## NOTICE OF THE FIELD MANAGERS PROPOSED DECISION

### INTRODUCTION

This document addresses the issuance or renewal of your grazing permit. A proposed decision is required by the Code of Federal Regulations (CFR) 4100 to be served on any affected applicant, or permittee, who is affected by the proposed actions, terms, conditions, or modifications relating to issuance of a grazing permit/lease.

### BACKGROUND

The current grazing permit for the Decker (#2538) and Tatum (#2629) grazing allotments will expire on February 28, 2009 and you have requested that we initiate a renewal for this permit. An interdisciplinary team completed the appropriate National Environmental Policy Act (NEPA) documents, Land Use Plan Conformance and Determination of NEPA Adequacy (DNA) #OR-054-08-197 for this proposed renewal. The DNA is available from the Prineville District upon request.

### PROPOSED DECISION

Therefore, it is my proposed decision to issue you a grazing permit, authorization #3605288, for livestock grazing on the allotments listed below. Your grazing permit shall be for a period of ten years and will reflect the following:

Allotment Name and Number	Livestock		Grazing Period		% PL	Type Use	AUM's
	Number	Kind	Begin	End			
Decker	17	Cattle	03/01	02/28	100	Active	204
Tatum	1	Cattle	03/01	02/28	100	Active	12

Due to computer calculation rounding, the above animal unit months (AUM's) may not correspond with your actual grazing preference. Your actual grazing preference is shown below.

#### Decker:

Total AUM's are 206, of which 206 are Active and 0 are Suspended.

Tatum:

Total AUM's are 18, of which 18 are Active and 0 are Suspended.

Other terms and conditions of the permit would be as follows:

- ◆ The BLM is in the process of implementing the standards for rangeland health and guidelines for grazing management. This permit is subject to future modification as necessary to achieve compliance with the standards and guidelines (43 CFR 4180).
- ◆ Permittees are required to submit actual use grazing records within 15 days of completion of the years grazing use.
- ◆ Salting of livestock within one-quarter mile of water is prohibited. Supplemental feeding of livestock on public lands is prohibited without prior authorization from the BLM.
- ◆ Permittees are required to maintain all range improvements for which they have maintenance responsibilities.
- ◆ Permittees are to provide reasonable access across private and leased lands to the BLM for the orderly management and protection of the public lands as allowed in 43 CFR 4130.3-2 (H).

**RATIONALE**

Based on the review of DNA # OR-054-08-197, I determined that this renewal meets the criteria for a DNA and that no additional environmental analysis is required. Furthermore, the renewal conforms to the applicable land use plan and the NEPA documentation fully covered the proposed action and constitutes BLM's compliance with the requirements of NEPA.

- (2) The likelihood of the appellant's success on the merits.
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

As noted above, the petition for stay must be filed in the office of the authorized officer and served in accordance with 43 CFR 4.473.

Any person named in the decision that receives a copy of a petition for a stay and/or an appeal see 43 CFR 4.472(b) for procedures to follow if you wish to respond.
