## List of Contributors

---

- ✓ WILLIAM F. ALLEN, Ph.D.
- ✓ ROBERT LOUIS BENSON, M.A., M.D.
- ✓ I. C. BRILL, M.D.
- ✓ GEORGE E. BURGET, Ph.D.
- ✓ T. HOMER COFFEN, M.S., M.D.
- ✓ HOWARD D. HASKINS, M.D.
- × WILLIAM P. HOLBROOK, B.S.
- ✓ OLOF LARSELL, Ph.D.
- ✓ C. ULYSSES MOORE, M.S., M.D.
- × EDWIN E. OSGOOD, M.A.
- ✓ JOHN J. PUTNAM, Ph.D.
- ✓ HARRY J. SEARS, Ph.D.
- ✓ M. E. STEINBERG, M.S., M.D.

# CONTENTS

---

1. Origin and distribution of the tractus solitarius in the guinea pig. (Journal of Comparative Neurology, Vol. 35, No. 2, February, 1923) by William F. Allen.
2. Origin and destination of the secondary visceral fibers in the guinea pig. (Journal of Comparative Neurology, Vol. 35, No. 4, June, 1923) by William F. Allen.
3. A milk-borne epidemic of septic sore throat in Portland, Oregon. (Journal of the American Medical Association, June 2, 1923, Vol. 80, pp. 1608-1612) by R. L. Benson and H. J. Sears.
4. The effect of a normal meal upon the blood sugar level in health and in certain conditions of disease (Journal of Laboratory and Clinical Medicine, Vol. 8, No. 11, August, 1923) by I. C. Brill.
5. Studies on the physiology of gastro-enterostomy. 1. The regurgitation of intestinal contents in normal dogs and dogs with posterior gastro-enterostomy. (American Journal of Physiology, Vol. 60, No. 2, April, 1922) by G. E. Burget and M. E. Steinberg
6. Albuminuria: its clinical significance as shown by chemical study of the blood. (Archives of Internal Medicine, April, 1923, Vol. 31, pp. 499-517) by T. Homer Coffen.
7. The favorable prognosis of auricular fibrillation. (Journal of the American Medical Association, August 11, 1923, Vol. 81, pp. 440-446) by T. Homer Coffen.
8. Adaptation of Shaffer's titration method for blood sugar to clinical use. (Journal of Laboratory and Clinical Medicine, Vol. 8, No. 11, August, 1923) by Howard D. Haskins and William P. Holbrook.
9. A new permanent standard for Sahli's hemoglobinometer. (Journal of Biological Chemistry, Vol. 57, No. 1, August, 1923) by Howard D. Haskins.
10. Some aspects of the innervation of the lung. (Northwest Medicine, Vol. 22, No. 9, pp. 311-315, September, 1923) by O. Larsell.
11. The ganglia, plexuses, and nerve-terminations of the mammalian lung and pleura pulmonalis. (Journal of Comparative Neurology, Vol. 35, No. 1, December, 1922) by O. Larsell.
12. Experimental studies of the A vitamin. (Transactions of Section on Diseases of Children of the American Medical Association, 1922) by C. Ulysses Moore.
13. A new permanent standard for estimation of hemoglobin by the acid hematin method. (Journal of Biological Chemistry, Vol. 57, No. 1, August, 1923) by Edwin E. Osgood and Howard D. Haskins.
14. Pathogenic streptococci and milk pasteurization. (American Journal of Public Health, Vol. 13, No. 11, November, 1923) by H. J. Sears and R. L. Benson
15. Gas production by bacteria in symbiosis. (Journal of Infectious Diseases, Vol. 32, No. 4, April, 1923, pp. 270-279) by H. J. Sears and John J. Putnam.
