 - Mixed Use (TRIANGLE FACING STREET INDICATES GROUND FLOOR USE)

ALBINA COMMUNITY PLAN

The process for the development of the Albina Community Plan began in July of 1989. The Plan is expected to be submitted to the Portland City Council for their consideration during 1992.

FUNDING

Funding for the Bureau of Planning's development of this poster was provided as a part of the Albina Community Plan project. The Plan is made possible by the financial support of Pacific Power and Light, Emanuel Hospital (Health Link Systems Inc.), Kaiser Permanente, Portland Bureau of Community Development (Federal Community Block Grant Funds), Portland Development Commission (Convention Center Urban Renewal Program), Portland Department of Transportation (Regional Rail Program), Portland Bureau of Environmental Services, and the City of Portland's General Fund.

PROJECT STAFF

Gretchen Kafoury, Commissioner-in-Charge
 Robert E. Stacey, Planning Director
 Michael S. Harrison, AICP, District Planning Manager
 Michael Hayakawa, AICP, City-Community Liaison
 Colleen Acres, AICP, Ph.D., Senior Planner
 Barbara Sack, AICP, City Planner
 Julia Giesler, City Planner
 Susan Gregory, Word Processing Operator I
 Jean Hester, City Planner
 Kimberly Moreland, City Planner
 Paul Scarlett, City Planner

1989 LAND USE INVENTORY

This map is a visual representation of the predominant land uses in the Albina Community Plan Land Use Study Area. The land use data was collected during the fall of 1989. The data was then aggregated to generate 12 broad land use categories which are shown on the colored map. Where two uses occupy different levels within a building, the site is divided with a diagonal line creating two triangles. The color of the triangle abutting the street frontage indicates the predominant ground level use. The color of the second triangle indicates the predominant use on upper floors. Surface parking and vacant land are shown as close as possible to their actual location. Vacant buildings are indicated by a colored dot which represents the use for which the building was designed.
