NOTICE OF THE FIELD MANAGER'S PROPOSED DECISION

INTRODUCTION

This document addresses the issuance or renewal of your grazing lease. A proposed decision is required by the Code of Federal Regulations (CFR) 4100 to be served on any affected applicant, permittee, or lessee who is affected by the proposed actions, terms, conditions, or modifications relating to issuance of a grazing permit/lease.

BACKGROUND

The current grazing permit/lease for the Squaw Creek Allotment, #2558, expired on 2/28/07 and you, the lessee, for this allotment requested a renewal. An Interdisciplinary team completed a **Land Use Plan Conformance and Determination of NEPA Adequacy (DNA)**, #OR-054-06-118, for this proposed renewal. The DNA is available from the Prineville District upon request.

PROPOSED DECISION

Therefore, it is my proposed decision to issue you a grazing lease, authorization #3605308, on the allotment listed below. Your grazing lease will be for period of ten years (3/1/2008-2/28/2018) and will reflect the following:

Allotment Name and Number	Livestock		Grazing Period		% Public Land	Type Use	AUM's
	Number	Kind	Begin	End			
Squaw Creek Allotment, #2558	37	Cattle	4/01	11/30	100%	Active	297

Due to the computer calculation rounding, the above AUM's may not correspond with your actual grazing preference. Your actual grazing preference is shown below.

Total animal unit months (AUMs) are 301, of which 301 are Active and 0 are Suspended.

Other terms and conditions of the lease would be as follows:

- ◆The BLM is in the process of implementing the standards for rangeland health and guidelines for grazing management. This lease is subject to further modification as necessary to achieve compliance with the standards and guidelines (43 CFR 4180).
- ◆Greenline in riparian areas located on public lands will not be less than 4 inches stubble height, 10% bank damage, and 10% utilization on riparian shrub species at the end of the use period.
- ◆Lessees are required to submit actual use grazing records within 15 days of completion of the year's grazing use.
- ◆Lessees are required to maintain all range improvements for which they have been assigned maintenance responsibility.
- ◆Salting of livestock within one-quarter mile of water is prohibited. Supplemental feeding of livestock on public lands is prohibited without prior authorization from the BLM.

Lessees are to provide reasonable access across private land and leased lands to the BLM for the orderly management and protection of the public lands as allowed in 43 CFR 4130.3-2 (H).

- ◆A statement disclosing the requirement that permittees or lessees shall provide reasonable administrative access across private and leased lands to Bureau of Land Management for the orderly management and protection of public lands.

RATIONALE

Based on the review of DNA #OR-054-06-118, I determined that this renewal meets the criteria for a Determination of NEPA Adequacy (DNA) and that no additional environmental analysis is required. Further more, the renewal conforms to the applicable land use plan and that the NEPA documentation fully covered the proposed action and constitutes BLM's compliance with the requirements of NEPA.

Welch, Field Manager, Central Oregon Resource Area, 3050 NE 3rd Street, Prineville, Oregon, 97754, within 15 days after receipt of such

decision. The protest, if filed, should clearly and concisely state the reason (s) why the proposed decision is in error.

In accordance with 43 CFR 4160.3 (a), in the absence of a protest, the proposed decision will become the final decision of the authorized officer without further notice unless otherwise provided in the proposed decision.

In accordance with 43 CFR 4160.3 (b) upon a timely filing of a protest, after a review of protests received and other information pertinent to the case, the authorized officer shall issue a final decision.

Any applicant, permittee, lessee or other person whose interest is adversely affected by the final decision may file an appeal in accordance with 43 CFR 4.470, and 43 CFR 4160.3, and 4160.4. The appeal must be filed within 30 days following receipt of the final decision, or within 30 days after the date the proposed decision becomes final. The appeal and petition for a stay must be filed in the office of the authorized officer, as noted above. The appellant must serve a copy of the appeal by certified mail on the Office of the Solicitor, U. S. Department of the Interior, Pacific Northwest Region, 500 N.E. - (2) The likelihood of the appellant's success on the merits.
- (3) The likelihood of the immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

As noted above, the petition for stay must be filed in the office of the authorized officer and served in accordance with 43 CFR 4.473.

Any person named in the decision that receives a copy of a petition for a stay and/or may appeal. If you wish to respond, see CFR 4.472 (b) for procedures to follow.
