent in: Dr. and Mrs. Thomas D. Cutsforth '18 (Margery Gilbert '22) are now living at 2067 Wilshire Blvd., Los Angeles, California; Mr. and Mrs. Robert L. Van Nice '34 (Elizabeth Lowell Rebec '32) live at 5506 Charles St., Bethesda 14, Maryland; and Mr. and Mrs. Karl G. Rutt (Virginia June Alley '47) send as their address, General Delivery, Crescent City, California.

CHANDLER'S RETIREMENT

Ben Chandler '13, who recently retired as chairman of the Oregon State Highway Commission, received a fine tribute in the editorial column of the *Oregon Journal* on April 7. The editorial is reprinted herewith:

The state loses the services of an exceptionally valuable public servant through retirement of Ben Chandler from the State Highway Commission.

Chandler accepted membership on the commission in 1946 at a time when Oregon's highways were in a rather sad state because of war enforced neglect.

It was a time for forceful action and Chandler and fellow commission members succeeded not only in getting the system back in shape but in making needed extensions without undue burden on the highway users.

For 7 of the 10½ years he served, Chandler was chairman of the commission, and from the outset proved he has what it takes to keep everyone comparatively happy and still not deviate from a program designed for the best interests of the state as a whole.

It is natural for groups from particular sections to believe that highways through their areas should take precedence over all others. Such groups are always persistent and frequently belligerent.

Chandler had a genuine concern for people and their problems and highways to him were more than strips of asphalt or concrete leading from one point to another. He could be genial, courteous and firm at the same time. The fact that no section has benefited or suffered unduly is testimony to these qualities.

Chandler went to the commission as successor of the late Merle Chessman ('09) of

Astoria, and it is fitting that he should be succeeded by Robert Chessman ('43), who became publisher of the *Astorian-Budget* following the death of his father.

The accomplishments of his father; and Chandler indicate Chessman is stepping into a good-sized pair of shoes. His record indicates he will meet the challenge.

SELECTIVE ADMISSIONS

Students entering the University of Oregon in the fall of 1958 will have to demonstrate an ability to handle college work or not be admitted.

A program of selective admissions, to be effective in the fall of 1958, has been approved for all of Oregon's institutions of higher education.

Under the new plan, a student who seeks admission as a freshman must have an average of at least C in all of his high school work. Failing in that, he may qualify if he passes the standard college aptitude test. If he fails this test, he may gain admission by achieving a C average on a full work load in a regular collegiate summer session.

University President O. Meredith Wilson pointed out that the move was not based so much on the need to save money as on the need to improve the educational opportunities of the students.

"We don't graduate a student from the University unless he has a C average," the president pointed out. "It only seems proper that we expect the same of him when he graduates from high school."

"Persons who go to college," he continued, "should go there with proper motivation. I am certain that the difference between an ordinary University and an outstanding University lies as much in the eagerness of the students for an education as in the learned degrees of its professors."

Admitting that there are "late bloomers" both intellectually and motivationally, the president said that the University would find ways to protect them.

If the program of selective admissions had been in effect during the school year just ended, less than 2 per cent of the students would have failed to qualify for entrance. Of this group, a large proportion will have been dropped from school for scholastic deficiencies before the year is out.

GRANT PRINCIPAL RETIRES

"The 'Generals' general' is retiring," writes Jim Irvine, a reporter for the *Oregon Journal*. And he's writing, of course, about Colton Meek '14, principal of Grant High School for the past 14 years. Meek is retiring this month under the Portland school system's compulsory retirement age of 65.

Continues the writer: "Meek will leave behind nearly 41 years with the Portland schools and 42½ years as a teacher, coach and administrator.

"I don't know what I'm going to do with myself," he confided.

"That was an understatement. He added that he plans to build a house.

"While Meek has helped lead Grant to a place among the top schools in the nation, he once guided some of the city's finest athletic teams. Coming from one and a half years at Milwaukie to Portland as a science teacher, he was persuaded in 1920 to take over coaching of Franklin High School's basketball team. From there, he worked into football and baseball. One year he coached football, basketball, baseball and track.

"His coaching record in the 1920s and early '30s showed a tie for the city football championship in 1922. His basketball team tied for the city championship in 1921 and won in 1922, 1924, 1925 and 1927. His 1922 team won the state championship and in 1925 they were runners-up. The 1925 team placed third in a consolation flight of the national tournament at Chicago.

"His track team won the first relay carnival held by the high school league and twice were city champions and runners-up in the state meet.

"Meek began his administrative duties in 1927 when he was named vice principal at Franklin. He continued to coach also until he was named principal at Roosevelt in 1938. He moved to the head job at Grant in February, 1943."

SURVEY OF COLLEGE GRADS

An interesting report comes to Old Oregon from General Electric Company which reveals the findings in a survey of 13,500 college graduates who are employed by the company. The company queried these employees to find out how they felt their academic and extra-curricular campus activities contributed to their present positions.

In a brochure, General Electric reports its findings as follows:

"Four subject areas in the college curriculum were considered to be extremely valuable, regardless of the academic background or type of employment of the respondent, in contributing to career success. English communication—both written and oral—was reported high on the list. Non-engineering respondents placed this subject area first, while engineers rated it second only to mathematics, which is also a communication tool. Other subject areas reported as important for career success by both groups of respondents included physics, economics, and mathematics.

"The least valuable subject areas, judged from a career standpoint alone, were felt to be history, foreign language, miscellaneous sciences (biology, botany, geology, etc.) and certain social sciences (principally government and economics). Some indication was offered that techniques of teaching certain courses left much to be desired, particularly in the social science area, where, it was felt, attention was often directed to theory at the expense of practical applications.

"It is interesting to note as well that

engineers often reported certain engineering courses as "least valuable," particularly if such courses were not in line with interests and occupations. It should be borne in mind that these subject areas were reported as least valuable from the career standpoint only, there being no indication of their overall value to the educated man.

"This last qualification is brought home even more dramatically by the fact that some of these same courses ranked among the most important from the standpoint of value in leisure time. Both engineers and non-engineers reported English literature as the most valuable course from the leisure-time point of view.

"When asked to name the program of studies most recommended for success in a business career, respondents gave almost equal emphasis to the four major study areas (science, social science, humanities, and business). Except for differences in ranking as to importance, survey respondents indicated that a good collegiate program for business management training should include basic work in English, science and engineering, mathematics, economics, and general business. Liberal-arts graduates also stressed the fundamental value of work in psychology and the humanities. All of this can be interpreted as a strong vote of confidence for a broad liberal education.

"Engineers indicated that they participated quite heavily in extracurricular activities, even more so than the liberal-arts graduates. The figures were 93.05 and 88.01 per cent respectively. Athletics, social groups, and professional associations were the most important types of outside activity enjoyed.

"Approximately 90 per cent of the respondents earned some portion of their collegiate expenses; over two-thirds of these earned at least half. Just over a quarter signified that they received scholarship aid. With this personal background, the respondents were overwhelmingly in favor of students with financial problems earning their own way. Approximately one-fifth of the liberal-arts graduates and one-third of the engineers suggested that such students might borrow the needed funds, but well over half of these replies suggested that borrowing be combined with earning—with the borrowing kept to the barest minimum and the students earning as much as possible. Less than one-half of one per cent suggested that the student should drop out of college, and most of these said it should be the last desperate resort, and only for a period long enough to earn sufficient funds to return to college.

"In general, the respondents seemed to value the broad liberal-arts background for personal and career development, with specialization, if essential, occurring at the graduate level. Any program of real benefit for industrial responsibility must include developing a high measure of communicative skill and human understanding."

'12 Hugh P. Currin was honored at a banquet on February 19 in Eugene. February 14 marked the completion of 34 years of service for Mr. Currin with the Eugene Water and Electric Board. He is a Fellow of the American Institute of Electrical Engineers, and was the first man to win the "McGuire Award" presented by the Northwest Power Association for engineering achievement.

Mr. and Mrs. Cicero F. Hogan (Beatrice May Locke '16) now live at 9219 Mintwood St., Silver Spring, Maryland. Mrs. Hogan is the present chairman of the national panhellenic conference.

F. Ford Northrop has been elected vice president of the Eugene Rotary Club. The club has a membership of 189 Eugene businessmen.

'13 Karl W. Onthank, dean of personnel administration at the University, has been named by Gov. Robert D. Holmes to the recreation subcommittee of the Columbia Basin Interagency Committee.

'15 Joseph W. Kehoe has retired from his law practice and is now a professional painter. He lives at 325 N. W. 18th Ave., Portland 9.

'16 An item from a shipping publication discloses that Hermes Harry Wrightson has been appointed manager of the newly opened Portland office of Williams, Dimond, and Company.

'18 George A. Kingsley, Portland lumber company owner, has been elected president of the Portland Beavers Baseball Club.

'23 C. Fenton Ford is field representative for the Social Security Administration for Douglas County, Oregon.

Palmer Hoyt, publisher of the *Denver Post*, will continue to serve as a director of Brand Names Foundation, Incorporated, according to a news release from the foundation. Mr. Hoyt, former publisher of the *Oregonian*, joined the *Denver Post* as editor and publisher in 1946.

We Want Photos

We're running more photographs than ever in Old Oregon now, but we'd like still more. We're anxious to keep everyone posted on the whereabouts and activities of everyone else, both photographically and in the news notes.

So if you have a shot of yourself and your family around the home, on the job or on your vacation, we'd like to see it. If, during the summer months, you catch a big fish, score a hole-in-one or bake a fancy apple pie, we would like to see a photo as proof. (If it's an apple pie, send it along and we'll photograph it here. The editor is hungry for both photos and apple pie.)

'25 J. Basil Burke has been promoted to manager of the sales district of Ford Motor Company's Mercury Division in Chicago. He was formerly manager of the Washington, D. C. sales district.

Horace Easterday is now living in San Diego, California at 3846 Eagle St.

Dr. Kenneth H. Hunter has been made chief of the Mining, Metals and Machinery Section of the Bureau of Economics of the Federal Trade Commission.

'28 Ray Nash, professor of graphic arts at Dartmouth College and international authority on typography and printing history, was one of five men to receive an honorary degree at recent ceremonies at New England College.

'30 First Western Bank and Trust Company has appointed William M. McNabb executive vice president and manager of its San Francisco main office.

Avery W. Thompson, Roseburg lawyer, has been appointed by Governor Robert Holmes to be Douglas County district attorney.

'33 Harold G. Bacon is living at 6626 N. E. 25th St., Portland. He is a district manager of the South Portland Safeway Stores, Inc. Mr. Bacon is thus removed from OLD OREGON's "Lost Alumni" files.

William L. Bader is president of the National Mortgage Company in Portland.

'38 Mr. and Mrs. F. Lyle Baker (Nann Tower Brownlie '39) are now living at No. 3 Minnesota Ave., White Fish, Montana.

R. Freed Bales will attain full professorship in Harvard University on July 1, according to the Harvard University News Office. Bales, a major in General Social Science while at Oregon, has invented a new way of studying small groups and has built up knowledge of how they operate, and has applied this knowledge to general social theory. With his invention, the Interaction Recorder, he can accurately follow the inter-play within a group of people while it happens. His earlier research included work on the Alcohol Studies at Yale University. He received his Ph.D. from Harvard in 1945 and since then has been on the Harvard faculty. He has lectured at the Salzburg, Austria, seminar on American Studies, and is a consultant to The Rand Corporation.

'39 William W. Chambreau, Jr. has been transferred from the Fresno, California office of Merrill Lynch, Pierce, Fenner and Beane, stock brokers, to the Austin, Texas branch where he is office manager.

Eric L. Waldorf, ex-Jefferson High School coach (in Portland), has accepted the position

of head football mentor at Forest Grove High School. He is also operator of the Pacific Cleaners in Forest Grove.

'40 Lt. Col. Arthur M. Murphy has been assigned to the U. S. Continental Army Command at Fort Monroe, Virginia.

Mr. and Mrs. George Pasero welcomed their fourth child, James Allen, on March 4 in Portland. His brothers and sister are: Mark, John, and Anne.

'41 Mr. and Mrs. Floyd D. Hamilton welcomed the arrival of a second daughter, Holly Jean on April 1 in Portland. They live at 7020 S. W. 82nd, Portland.

A third child for Mr. and Mrs. George T. Mackin is a daughter, Kathleen Ann, born on April 12 in Portland. Their address is Box 554, Oswego, Oregon.

'42 Mr. and Mrs. William J. Carney (Virginia M. Lees '43) are parents of a daughter, Molly Lees, born on February 19 in Portland. They live at 7520 S. E. 27th Ave., Portland.

Twin daughters, Janice Lynn and Julie Ann, were born to Mr. and Mrs. Robert H. Hollister on February 18 in Portland. They live at 1905 N. E. 46th Ave., Portland.

Mr. and Mrs. Jay B. Stott are the parents of a daughter, Corinne Elizabeth born on November 7 in California. The Stotts live at 717 Bidwell Dr., Chico, California. Mr. Scott is president of his own outdoor advertising concern.

'43 Mrs. Nancy Latourette Bagnall, another "lost" alumnus, is now living at P. O. Box 83, Tiburon, California.

Robert B. Chessman, publisher of the *Astorian Budget*, has been appointed to the State Highway Commission by Governor Robert D. Holmes.

Arthur J. Pulos, professor in charge of the Industrial Design Program at Syracuse University, has been invited as a consultant to the Boeing Aircraft Company in its development of an Industrial Design Department.

A fourth child for Mr. and Mrs. Lee Squier (Janet Amelia Wagstaff) is a daughter, Cornelia Elizabeth who arrived on March 28 in Portland. They live at 5215 S. E. Thiessen Road, Portland 22.

'44 Robert W. Newland has been appointed vice principal and dean of boys at the new North Eugene High School. Newland was a former University basketball player and high jumper.

Victor S. Collin's address is 2703 Glen Eagles Road, Oswego, Oregon.

'45 Russell S. Gribskov has established the R. S. Gribskov Commercial and Industrial Real Estate firm in Eugene.

'46 A first child, Jayne, was born on February 10 to Mr. and Mrs. Walter E. Gelinsky, Jr. They live at 6705 S. W. 120th Ave., Beaverton, Oregon.

New basketball coach at Madison High School in Portland is Donn Gassaway.

A. Freeman Holmer, chief of the organization and methods section of the state finance and administration department in Salem, has been appointed supervisor of elections by Secretary of State Mark Hatfield. He has been with the state finance and administration department for five years while also serving as a member of the political science staff at Willamette University.

Robert E. Santee, ex-University of Oregon, Southern California, Portland City League, Jefferson High and professional baseball player, has been promoted to the rank of major in the U. S. Marine Corps. He is commanding officer of a mortar company in Quantico, Virginia.

'47 Thomas H. Corbett is sales manager for Cannon and Company in Sacramento, California. His address there is 2931 Watt Ave., Apt. 24, Sacramento 21.

Robert P. Aiken represents Connecticut Mutual Life Insurance Company in Salem.

Edward C. Harms, Jr., attorney and mayor of Springfield, has been chosen Oregon's outstanding junior citizen for 1956 and is recipient of the Junior Chamber of Commerce distinguished service award. Mayor Harms is a director and vice president of the League of Oregon Cities, a member of the Lions Club, member and trustee of the First Baptist Church of Springfield, organization chairman for the polio drive, sustaining member of the Boy Scouts of America, and member of the founder's service organization of the McKenzie Willamette Hospital. He has also been nominated by the University for the national Jaycee "Ten Outstanding Young Men in the Nation" contest.

Lyle A. Pettyjohn head football coach at The Dalles High School, has submitted his resignation as coach and athletic director. During his five years as coach Pettyjohn has compiled a record of 32 wins, 12 defeats and two ties. He has been athletic director for the last three and a half years.

Second son for Mr. and Mrs. Wayne A. Strohecker (Mary Katherine Fairchild) is James Wayne who was born on March 5 in Portland. They live at 3532 S. W. Beaverton Ave., Portland.

You know those rare days when everything checks? Air smells good. Food tastes terrific. Even the old face looks good in the mirror. Today can be that kind of day. Just do two things. Call your doctor for a thorough medical checkup for cancer. Then write out a check—a nice fat one—to the American Cancer Society, and send it to "Cancer" in care of your local Post Office.

AMERICAN CANCER SOCIETY

'48 Dale Morgan Harlan has been appointed head of the legal department of Allstate Insurance Company for the state of Oregon. He and his wife (Joyce Dolores Neidermeyer) and their three children, Janice four, David, one and a half, and James, six months, live at 4405 S. E. Howe Lane, Portland.

James O. Goodwin is with the Jack, Goodwin, and Santos Law Firm in Oregon City.

Mr. and Mrs. Richard M. Wilkins (Martha Jane Hull '49) are parents of a son, Duff Hull, born on April 2. Their address is Box 393, Tumwater, Washington.

'49 The March issue of *The Instructor* contains a contribution by Velma A. Felton, first grade teacher at John Gumm School, St. Helens, Oregon. Miss Felton has had other previous works published in *The Instructor*. Her latest is a play entitled "Cowboy Bob."

Mr. and Mrs. Mervin R. Hisel (Isabelle Lowry '50) send news of the arrival of twin sons, James Linley and John Mervin, on April 18 in Roseburg. Mr. Hisel is office manager for Pierce Freight Lines. They live at 3085 N. E. Porter St., Roseburg.

Mr. and Mrs. Woodhull T. Lemman, Jr. are parents of a son, Paul Monroe, born on March 7 in Corvallis.

Donald R. McNeil, associate director of the Wisconsin State Historical Society, is author of an article which appeared in the *New York Times* (March 3) entitled "Fluoridation, Pro and Con." Although not a dentist, Mr. McNeil chose fluoridation as the topic of a thesis for his Ph.D. from the University of Wisconsin. He also has a book, *The Fight for Fluoridation*, in the process of publication.

Hazel Marie Northrop is now Mrs. Jack W. McLean.

Mr. and Mrs. Glen E. Oakes (Marilyn Ruth Wright) are parents of their first child, Janice Elaine, born on March 20 in Portland. They live at 7007 N. E. 47th, Portland.

James C. Pratt has been appointed assistant commercial accountant at the Sacramento Plant of Campbell Soup Company.

Third child for Mr. and Mrs. Robert A. Sederstrom is a son, Robert Alan Jr., born March 6 in Portland. Their address is 4815 S. W. 38th Place, Portland.

'50 A son, Stewart Sherwin, was born to Mr. and Mrs. Owen W. Bentley, Jr. on March 9 in Portland. Their address is 4630 S. W. 60th Place, Portland 10.

Robert Don, Jr. has been appointed manager of the Eugene branch of Reo Motors, Inc.

K. Donald Fair, sports writer for the *Eugene Register-Guard*, has announced his resignation to become sports editor of the *Capital Journal* at Salem.

A second child and first daughter, Elizabeth Ann, was born on March 12 in Portland to Mr. and Mrs. James R. Meckley. Their address is 3707 S. E. Lambert St., Portland.

Mr. and Mrs. Robert H. Northrop (Kenna Shaw) welcomed the arrival of a son, Steven Carl, on July 23 in Eugene. Their address is 3065 University St., Eugene.

'51 Albert J. Brauer has been called to active duty in the Navy. After finishing his basic training, Brauer will be stationed in Hawaii.

Harold G. Brainerd's new address is 229 Lackland Road, San Antonio, Texas.

Lt. and Mrs. Charles G. Dimon are parents of a daughter, Diane Elizabeth, born on February 8 in Millington, Tennessee.

Mr. and Mrs. John M. Say (Naomi J. Fulton) welcomed the arrival of a son, Eric Fulton

February 10 in Portland. Their address is 2111 N. E. 8th Ave., Portland 12.

Melvin A. Krause, basketball coach of Franklin High School, winners of the 1956 state A-1 tournament, will take over the head mentorship of baseball and basketball at North Eugene High School for the 1957-58 season. In three years at Franklin he developed two teams that qualified for the state championship.

Corland P. Mobley has been appointed manager of the newly opened advertising agency of J. J. Weiner and Associates, Incorporated in Portland.

Barry Mountain's new address is 2936 N. E. 24th Ave., Portland.

Curtis A. Smith has been promoted to assistant operations manager of the Commission of Public Docks, in Portland.

Marian Stadelman Garber and John Clark Tennant were married on April 20 in Portland. They live in Salem.

Mr. and Mrs. Maxwell J. Vincent are parents of a daughter, born on April 8 in Yakima, Washington. Their address is 2006 Lombard Lane, Yakima.

'52 A daughter, Jennifer Lynn, was born on April 3 in Portland, to Mr. and Mrs. Theodore R. Antonsen.

Mr. and Mrs. Lawrence Stuart Black are parents for the second time upon the arrival of a daughter, Patricia Rose, on April 9 in Brooklyn, New York.

Jack S. Countryman has been transferred to the San Francisco office of the Hoffman and La Roche pharmaceutical firm, where he is a field representative. The Countrymans (Joann Bleth '53) live at 266 Alameda De La Loma, Novato, California.

Sylvia Nina Wingard ('55) and Donald R. Furtick were married on February 26 in Eugene. They are now at home at 2150 Elk Dr., Eugene. Mrs. Furtick will continue to teach at Howard School. Mr. Furtick is a builder and contractor.

A daughter, Molly Ann, was born on March 2 in San Francisco to Mr. and Mrs. John K. Gram.

Mr. and Mrs. Ronald Myers Hall and their daughter, Robin Gay, live at 15059 Longrin St., in San Lorenzo, California. Mr. Hall is accounting manager at Ralston Purina Company in Oakland.

Jeanne M. Hoffman, now Mrs. Ladd Griffith, is living at 2732 Benuvenue No. 6, Berkeley, California.

Susan White and Irwin E. Joslyn were married on March 23 in Vancouver, Washington.

A second child and first daughter, Julie Anne, was born on March 10 in Portland to Mr. and Mrs. Gerald H. Rosette (Virginia L. Kellogg). They live at 1021 S. W. Maplecrest Dr., Portland 1.

Mr. and Mrs. George R. Kittilson (Laurne E. Kelly) welcomed their fourth daughter, Noel, born on December 25, 1956. They live at 1821 Walters Road, Tacoma, Washington.

First child for Mr. and Mrs. Allan R. Mann, Jr. is a daughter, Susan Elizabeth, born on February 5 in Portland. They live at 2720 S. W. English St., Portland.

Second child for Mr. and Mrs. Arthur R. Moshofsky (Emily Jane Knecht '53) is a son, Dean Arthur, born on April 4. Their address is 9525 S. W. Ingelwood, Beaverton.

Donald W. Onthank is with a Government agency at Williamsburg, Virginia. His address is 102 York Dr., Williamsburg.

Kathleen Elizabeth Sealy and Gary Keith Sem were married on March 16 in Eugene.

It was contagious at Stanford (and we couldn't be happier!)

Seven years ago, a Stanford graduate joined New England Life at our branch office in Palo Alto, California. Six months later, another Stanford man arrived. Then, within three years, two other Stanford stalwarts were saying, "Move over, fellows."

We're all in favor of this kind of "contagion." Especially when New England Life ends up with a congenial quartet like this: (left to right, in photo) Jack Martinelli ('48), Earle Patten ('49), Joe Pickering (Bus. School '50), Dave Hoffman (Bus. School '51). These men have made fine progress together, too. All have qualified for membership in our Leaders Association — the company's top production club.

What made them decide on New England Life? Jack: "... looked into other life companies, but liked what New England Life had to sell." Earle: "... like the comprehensive and personalized training." Joe: "... impressed by the company's outstanding reputation in the business and financial community." Dave:

"... a quality company and I wanted to be in business for myself."

There's room in the New England Life picture for other ambitious college men who meet our requirements. You get income while you're learning. You can work almost anywhere in the U. S. A. Your future is full of sizable rewards.

You can get more information about this career opportunity by writing Vice President L. M. Huppeler, 501 Boylston Street, Boston 17, Mass.

A BETTER LIFE FOR YOU

NEW ENGLAND

Mutual **LIFE** *Insurance Company*
BOSTON, MASSACHUSETTS

THE COMPANY THAT FOUNDED MUTUAL LIFE INSURANCE IN AMERICA — 1835

A career with New England Life attracts men from many fields — banking, teaching, business administration as well as selling. Some of our most successful agents have technical backgrounds.

John R. Kelty, Gen. Agt., '47 Portland, Oregon
Dean H. Connaway '37 Portland, Oregon
Clarence D. Newman '52 Portland, Oregon

They live at 652 W. 10th Ave., Eugene.

The telephone men and women
pictured here have a total of
961 years of service.

They have been with us for fifty years

Telephone men and women have always been one of the greatest assets of the business. Many have been with us a long time and have found it a pleasant place to be.

As many as 291,100 have ten, twenty, thirty, forty or more years of service. Some, as shown above, have served the public and their companies for half a century.

Singly and together they can say ... "I have been part of a useful enterprise. My work has helped to make it grow."

It is the sum of all this experience—in research, manufacturing and operation—that helps you to have good service today and provides the solid foundation for still greater things to come.

291,100 telephone men and women have ten or more years of service

Up to 10 years service . . . 484,841
10 to 19 years service . . . 152,642
20 to 29 years service . . . 68,022
30 to 39 years service . . . 63,027
40 and more years service . . . 7,409

Working together to bring people together . . . BELL TELEPHONE SYSTEM

cago for American Airlines Stewardess Service.

Army Private **Robert A. Christensen** took part in a field training exercise held by the Tenth Infantry Division in Germany. Private Christensen is a radio operator in Third Battalion Headquarters Company of the division's 85th Regiment.

A second child and first daughter, Dawn Marie, was born to Mr. and Mrs. Nielaus H. Marineau (**Paula Dawn Curry**) on March 4 in Portland. Their address is 9145 N. Woolsey Court, Portland.

Carol E. David has left for Lima, Peru, to study at the University of San Marcos. Miss David is a recipient of a \$1250 Pan-American Fellowship awarded by the Oregon Federation of Women's Clubs. She is enrolled as a special student in liberal arts at San Marcos. She expects to return to the University to complete work for her master's degree in Spanish.

Meta Jean Frink is teaching at Stephens Junior High School in Long Beach, California.

Private William C. Hercher has com-

pleted the radio teletype operation course at the Army's Southeastern Signal School, Fort Gordon, Georgia. The 15-week course trained Hercher to operate radio transmitting and receiving sets in combination with teletypewriter equipment.

Patricia A. Lydiard is a stewardess for United Airlines and is stationed in New York City.

In a ceremony performed on April 14 in Eugene, **Lucille McDaniel** became the bride of Harold L. Fosback.

Army Private **Jack H. Murray** was graduated from the Engineer Specialist School at Fort Leonard Wood, Missouri. The school trains men in the use of hand and power tools employed in the construction of roads, bridges and airfields.

A son, **Matthew David**, was born on March 23 in Portland to Dr. and Mrs. **Richard A. Neve**. Their address is 4030 S. W. 58th Ave., Portland.

Private Norman C. Ostling has been assigned to one of the Army's top ceremonial units at Fort Myer, Virginia. Regiment members are

selected by merit and serve as the official honor guard for the nation's capital.

Johneva (Jackie) Pond lives in Long Beach, California where she is teaching at Hughes Junior High School.

The marriage of **Berkeley Ann Quisenberry** ('59) to **Robert Owen Porter** took place on February 28 in Eugene. The couple is living in Petersburg, Virginia where Mr. Porter is completing six months of officer training at Fort Lee. They will return to make their home in Eugene at the end of that training.

Second Lt. Lee W. Tucker was graduated recently from the field artillery officers basic course at the Artillery and Guided Missile Center, Fort Sill, Oklahoma.

'57 At home now in Strawberry, California, are Mr. and Mrs. **T. Craig Drugan** (Hilda Bellin) who were married last December in West Berlin, Germany.

Julianne Lewis and **Roger Dean Shiels** were married on March 17 in Hood River. They live in Eugene.

The marriage of **Jane Carvel Meador** ('58) and **Lambert Nyle Nagler** took place on March 23 in Prairie City. They live at W. 726 7th Ave., Spokane, Washington, where Mr. Nagler is part owner and manager of a shoe store.

Sharon L. Pedersen became the bride of **John Paul Gilbert** on April 20 in Portland. They are at home in Petaluma, California.

Naval Aviation Cadet **John T. Radich** qualified recently as a carrier pilot in Pensacola, Florida. To qualify he completed six landings aboard the light aircraft carrier USS Saipan in the Gulf of Mexico.

'58 **Marilyn Fulbright** and **Eugene W. Gilman** were married in Portland where they are now at home. The bridegroom is with the Portland Chamber of Commerce.

Recently graduated from the Navy's Pre-Flight School in Pensacola, Florida, was Naval Aviation Cadet **Gerald E. McCabe**. He is now assigned to the Sauffy Field Naval Auxiliary Air Station, Pensacola, for primary flight training.

Army SPL/3 **Jack O'Neil** is in Bliss, Texas as a member of a missile battalion.

Class of '56 In the Navy

From the nature of the mail that crosses the editor's desk, it would seem that a fair percentage of the class of 1956 is in the Navy—the male population at least. The men pictured on this page are recent graduates of the Navy's Officers Candidate School. Proudly holding the rank of ensign in the Navy are: James S. Dielschneider, John O. Purkey, Robert F. Walberg, Arthur W. Weatherford, James R. Barnard, Gary F. Newton, Robert F. Noland, Jon R. Steeds, Michael A. Thomas, and Richard F. Church ('55). To earn their commission they had to successfully complete an 18-week intense course of study and military indoctrination, which covered such subjects as navigation, engineering, seamanship, military justice, and naval weapons.

Necrology

Mrs. Susie Barnes Helms '94 passed away on March 10 in Portland.

Mrs. Laura Beatie Carter '95, retired school teacher, died in her home in Oregon City on March 23. Survivors include nine nephews and five nieces.

Mrs. Ida Brooks Hawley '96 died on February 19 in Baker at the age of 87. She is survived by her son, **W. Brooks Hawley** ('26).

Lawrence A. Read, Sr. '99 passed away at his home in Gladstone, Oregon on February 12, at the age of 81.

Moray L. Applegate '00 passed away recently in Los Angeles while enroute to southern Oregon from Mexico. He leaves one daughter, two sons, two sisters, and ten grandchildren.

Dr. E. Martin Adams '02 passed away on March 10 in Arlington, Washington.

News has been received of the death of **Hopkins Jenkins '02** on July 21, 1956. Mr. Jenkins was a resident of Portland and was chosen its "First Citizen" for 1934. He is survived by his wife, Mrs. Jennie R. Jenkins.

Louise Jones '04, retired school teacher, passed away on March 27 at her home in Portland. She was a member of the Central Presby-

terian Church, the American Association of University Women, and the Business and Professional Women's Club of Portland. Miss Jones was also president of the Retired Teachers Association of Portland. Survivors include a sister and a brother.

Word has been received of the death of **Harry Bloomer Straight '07** on July 9, 1956 in Pennsylvania. He was a resident of Sarasota, Florida.

Word has been received of the death of **Harold C. Merryman '09** on January 14, in Portland.

Eugene N. Good '17 passed away on April 13 at his home in Gladstone. Mr. Good had been employed at the Publishers' Paper Company in Oregon City for more than 20 years. Survivors include his widow, a daughter, and two sons.

News has been received of the death of **Dr. John C. Almack '18** on October 5, 1953. Dr. Almack was a resident of Stanford, California. He is survived by his widow, **Evelyn M. Foster '18**.

Dorothy Wilinson Faubion '18 passed away on February 7 in Los Angeles. Mrs. Faubion was a writer of children's poetry. She had written and published numerous verses in *The Saturday Evening Post* and other publications. Survivors include her husband, **Dr. L. Ray Faubion ('19)**, two daughters, and three grandchildren.

Dr. Carl E. Miller '18 died on July 23, 1956. He lived in Oceanside, California.

Graham B. Smith '19, Eugene architect for more than 30 years, died last March. Mr. Smith was particularly noted throughout the state for his work in the field of school design, and was architect of Eugene High School, The Register-

Guard Building, and a number of other school, commercial, and residential structures. He was a member of the Methodist Church, the American Institute of Architects, the Eugene Glee-men, and Sigma Chi Fraternity. Survivors include his widow, **Edna Myrtle Bushman Smith ('24)**, a son, **Graham Jr.**, and several nieces and nephews.

Douglas H. Mullarkey '20 co-publisher of the *Burns Times-Herald*, died on April 4 in Burns as the result of a hit-run accident. He was co-owner of the *Times-Herald* for 27 years. For a time he was secretary to the late Governor Earl Snell. While attending the University, Mr. Mullarkey was a member of Sigma Chi Fraternity. His widow, **Mabel**, and two daughters, survive him.

News has been received of the death of **Kenneth C. Sherman '23**. He was a resident of Junction City, Oregon.

News has been received of the death of **Rolfe W. Skulason '23**. He lived in Portland where he practiced law.

Ernest Stoddard '25 prominent Baker residential builder, passed away on March 26 in Baker. He is survived by his widow, **Zona Brown Baker**, and a son, **Jack**.

Mrs. Mary Emily Lamar Ross '28 was killed in a car accident on February 6. She was a resident of Tillamook.

Dr. Marshall M. Woodward '29, Albany's longest practicing physician, died at his home, February 21. He was president of the Albany General Hospital Board of Directors, an office which he held for eight years. Other activities included past president of the Albany Rotary Club, membership in the Elks Lodge, St. Johns Lodge No. 17, AF and AM, Bayley

Chapter No. Eight, Royal Arch Masons, Phi Delta Theta Fraternity, Nu Sigma Nu, national medical fraternity, and the First Presbyterian Church. Surviving are his widow, **G. Janet Chalmers Woodworth ('29)**, a daughter, **Florence**, a student at the University, and a sister, **Mrs. Vera Stevens**.

Dr. Eleroy L. Stromberg '34 was killed in an air crash on March 20, 1955. He lived in Cleveland, Ohio.

J. Corneil I. Bilyeu '37 passed away November 2, 1955. He lived in Tigard, Oregon.

State Representative Irvin L. Mann '40, minority leader of the house, died on February 17 in Pendleton after an illness of several weeks. He was 58. He was the owner of the Double-M Ranch of Stanfield and Adams, one of the biggest wheat, pea and Hereford ranches in Eastern Oregon.

Dr. Wilmot D. Foster, Jr. '44, Portland physician, passed away on March 10. He was a member of the Multnomah Club, and University Club, Portland Academy of Medicine, a fellow of the Oregon State Medical Society, and was a member of Kappa Sigma Fraternity at the University. He is survived by his widow, **Isabella Noble Foster**, his parents, **Dr. and Mrs. Wilmot C. Foster '16 (Francis M. DePue '17)**; four sons and a daughter; a sister and a brother.

La Rue Daniel '52 passed away on November 5, 1953. He was a resident of Ogden, Utah.

Word has been received of the death of **Hal A. Davis '52**. He was a resident of Phoenix, Arizona.

News has been received of the death of **Paul A. Norris '53** September, 1956. He was a resident of Yacolt, Washington.

SPECIAL REPORT

Mr. CHARLES E. SEIM NEW YORK LIFE AGENT
at SPOKANE, WASHINGTON

BORN: Oct. 13, 1928.

EDUCATION: Washington State College, A.B., June, 1952

MILITARY: U. S. Army Engineers—Sgt., Sept. '46—
March '48

PREVIOUS EMPLOYMENT: August '42 to June '44—
Clothing Salesman. Summers of '48, '49, '50, '51—
Part-time building construction work.

REMARKS: Each year since June, 1952, when he first joined New York Life's Spokane office, immediately following his graduation from college, Charles Seim has achieved membership in either the Company's Star Club or its Top Club—recognition of his outstanding sales performance. Last year he sold more than \$1,000,000 of life insurance protection. Important factors in compiling this remarkable record are Mr. Seim's personality, his industry and his intense interest in his clients' insurance problems. Only 29 years old now and consistently a sales leader, Charles Seim seems certain to go on to even greater success with New York Life in the years to come.

Note

Charles E. Seim, after five years as a New York Life representative, is already well established in a career that can offer security, substantial income, and the deep satisfaction of helping others. If you'd like to know more about such a career

for yourself with one of the world's leading life insurance companies, write:

They're Watching Johnny Grow

The University of Oregon's School of Physical Education has joined three other agencies in conducting an intensive study of the physical growth and other aspects of 560 Medford, Oregon school youngsters. The cooperating groups also include the Medford Public Schools, Southern Oregon College and the Athletic Institute of Chicago. They're particularly interested in contrasting the physical, intellectual and emotional traits of boys who make athletic teams and those who don't. They plan to follow the same group of boys, whose ages range from 7 to 15, clear through high school and college. Some results from this ambitious study will be forthcoming this year, but the rest will have to wait until completion of the full study some years hence. Then perhaps parents will have an answer to the question, "Is it safe for Johnny to play football?"

A Medford school youngster holds his breath as Graduate Student Jim Harrison measures for chest girth. This is part of special "growth study."

Left: As Medford boy flexes his biceps, a Southern Oregon College student applies tape measure. Right: Dr. H. Harrison Clarke (right), research professor at UO, compares notes with Theodore Schopf, basketball coach at SOC.

MAKE LIFE WORTH LIVING...

The Sun Life of Canada, one of the world's great life insurance companies, offers men of ambition and integrity an outstanding professional career in its expanding United States field force.
