NOTICE OF THE FIELD MANAGERS PROPOSED DECISION

INTRODUCTION

This document addresses the issuance or renewal of your grazing permit/lease. A proposed decision is required by the Code of Federal Regulations (CFR) 4100 to be served on any affected applicant, permittee or lessee who is affected by the proposed actions, terms, conditions, or modifications relating to issuance of a grazing permit/lease.

BACKGROUND

The current grazing permit/lease for the Charles Hill Allotment #02554 expired on 03/31/2008 and you, the permittee/lessee, for this/these allotment(s) have requested a renewal. An Interdisciplinary team completed a **Land Use Plan Conformance and Determination of NEPA Adequacy (DNA)** document #OR-054-08-025 for this proposed renewal. The DNA is available from the Prineville District upon request.

PROPOSED DECISION

Therefore, it is my proposed decision to issue you a grazing permit/lease, authorization #3605304, for livestock grazing on the below listed allotment(s). Your grazing permit/lease shall be for a period of **ten** years (**3/1/2008-2/28/2018**) and will reflect the following:

Allotment Name and Number	Livestock		Grazing Period		% PL	Type Use	AUM's
	Number	Kind	Begin	End			
Charles H. Hill #02554	11	cattle	4/1	11/30	100	Active	88

Due to computer calculation rounding, the above aums may not correspond with your actual grazing preference. Your actual grazing preference is shown below.

Total animal unit months (aums) are **86**, of which **86** are Active and **0** are Suspended.

Other terms and conditions of the permit/lease would be as follows:

◆ The BLM is in the process of implementing the standards for rangeland health and guidelines for grazing management. This lease/permit is subject to future modification as necessary to achieve compliance with the standards and guidelines (43 CFR 4180).
