HISTORY:

UGB zoning ordinances—CHAPTERS 15B, and 15D (*Ord. 661,4-9-85*) referred to original text of the City zoning ordinance (*Ord. 601, 8-8-78*) rather than sections of the City Code. Chapters 3A and 5A (Residential Protection Overlay and Industrial Protection Overlay) were created in 2002 to allow overlaps in zoning of residential and industrial areas.

A rebuilt residential building shall have a square footage no greater than that of the structure it replaces, or more storeys, except upon the granting of a variance upon a showing of hardship.

A rebuilt industrial building shall have a square footage no greater than that of the structure it replaces, or more storeys, except upon the granting of a variance upon a showing of hardship.

8.5A.6 RECONSIDERATION

Use of property in violation hereof shall be a violation of this Chapter. Should the owner or occupant of a lot or building change the use to which the lot or building is put, thereby increasing off-street parking or loading requirements, it shall be unlawful and a violation of this Chapter to begin or maintain which altered use until the required increase in off-street parking or loading is provided.
- (B) Requirements for types of buildings and uses not specifically listed herein shall be determined by the Commission, based upon the requirements of comparable uses listed.

 - (2) Except for parking to serve residential uses, parking and loading areas adjacent to or within residential zones or adjacent to residential uses shall be designed to minimize the disturbance of residents by the erection between the uses of a sight obscuring fence of not less than five feet (5') nor more than six feet (6') in height except where vision clearance is required.

 - (8) Service drives shall have a minimum vision clearance area formed by the intersection of the driveway center line, the street right-of-way line, and a straight line joining said lines through points twenty feet (20') from the intersection .
 - (9) Lighting of the parking area shall be deflected from a residential zone.

If the adjustment involves a distance of more than twenty feet (20'), the procedure for a zone change shall be followed.

8.7.2 GENERAL PROVISIONS REGARDING ACCESSORY USES

Accessory uses shall comply with all requirements for the principal use except where specifically modified by this Title and shall comply with the following limitations:

If, at the time of passage of this Title, a lot, or the aggregate of contiguous lots or land parcels held in a single ownership has an area or dimension which does not meet the lot size requirements of the zone in which the property is located, the lot or aggregate holdings may be occupied by a use permitted in the zone subject to the other requirements of the zone and providing, if there is an area deficiency, residential use shall be limited to single-family residence.

If there is a dwelling on one abutting lot with a front yard of less than the required depth for the zone, the front yard for the lot need not exceed a depth one-half ($\frac{1}{2}$) way between the depth of the abutting lot and the required front yard depth.

- (B) To permit or afford better light, air and vision on more heavily traveled streets and on streets of substandard width; to protect arterial streets; and to have the location of structures compatible with the need for the eventual widening of streets, a yard shall be provided abutting the streets and portions of streets hereinafter named which shall be greater than the required yard dimension specified in the zone by the number of feet set forth in the right-hand column, measured at right angles to the center line of the street, and, unless otherwise specified, measured from the center line of the street as constructed and improved with a hard surface pavement, or where not paved, from the center line of general extension thereof of the street right of way.

8.9.4 RECESS OF THE HEARING BY THE COMMISSION	312
8.9.5 NOTIFICATION OF ACTION	312
8.9.6 STANDARDS GOVERNING CONDITIONAL USES	312

8.9.1 AUTHORIZATION TO GRANT OR DENY CONDITIONAL USES

Uses designated in this Title as conditional uses may be permitted, enlarged, or otherwise altered upon authorization by the Commission in accordance with the standards and procedures set forth in Sections 8.9.1 to 8.9.6 of this Chapter.

Conditional uses are those which may be appropriate, desirable, convenient or necessary in the districts in which they are allowed but which by reason of their height or bulk or the creation of traffic hazards or parking problems or other adverse conditions may be injurious to the public safety, welfare, comfort and convenience unless appropriate conditions are imposed.

In permitting a conditional use or modification of an existing conditional use, the City may impose, in addition to those standards and requirements expressly specified by this Title, the following additional conditions which the City considers necessary to protect the best interests of the surrounding property or the City as a whole. These conditions include increasing the required lot size or yard dimensions, limiting the height of buildings, controlling the location and number of vehicle access points, increasing the street width, increasing the number of off-street parking and loading spaces required, limiting the size, number and location of signs, requiring screening landscaping to protect adjacent property, controlling noise, smoke, odor, dust or gas and other conditions consistent with the intent of the particular zone in which a conditional use is allowed.

In the case of a use existing prior to the effective date of this Title and which is classified in this Title as a conditional use, any change in use or in lot area or any alteration of the structure shall conform to the requirements dealing with conditional uses. *(Ord. 601, 8-8-78)*

The City shall not require conditions which would have the effect, either of themselves or cumulatively, of discouraging or denying the needed housing through unreasonable cost or delay. Therefore, multiple-family housing shall be subject to the development standards in Chapters 2 and 3 of this Title or other applicable sections of this Title, but shall not be subject to any increase in required lot size or yard dimensions, limiting height of buildings, increasing street width, increasing the number of off-street parking and loading spaces, and screening landscaping required pursuant to this Title. *(Ord. 667, 9-10-85)*

8.9.2 APPLICATION FOR A CONDITIONAL USE

A property owner or his authorized agent may INITIATE a request for a conditional use or the modification of any existing conditional use by filing an application with the City Manager using forms prescribed for the purpose. The application shall be accompanied by a site plan, drawn to scale, showing the dimensions and arrangement of the proposed development and names and addresses of property owners within one hundred feet (100'). The Commission may require other drawings or information necessary to an understanding of the proposed use and its relationship to surrounding properties. The application shall be accompanied by a fee of fifty dollars (\$50.00) plus five dollars (\$5.00) for the cost of each registered letter required to be sent to affected landowners. This fee is subject to revision by resolution of the City Council from time to time. (*Ord. 783, 3-24-98; amended by Ord. 832, 3-11-2003*)

8.9.3 PUBLIC HEARING ON A CONDITIONAL USE

Before the Commission may act on a request for a conditional use, it shall hold a public hearing. The hearing shall be held within forty (40) days after the application for the conditional use is filed. The City Manager shall give notice of the hearing in the following manner:

- (A) Notice of the hearing shall be published in the official newspaper of the City not less than eight (8) days nor more than twenty (20) days prior to the date of the hearing.
- (B) Not less than twenty (20) days (*Ord. 712, 9-8-92*) prior to the date of the hearing, notices shall be sent by registered mail, or by personal service, to all property owners within the area enclosed by lines parallel to and one hundred feet (100') from the exterior boundaries of the property involved. The names and addresses of property owners shall be those shown in the records of the County Assessor. Failure of a person to receive the notice shall not invalidate the proceedings in connection with the application for a conditional use. (*Ord. 601, 8-8-78*)
- (C) Notices to property owners shall:
 - (1) Explain the nature of the application and the proposed use or uses which could be authorized;
 - (2) List the applicable criteria from the ordinance and the Comprehensive Plan that apply to the application at issue;
 - (3) Set forth the street address or other easily understood geographical reference to the subject property;
 - (4) State the date, time and location of the hearing;
 - (5) State the failure of an issue to be raised in a hearing, in person or by letter, or failure to provide sufficient specificity to afford the decision maker an opportunity to respond to the issue precludes appeal to the Land Use Board of Appeals based on that issue;
 - (6) Include the name of local government representative to contact and the telephone number where additional information may be obtained;
 - (7) State that a copy of the application, all documents and evidence relied upon by the applicant and applicable criteria are available for inspection at no cost and will be provided at reasonable cost;
 - (8) If any staff report is to be used at the hearing, state that a copy of the staff report will be available for inspection at no cost at least seven (7) days prior to the hearing and will be provided at reasonable cost; and
 - (9) Include a general explanation of the requirements for submission of testimony and the procedure for conduct of hearings. (*Ord. 704, 6-26-90; amended by Ord. 832, 3-11-2003*)

8.9.4 RECESS OF THE HEARING BY THE COMMISSION

The Commission may recess a hearing on a request for a conditional use in order to obtain additional information or to serve further notice on other property owners or persons who it decides may be interested in the request. Upon recessing for this purpose, the Commission shall announce the time and date when the hearing is resumed.

8.9.5 NOTIFICATION OF ACTION

8.10.5 CONDITIONS FOR GRANTING A VARIANCE	315

8.10.1 AUTHORIZATION TO GRANT OR DENY VARIANCES

The Commission may grant variances from the provisions of this Title where it can be shown that owing to unusual topographic conditions, unusual conditions as to the shape of the property or the location of the building on the property, or other conditions over which the applicant has had no control, the literal interpretation of this Title would cause an undue or unnecessary hardship, except that no variance shall be granted to allow the use of property for purposes not authorized within the zone in which the proposed use would be located. In granting the variance the Commission may attach conditions which it finds necessary to protect the best interest of the surrounding property or neighborhood or otherwise achieve the purpose of this Title. (*Ord. 601, 8-8-78*)

8.10.2 APPLICATION FOR A VARIANCE

A request for a variance may be initiated by a property owner or his authorized agent by filing an application with the City Manager. The application shall be accompanied by a fee of fifty dollars (\$50.00) plus five dollars (\$5.00) for the cost of each registered letter required to be sent to affected landowners. This fee is subject to revision by resolution of the City Council from time to time. (*Ord. 686, 6-9-87; amended by Ord. 783, 3-24-98; amended by Ord. 832, 3-11-2003*)

8.10.3 NOTICE OF A PUBLIC HEARING ON A VARIANCE

(A) Before authorization for a variance is granted it shall be considered by the Commission at a public hearing. The City Manager shall send notice of the hearing by registered mail, or by personal service, to property owners within one hundred feet (100') of the exterior boundaries of the property where the variance is requested and other adjacent property owners deemed to be affected by the request. Names for the purpose of the notification shall be obtained from the records of the County Assessor. Failure of a person to receive the notice shall not invalidate any proceedings in connection with the application for a variance. The Commission may recess a public hearing in order to obtain more information or to serve further notice to persons it decides

are affected by the proposed variance. The Commission shall announce the time and date the hearing is to be rendered.

(B) Notice shall:

- (1) Explain the nature of the application and the proposed use or uses which could be authorized;
- (2) List the applicable criteria from the ordinance and the Comprehensive Plan that apply to the application at issue;
- (3) Set forth the street address or other easily understood geographical reference to the subject property;
- (4) State the date, time and location of the hearing;
- (5) State the failure of an issue to be raised in a hearing, in person or by letter, or failure to provide sufficient specificity to afford the decision maker an opportunity to respond to the issue precludes appeal to the Land Use Board of Appeals based on that issue;
- (6) Include the name of local government representative to contact and the telephone number where additional information may be obtained;
- (7) State that a copy of the application, all documents and evidence relied upon by the applicant and applicable criteria are available for inspection at no cost and will be provided at reasonable cost;
- (8) If any staff report is to be used at the hearing, state that a copy of the staff report will be available for inspection at no cost at least seven (7) days prior to the hearing and will be provided at reasonable cost; and
- (9) Include a general explanation of the requirements for submission of testimony and the procedure for conduct of hearings. (*Ord. 704, 6-26-90; amended by Ord. 832, 3-11-2003*)

8.10.4 NOTICE TO APPLICANT

The City Manager shall notify the applicant for a variance of the action of the Commission within five (5) days after a decision has been rendered. (*Ord. 832, 3-11-2003*)

8.10.5 CONDITIONS FOR GRANTING A VARIANCE

No variance shall be granted unless it can be shown that all of the following conditions exist:

- (A) Exceptional or extraordinary conditions apply to the property that do not generally apply to other properties in the same zone or vicinity, which conditions are a result of lot size or shape, topography, or other circumstances over which the applicant has no control.
- (B) The variance is necessary for the preservation of a property right of the applicant substantially the same as is possessed by owners of other property in the same zone or vicinity.
- (C) The authorization of the variance shall not be materially detrimental to the purpose of this Title, be injurious to property in the zone or vicinity in which the property is located, or be otherwise detrimental to the objectives of any City development pattern or policy.
- (D) The variance requested is the minimum variance from the provisions and standards of this Title which will alleviate the hardship. (*Ord. 601, 8-8-78*)

8.13.5 CONDITIONAL USES WITHIN THE AIRPORT APPROACH SAFETY ZONE	321
8.13.6 DEVELOPMENT STANDARDS	322
8.13.7 LIMITATIONS	322

8.13.1 PURPOSE

In order to carry out the provisions of this overlay zone there are hereby created and established certain zones which include all of the land lying beneath the Airport Imaginary Surfaces as they apply to the Vale Airport. Such zones are shown on the map attached hereto and made a part of this chapter. Further, this overlay zone is intended to prevent the establishment of air space obstructions in airport approaches and surrounding areas through height restrictions and other land use controls as deemed essential to protect the health, safety and welfare of the people of the city of Vale.

8.13.2 COMPLIANCE

In addition to complying with the provisions of the primary zoning district uses and activities shall comply with the provisions of this overlay zone. In the event of any conflict between any provisions of this overlay zone and the primary zoning district, the more restrictive provision shall apply.

8.13.3 SPECIAL DEFINITIONS

AIRPORT APPROACH SAFETY ZONE: A surface longitudinally centered on the extended runway centerline and extending outward and upward from each end of the Primary Surface. The inner edge of the approach surface is the same width as the Primary Surface and extends to a width of 1,250 feet for Utility Runway having only visual approaches and 1,500 feet from a runway other than a Utility Runway having only visual approaches. The Airport Approach Safety Zone extends for a horizontal distance of 5,000 feet at a slope of 20 feet outward for each foot upward (20:1) for all utility and visual runways.

AIRPORT HAZARD: Any structure, tree or use of land which exceeds height limits established by the Airport Imaginary Surfaces.

AIRPORT IMAGINARY SURFACES: Those imaginary areas in space which are defined by the Airport Approach Safety Zone, Transitional Zones, Horizontal Zone, Clear Zone and Conical Surface and in which any object extending above these imaginary surfaces is an obstruction.

CLEAR ZONE: Extends from the primary surface to a point where the approach surface is 50 feet above the runway end elevation.

CONICAL SURFACE: Extends 20 feet outward for each one foot upward (20:1) for 4,000 feet beginning at the edge of the horizontal surface (5,000 feet from the center of each end of the Primary Surface of each visual and utility runway at 150 feet above the airport elevation) and upward extending to a height of 350 feet above the airport elevation.

HORIZONTAL SURFACE: A horizontal plane 150 feet above the established airport elevation, the perimeter of which is constructed by swinging arcs of 5,000 feet from the center of each end of the Primary Surface of each visual or utility runway and connecting the adjacent arcs by lines tangent to those arcs.

NOISE SENSITIVE AREAS: Within 1,500 feet of an airport or within established noise contour boundaries exceeding 55 Ldn.

PLACE OF PUBLIC ASSEMBLY: Structure or place which the public may enter for such purposes as deliberation, education, worship, shopping, entertainment, amusement, awaiting transportation or similar activity.

PRIMARY SURFACE: A surface longitudinally centered on a runway. When the runway has a specially prepared hard surface, the Primary Surface extends 200 feet beyond each end of that runway. When the runway has no specially prepared hard surface, or planned hard surface, the Primary Surface ends at each end of that runway. The width of the Primary Surface is 25 feet for Utility Runways having only visual approaches and 50 feet for other than utility runways.

TRANSITIONAL ZONES: Extend seven feet outward for each one foot upward (7:1) beginning on each side of the Primary Surface which point is the same elevation as the runway surface, and from the sides of the approach surfaces thence extending upward to a height of 150 feet above the airport elevation (Horizontal Surface).

UTILITY RUNWAY: A runway that is constructed and intended to be used by propeller driven aircraft of 12,500 pounds maximum gross weight or less.

8.13.4 PERMITTED USES WITHIN THE AIRPORT APPROACH SAFETY ZONE

Any uses permitted outright in the underlying zone may be permitted in the Airport Approach Safety Zone, except as provided in Section 8.13.7.

8.13.5 CONDITIONAL USES WITHIN THE AIRPORT APPROACH SAFETY ZONE

Except as provided in Section 8.13.7, any conditional uses in the underlying zone may be permitted in the Airport Approach Safety Zone when authorized in accordance with Chapter 9 of this Title.

8.13.6 DEVELOPMENT STANDARDS

The following development standards shall apply in the Airport Approach Safety Zone:

- (A) All permitted and conditional uses proposed in this Zone are subject to site plan review by the Planning Commission. A site plan, drawn to scale, and accompanying specifications, shall include the following information:
 - (1) Lot dimensions and setbacks.
 - (2) Sizes and locations of all existing and proposed structures or other uses.
 - (3) Height of proposed structures.
 - (4) Any other information that may be relevant for review to assure compliance with the purpose of this Chapter.
- (B) Construction and development of the site shall be in substantial conformance to the plans approved by the Planning Commission.
- (C) All proposed development in the Airport Approach Safety Zone is subject to appropriate provisions of an airport master plan, if one is adopted for the Vale airport.
- (D) The height of any structure or part of a structure, such as a chimney, tower or antenna, shall not project above the airport approach surface, and may be further limited according to requirements established by the Planning Commission or by other Municipal or government authorities.

8.13.7 LIMITATIONS

- (A) To meet the standards and reporting requirements established in FAA Regulations, Part 77, no structure shall penetrate into the Airport Imaginary Surfaces as defined above under Section 8.13.3.
- (B) The following uses are prohibited in the Airport Approach Safety Zone:
 - (1) Landfills, garbage dumps, water impoundments or other uses that attract birds.
 - (2) Churches, auditoriums, school facilities, hospitals, day care centers and other public or private meeting places designed to accommodate more than twenty-five (25) persons at one time.
 - (3) Uses that interfere with aviation due to height of structures, glare from buildings, smoke, lights that shine upwards and radio interference from transmissions.
- (C) No structure or building shall be allowed within the Clear Zone.
- (D) Whenever there is a conflict in height limitations prescribed by this overlay zone and the primary zoning district, the lowest height limitation fixed shall govern; provided, however, that the height limitations here imposed shall not apply to such structures customarily employed for aeronautical purposes.
- (E) No glare producing materials shall be used on the exterior of any structure located within the Airport Approach Safety Zone.
- (F) In noise sensitive areas (within 1,500 feet of an airport or within established noise contour boundaries of 55 Ldn and above for identified airports) where noise levels are a concern, a declaration of anticipated noise levels shall be attached to any building permit or development approval. In areas where the noise level is anticipated to be 55 Ldn and above, prior to issuance of a building permit of construction of noise sensitive land use (real property normally used for sleeping or normally used as schools, churches, hospital, or public libraries) the permit applicant shall be

required to demonstrate that a noise abatement strategy will be incorporated into the building design which will achieve an indoor noise level equal to or less than 55 Ldn. The Planning Commission will review building permits for noise sensitive land use. (*Ord. 706, 11-27-90, eff. 12-27-90*)

8.14.1 PURPOSES

The Historic Preservation Zone HP is an overlay zone that applies to all sites and structures listed in the Vale Comprehensive Plan Inventory of Historic Sites and Structures. The purposes of the Historic Preservation Zone are to:

- (A) Implement the historic preservation policies in the Vale Comprehensive Plan.
- (B) Encourage the preservation and rehabilitation of sites and structures that represent significant aspects of Vale’s history and architectural heritage.
- (C) Strengthen the economy of Vale by protecting and enhancing the City’s attractions to residents and visitors.

8.14.2 PERMITTED USES

The uses permitted in the Historic Preservation Zone shall be the same as the uses permitted in the underlying zone.

8.14.3 BUILDING AND DEMOLITION PERMITS

A permit is required for the alteration of the exterior appearance, the demolition or the removal of any site or structure listed on the Vale Comprehensive Plan Inventory of Historic Sites and Structures.

- (A) "Exterior appearance" as governed by this Chapter includes any alteration of a facade, texture, design, material, fixtures or other such treatment.

- (B) Nothing in this Chapter shall be construed to prevent the ordinary maintenance or repair of any exterior architectural feature in or on any historic site or structure that does not involve a change in design, material or external appearance thereof; nor does this Chapter prevent the construction, reconstruction, alteration, restoration, demolition or removal of any such feature when the Building Inspector or Fire Marshal certifies to the Planning Commission that such action is required for the public safety due to an unsafe or dangerous condition.

8.14.4 PERMIT PROCESS

The following process shall be followed for permits required under Section 8.14.3:

- (A) The Building Inspector shall refer an application for a permit to work on or demolish a historic site or structure to the Planning Commission through the City staff.
- (B) Such application shall be accompanied by a fee of \$25.00 and by such material as required by the Planning Commission as being reasonably necessary for proper review of the proposed work. This fee is subject to revision by resolution of the City Council from time to time. (*Ord. 783, 3-24-98*)
- (C) Within thirty (30) days from the date of receipt of an application from the Building Inspector, the Planning Commission shall hold a public meeting to review the permit request. The decision shall be in writing and shall state findings of fact and reasons relied upon in making the decision.
- (D) The decision of the Planning Commission shall be transmitted to the Building Inspector within three (3) working days after the meeting pertaining to the permit request.
- (E) In review of an application to wholly or partially remove or demolish a historic site or structure, the Planning Commission may defer action on the request for a period not to exceed ninety (90) days. During this period, the Planning Commission shall attempt to determine if public or private acquisition and preservation is feasible, or if other alternatives are possible to prevent demolition or removal of the historic site or structure.

8.14.5 PERMIT CRITERIA

The Planning Commission, or City Council on appeal, shall approve a permit required under Section 8.14.3 if it determines that the proposed work will not detrimentally alter, destroy or adversely affect any exterior architectural feature of a historic structure, or in the case of proposed construction of a new improvement, building or structure on a historic site, the exterior of such improvements will not adversely affect the site and will be compatible with the external appearance of existing historic structures, if any, on the site.

8.14.6 APPEALS

Decisions made pursuant to this Chapter may be appealed under the provisions of Chapter 12.

8.14.7 HARDSHIPS

The Planning Commission or City Council may approve a permit required under Section 8.14.3 for alteration of a historic site or structure if the applicant presents clear and convincing evidence that denial of the permit

will work immediate and substantial hardship on the applicant because of special circumstances of the property owner, tenant, or resident, or because of conditions peculiar to the site structure involved. If a hardship is found to exist, the Planning Commission or City Council shall make written findings to that effect, specifying the facts and reasons relied upon in making such a determination.
